Twistin' Wrists & Turnin' Heads

Welcome To 2008!

Wow, another great year is here for the V-Twin industry. At MC Advantages, we're looking forward to our 16th year with a new look and a new motto. We've adopted a new logo that represents our company's drive to soar to the next challenge and promptly deliver the best performance parts and cool accessories to the entire industry. That's the primary reason our tagline is now:

Twistin' Wrists & Turnin' Heads

In order to keep those wrists twistin', we've added the product lines of Crane Cams®, Daytona Twin Tec, Compu-Fire® and Pure Power! Oil Products. We've also added a **completely new Bagger section** for all the touring items that have sprung to market in the last year. This section is packed with new products from Hi-Lo Rider, Wicked Image, Paul Yaffe Originals, Dragonfly Cycle Concepts, Hell's Foundry, Sumax and many others.

Check them all out online at either dealers.mcadvantages.com or on the Dealer Driven Web Shop at MCAdvantages.com. Have an outstanding 2008!

Ride Safe,

Kent Reed
MC Advantages General Manager, kent@mcadvantages.com

MC Advantages Decal Kit

We've got a set of five decals to dress up any operation — from the stunning new MC Advantages chrome decals; the blinged out Prowler® and Spyke® monikers; the cool, bullet hole-cut Bulletprüf® icon and the Stampede™ nameplate.

PART	DESCRIPTION	MSRP
MCDEC	MC Decal Kit	\$5.00

MC Advantages Dealer Signage Kit

With a new logo comes a new set of high quality PVC signs that can be used separately or laid over one another to create a huge point-of-purchase awareness

I. Retro Conversion Kit For '66-'84 Shovelhead To Panhead

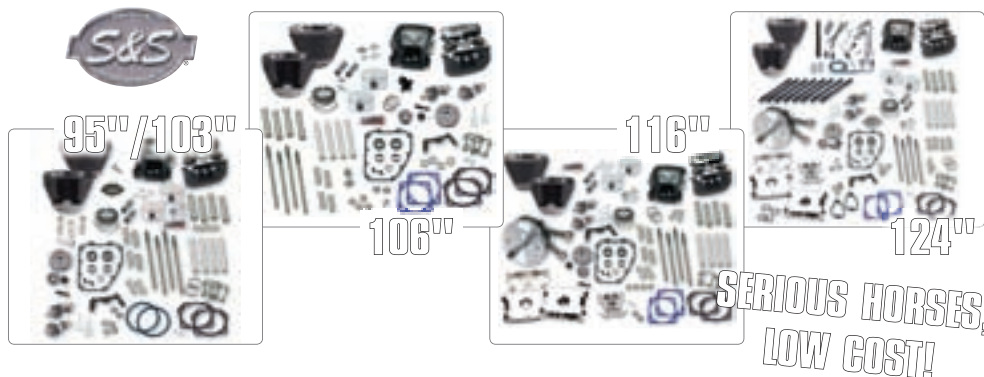

- Give your shovelhead engine the nostalgic look of a pan
- Improves performance at the same time
- Includes S&S® P-Series cylinder heads with rocker cradles, S&S® roller rocker arms, S&S® hydraulic tappets, billet tappet guides, Quickee pushrods, pushrod cover clips, and the required gaskets and hardware for assembly.
- Pan covers sold separately
- Pan covers have a shovelhead bolt pattern, making them compatible with any stock or aftermarket cylinder for 1966-'84 big twins
- They are designed to accept stock or S&S® o-ring style manifolds for shovelhead, and accept any exhaust system made to fit a shovel engine
- Heads come complete with valves and .590" lift valve springs.

E. JIMS® Series II Twin Cam Stroker Kit

JIMS flywheel assemblies were designed for stock engine case bored to accommodate 4" bore cylinders. NOTE: You must order a gasket kit to reseal the engine. JIMS cylinders "blend" into the stock appearance of the motor and are available in silver or wrinkle black. All JIMS stroker kits have a new oiling jet design. Oiling jets are easily installed and ship with every kit.

C. JIMS® Press Flywheel Assemblies for '84-Later Evolution® (8.5") Diameter

The strongest and most rigid crankshaft made thanks to the stiffness of the genuine OE Twin Cam crank pin and bearings. To maximize stiffness and reliability, each unit is forged using JIMS® "H" beam 4340 chrome moly connecting rods. Bare crankshafts require selection of pistons within the specified range to ensure correct flywheel balancing. Balanced and ready to use. See price list for kits without pistons.

A. Crane Cams® Tappets & Pushrods For '66-'84 Shovelhead

- Precision machined and heat treated steel tappet bodies reduce the weight and improve the valve train geometry
- Pushrod seat is relocated to decrease the tappet guide block wear
- Oversize tappets are available to recondition worn tappet blocks

- Pushrods are included with each kit to ensure that a matched assembly will provide top performance and durability
- Pushrods are made from aircraft grade seamless steel tubing
- This kit requires the removal of the top end or the camshaft to install

PART	DESCRIPTION	MSRP
Kits w/ Mechanical Tappets:

B.

B. Crane Cams® Mechanical Tappet Conversion Kit For '66-'84 Shovelhead

- Convert your existing hydraulic tappets to mechanical for weight savings and high RPM operation
- This kit will relocate the pushrod seat height for better valve train geometry and less tappet guide block wear
- This kit does not require machining to install and includes adjustable pushrods
- A new pushrod seat assembly and plug prevents oil from entering the hollow tappet body, for a 25% weight savings
- Requires the removal of the top end or the camshaft to install

PART	DESCRIPTION	MSRP
CR31100	Mechanical Tappet Conversion Kit w/ Adjustable Pushrods, 4-Pack	\$139.84
CR31101	Mechanical Tappet Conversion Kit w/ Stoker-Length Adjustable Pushrods	\$139.84

C.

C. JIMS® Tappet Blocks & Covers

- Used in record breaking drag bikes world wide
- The absolute latest in tappet block design to eliminate all possible oil leakage and true precision fitment to cam lobe for the ultimate in tappet roller life
- "Low Rider" bore angles and 30 grams lighter than OE make them winners
- Recommended use of JM1094 tappets with standard billet lifter blocks
- Billet Lifter Block Covers have extra smooth lines and the absolute best chrome
- Covers come with gaskets and chrome hardware
- Use with JIMS® tappets — replaces OEM #25369-01

F.

F. Feuling™ Adjustable Pushrods

- Increased rigidity for higher engine RPM, horsepower and torque output
- Pushrods are 7/16" chrome moly with .095 or .120 wall thickness.
- Separate pushrods for intake and exhaust allow for minimal adjustment
- Exceeds the needs for performance engines
- Use with hydraulic or solid lifters.

For '99-'07 TC	
FE4065	.095 Wall Thickness \$199.00
FE4075	Shorty, .120, Use w/ FE4060 \$219.00
FE4070	Race, .120 Wall Thickness \$219.00
For '85-'99 BT	
FE4077	.095 Wall Thickness \$199.00
FE4080	Race, .120 Wall \$219.00

G.

G. S&S® Quickee Pushrods

- Unique threaded adjuster screws into the pushrod until the threads disengage
- Adjuster simply slides into the pushrod, making installation and removal a snap
- Once in place, a locknut prevents the adjuster from moving.
- Fitments For '64-Later BT
- See MCAAdvantages.com for complete fitment information

H. S&S® Pushrods

- Made from .25" chrome moly tubing
- Fits '84-'99 Evolution®/XL and Twin Cams
- See MCAAdvantages.com

I. JIMS® Billet Pushrod Cover Sets

- Unique clip that looks like a complete tube
 - Single push-pull spring type function.
 - Requires other JIMS® parts, call for details

A. JIMS® Roller Rockers

- JIMS® roller rockers reduce friction in the valvetrain and provide more horsepower and less heat in the top end
- Cast from 4340 chrome moly steel and heat treated
- 660 bronze bushing fit for the best wear resistance and oil control
- Roller tip made from bearing grade material to reduce guide wear and galling

Roller Rockers, Stock Ratio

JM1045RR	For '84-Later BT/TC/S&S®, '86-Later XL, '87-Later Buell®	\$494.20
JM1761183	Shaft For JM1045RR & Similar Fits	\$18.25

B.

CRANE
Cams

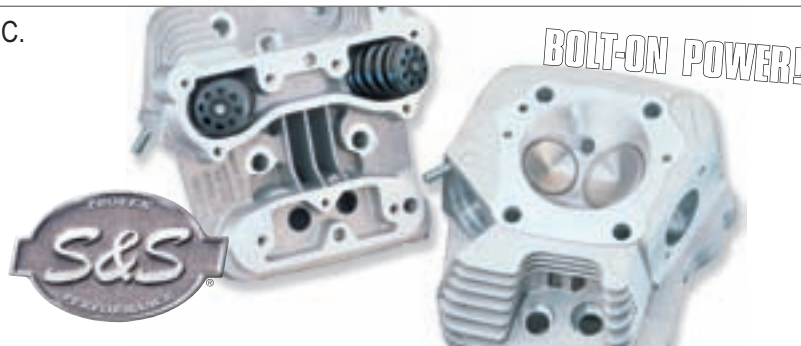

B. Crane Cams® Roller Rockers

- Oil metering system lubricates the fulcrum and roller tip for cooler operation
- Bushing fulcrum for long term performance and reliability
- Use the original equipment rocker arm shafts, fits with no machining
- Made from 4140 alloy steel, precision investment cast for greater strength, truer rocker arm ratio, and improved rocker geometry

PART	DESCRIPTION	MSRP
CR41015	For '99-Later TC88®/'84-'99 Evolution® & '86-Later Evolution® XL883 & XL1200 Stock Ratio, Bushing Style	\$488.23

D. S&S® Panhead-Style Head Kits For Shovelhead or P-Series

- Replacements for P-Series engines, or for most shovelhead engines to give a nostalgic look and a performance boost over stock
- Stock shovelhead bolt pattern
- Intake ports accept o-ring manifolds for shovels — the exhaust ports will bolt up to any exhaust system for a shovel engine
- A special S&S rocker cradle is required to support the rocker arms
- Will not fit on stock panhead cylinders
- Complete kits include valves and springs, heads also available separate and bare

PART	DESCRIPTION	MSRP
SS1060414	Stock Bore, Single Plug, Silver	\$1,199.95
SS1060417	3.625" Bore, Single Plug, Silver	\$1,199.95
SS1060420	3.625" Bore, Dual Plug, Silver	\$1,259.95

E. Edelbrock® 95" EFI Power Package

- Designed for '01-Later Softail®, '04-'05 Dyna® and '02-Later tourers using 91 octane fuel with stock throttle body and Delphi® ECU.
- Edelbrock® CNC ported heads are the heart of the package—to give the gut-wrenching power that every rider wants.
- Includes Edelbrock® cylinder heads; Edelbrock® Performer RPM Chain or gear driven camshafts; Edelbrock®/JE pistons (10.25:1), rings, wrist pins and pin locks for 95 cu. in. motor; all necessary gaskets; adjustable pushrods; EFI intake manifold for stock throttle body; high-flow air cleaner and fuel calibrations for 30-plus pipes.* More calibrations at Edelbrock.com.

PART	DESCRIPTION	MSRP
EFI Power Package, Chain-Driven Cams**		
ED30204	Grey Powdercoated Finish Heads	\$2,614.95
ED30244	Black Powdercoated Heads	\$2,614.95

A. JIMS® Oversized Breather Gears For BT

JIMS® replacement breather valve gear is made +.030" oversize to correct a damaged breather valve hole. **Provides precise control of exhausting crankcase pressure.** Made from the finest aerospace quality steel.

PART	DESCRIPTION	MSRP
JM2337	For L77-'79 BT w / Single Cam (Use Tool JM1706)	\$78.85
JM2338	For '48-E'77 BT w/ Single Cam (Use Tool JM1706)	\$78.85

B. Stampede™ Oil Foil Blow-By Stopper

- Works as an oil collector, allowing removal of the bottom reservoir to drain it
- Internally baffled with breather filter included
- Can be used with Spyke® Krank vents or other PCV valves
- 5" overall height

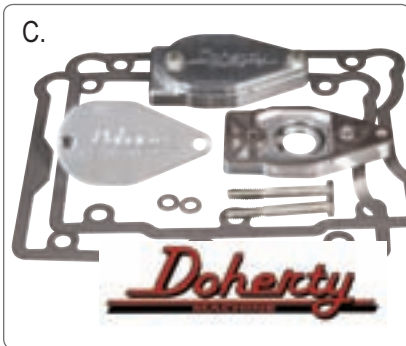

PART	DESCRIPTION	MSRP
STRWFC	Stampede™ Oil Foil, Chrome	\$149.99
STRWFP	Stampede™ Oil Foil, Polished	\$129.99

C. Doherty Machine MYSTFREE™ Blow-By Stopper

- Designed specifically for the TC88® to stop the blowby mist emitted from an engine's breather system — **GUARANTEED!**
- Utilizes a two-chamber design to capture and return emitted oil so that no oil residue ever reaches the raised air outlet located on the top front portion of the MYSTFREE
- Installation requires only the removal of the six bolts securing each rocker box

PART	DESCRIPTION	MSRP
DH1999	MYSTFREE For Twin Cam 88®	\$229.95

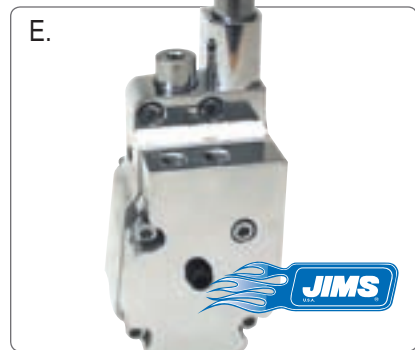

D. Yankee Engineuity Auxiliary Scavenger Oil Pump

PART	DESCRIPTION	MSRP
YESP01	For '70-'99 Big Twin and '70-Later XL	\$375.00

E. JIMS® Billet Oil Pumps

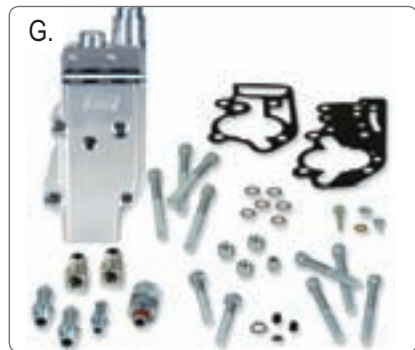

Increase in oil return (scavenge) volume over stock pumps, increases horsepower by decreasing drag on the flywheels and other rotating parts.

A. Crime Scene Choppers Oil Filter Mount & Motor Mount

- Combines the top motor and Vendetta oil filter mount for a super clean installation
- Made from TIG welded steel, triple chrome plated
- Top motor mount includes stainless hardware
- Use with the Crime Scene Choppers Vendetta Oil Filter for maximum impact!

PART	DESCRIPTION	MSRP
CSC804	Steel Motor Mount Only, 80"-124" Engines, Chrome	\$99.00
CSC805	Steel Oil Filter Mount Bracket, Chrome	\$79.00

B. Crime Scene Choppers Vendetta Oil Filter

- Styling to match their popular oil tanks for a cool retro look
- Oriented to match a stock Panhead filter with chrome late model spin on filter
- Mount it anywhere or hang it in the breeze
- Complete with chrome K&N® filter and fittings, accepts filters with M1.5-16 thread

PART	DESCRIPTION	MSRP
CSC604	Mount, Chrome	\$298.00
CSC603	Mount, Satin w/ Highlight Fins	\$218.00

C. Engine Sentry™

- Protects engines from particles 20 times thicker than oil that wear on cylinders
- Powerful nickel-coated magnet inserted into any spin-on oil filter holds the steel shavings that trap damaging sludge, salt, carbon, nickel, chromium, copper, aluminum, and magnesium
- Proven to extend engine life, cool oil temps, increase lubricity, and improve filter and oil performance. Install Engine Sentry™ with each oil change

PART	DESCRIPTION	MSRP
MS010	Engine Sentry, 10-Pack	\$69.50/\$6.95 Piece

D. Stampede™ Billet Oil Filter & Regulator Mount

Stampede™ Oil Filter/Regulator Mounts are CNC machined from billet aluminum. Fits '84-'99 Softail®/BT and customs. Available in chrome or polished.

PART	DESCRIPTION	MSRP
STOFC	Oil Filter Bracket, Chrome	\$85.00
STOFF	Oil Filter Bracket, Polished	\$72.00

E. Feuling™ Oil Filter Cooler Kits

- This microfilter drastically reduces contamination and viscosity breakdown
- Protects from cylinder, piston, ring and bearing wear, cylinder bore polishing and high oil temps, therefore promoting engine performance, longer engine life and extended oil change intervals
- Includes housing, bracket, filter mount, braided steel lines, swivel fittings, K&N® filter and all necessary hardware.

PART	DESCRIPTION	MSRP
For '99-Later Softail®

E.

E. Pure Power! Lifetime High Performance Oil Filter Cooler

- CLEANABLE, REUSABLE direct spin-on replacement for the O.E.M. Oil Filter
- 90% improvement in particle removal over paper "throw away" filters
- Provides for longer engine life, extended oil change intervals, cooler operating temperatures, increased power, improved fuel mileage and lower emissions
- The last oil filter you'll ever need!

PART	DESCRIPTION	MSRP
PW8110BF	High Performance Oil Filter Cooler, '84-Later BT/TC	\$199.95

G. Pure Power! Heavy Duty SAE 15W/40 V-Twin Oil

- Specifically formulated to provide excellent performance in all recommended motorcycles
- Extremely high TBN/Alkaline Reserve (13+) that effectively neutralizes corrosive acids to protect bearings and other vital surfaces
- With Pure Power!, oil change intervals can be lengthened 2-4 times longer
- Lowers operating temps, lowers emissions, increases fuel mileage and increases horsepower
- Fortified with oxidation-corrosion inhibitors, high temperature anti-wear additives and foam inhibitors to prevent engine scuffing and bearing corrosion
- Highly effective detergent-dispersant to keep sulfated ash to a minimum

PART	DESCRIPTION	MSRP
PW10632	Heavy Duty SAE 15W/40 Oil, 12-Pack	\$107.40

B.

**PERFORMANCE
 PROTECTION
 QUALITY**

A. Manhattan Oil V-Twin Superior Oil Treatment

- Extends engine and oil life • Lowers temperatures • Provides anti-friction barrier
- Quiets engine noise • Prevents viscosity breakdown • Improves shear stability
- For use with all oils • Reduces oil consumption • Increases oil pressure
- Eliminates dry starts • Prevents rust corrosion, varnish and sludge
- Improves fuel mileage • Complies with all manufacturer warranty requirements
- Will bring automotive and truck oils up to motorcycle standards

PART	DESCRIPTION	MSRP
LHT	V-Twin Superior Oil Treatment, 16 oz Bottle	\$11.95
LHTC	Oil Treatment, Case of 10 16 oz. Bottles	\$119.50

B. Liquid Horsepower Octane Booster

- Increases octane effect up to 10 points while improving combustion in all grades of gasoline
- Stabilizes fuel for storage
- Lubricates valves and upper cylinder to help prevent rust, corrosion and wear
- Increases power and fuel mileage — combustion enhancer
- Helps engines run smoother and start easier
- Can be used with all carbureted or FI engines
- Keeps fuel systems clean

PART	DESCRIPTION	MSRP
LHB3012	6 oz, Treats 30 Gal., 12-Pack	\$119.40
LHB30S	6 oz, Treats 30 Gal., Single	\$9.95
LHB524	1 oz., Treats 5 Gal., 24-Pack	\$72.00
LHB5S	1 oz., Treats 5 Gal., Single	\$3.00

C. Fuel Fragrances

- Sweeten up your exhaust with fuel fragrances!
- For gas, methanol or diesel in lawn mowers all the way to dragsters
- Sets you apart from the rest of the crowd
- Does not inhibit performance — safe for all engines
- Not effective in catalytic converter systems

PART	DESCRIPTION	MSRP
LHFCB	Cherry Bomb, 4 oz. Treats 10-20 Gal./Gas	\$9.95

B. S&S Cycle® Single Bore Induction Systems

In an effort to help dealers and retail customers make the right selection choices for specific applications, S&S® developed the following process to help in ordering Single Bore Induction Systems.

STEP 1: SELECT A MANIFOLD, '01-'06 BT

PART	DESCRIPTION	MSRP
SS165141	Fits 88", 95", 103" & 106", 4.937" Cyl., 410 Manifold	\$119.95
SS165134	Fits 100", 4.850" Cyl., 405 Manifold	\$119.95
SS165135	Fits 107", 4.975" Cyl., 414 Manifold	\$119.95
SS165136	Fits 111", 4.763" Cyl., 398 Manifold	\$119.95
SS165137	Fits 116", 5.160" Cyl., 428 Manifold	\$119.95
SS165138	Fits 117", 4.888" Cyl., 408 Manifold	\$119.95
SS165139	Fits 124", 5.013" Cyl., 417 Manifold	\$119.95

STEP 2: SELECT A THROTTLE BODY KIT

SS175068	Throttle Body Kit, '95-'01 BT (Except Softail®)	\$874.95
SS175067	Throttle Body Kit, '02-'05 BT (Except Softail®)	\$719.95

STEP 3: SELECT A RUNNER KIT OR AIR CLEANER

Air Cleaners:

SS170498	Teardrop For Stock H-D®/S&S® Heads or 4" Bore	\$199.95
SS170497	Desperado For Stock H-D®/S&S® Heads or 4" Bore	\$199.95
SS170496	Desperado For S&S® Heads w/ 4 1/8" Bore	\$199.95

Single-Bore Tuned Induction Runner Kits:

SS171005	Single Bore Kit, Chrome	\$324.95
SS171003	Single Bore Kit, Black Powdercoat	\$239.95
SS171001	Single Bore Kit, Natural	\$239.95
SS171046	Bracket For '84-'06 BT w/ 4 1/8" Heads	\$374.95
SS171047	Bracket For '84-'06 BT w/ Stock or S&S® Breather	\$374.95

B. Single Bore Induction Ordering Process

Step 1: Select a manifold based on the size of your engine. These manifolds are specifically designed for EFI applications. They include fuel injector mounting ports and provision for a stock-style MAP sensor. Available in most stock lengths and for fitment with S&S® Hot Set Up Kits. Custom manifolds are available by special order, please ask your MC Advantages sales representative for details.

Step 2: Select a throttle body. S&S® premium throttle body comes with body, fuel rail, fuel injectors, fuel injector wiring adapters, breather hardware and required seals. Stock air temp sensor, throttle position sensor, idle air control and MAP sensor can be reused.

Step 3: Select a runner kit or air cleaner. S&S® offers three runner kits in chrome, black powdercoat or natural finishes. S&S® offers three air cleaners to meet your EFI needs. The first two kits fit stock Harley-Davidson® cylinder heads or S&S heads for stock or 4" bore engines. The third kit is for S&S 4 1/8" bore engines like the T124 or 124" Hot Set Up Kit equipped with S&S Cylinder heads.

C. Daytona Twin Tec Twin Tuner FI Controller For '01-'07 TC

- Increased horsepower at a lower cost!
- Improved throttle response
- Easy plug-in installation and setup
- Very compact size - only 4" x 2" x 0.5"
- Can use Dynojet® Power Commander maps
- Compatible with Twin Scan II+ Tuning Aid
- Excludes '08 touring models with electronic throttle body

PART	DESCRIPTION	MSRP
DATWINTUNER	Fuel Injection Controller For '01-Later TC w/ Delphi® & '99-Later Buell® w/ DDFI Fuel Injection	\$199.00
DATWINADAPTHARN	Twin Tuner Adapter Harness	\$39.00
DATWINPWRADAPT	Twin Tuner Power Adapter	\$70.00

A.

A. Daytona Twin Tec Gen III Fuel Controller For '01-'08 TC

- Simultaneously auto-tune fuel curves for both cylinders under riding conditions
- Fully programmable plug-in replacement for Delphi® controller
- Robust alpha-N fuel control eliminates problems with long duration camshafts
- Powerful software for custom programming, analysis, logging and diagnostics
- Full support for J1850 data bus used for communications with turn signal/security module (TSM/TSSM) and instrument cluster
- Does not fit '08 touring models
- Supports all sensors including theft/security module — easy plug-in installation

PART	DESCRIPTION	MSRP
DATCFI3DKIT	TCFI III Fuel Injection Kit (Supersedes TCFI2D-KIT) Includes WEGO III & Bosch® O ₂ Sensors	\$875.00

B.

B. Daytona Twin Tec WEGO III Air/Fuel Ratio Tuning Aid

- Complete air/fuel ratio metering system with built-in data logging
- Includes WEGO III, Bosch LSU4.2 5-wire oxygen sensor, 18x1.5mm weld nut for mounting sensor on exhaust pipe, and software
- Displays air/fuel ratio and logs over 2 hours data including AFR & RPM

PART	DESCRIPTION	MSRP
DAWEGO3SYS	WEGO III Wide-band Exhaust Gas Oxygen System	\$399.50

C. S&S® EZFI™

- Provides economical tuning for stock engines with mild performance upgrades
- Add on to existing stock ECM
- Retain stock TSSM functions
- Fits all Delphi® equipped Harley-Davidson® models

PART	DESCRIPTION	MSRP
SS1060890	EZFI Module Kit	\$104.95
SS1060891	Wiring Harness (Bypass)	\$104.95
SS551271	Diagnostic Cable	\$104.95

C.

D. Dynatek® Fuel Injection Controller

- The fastest and simplest way to fine tune fuel delivery without a computer
- Measures only 2 3/4" x 1 3/4" x 3/4"
- Use a screwdriver to adjust the low, mid and high range from -20% through +20%
- Four selectable curves correspond to the level of performance modifications

Fits for:	MSRP
DCFCH1 '97-'98 Touring w/ Evolution®	\$249.00
DCFCH2 '99-'01 Touring w/ TC	\$249.00
DCFCH3 '02-'05 Touring w/ TC	\$249.00
DCFCH6 '06 Touring w/ TC	\$249.00
DCFCH8 '06 Dyna™	\$259.00
DCFCH4 '01-'05 Softail® & Dyna™	\$249.00
DCFCH7 '06 Softail®	\$249.00
DCFCH5 '02-'06 V-Rod®	\$249.00

D.

E. Techlusion Fuel Injection / Dobeck Performance - TFi

- Carburetor tuning logic for easy adjustments with powerful results
- Requires no web downloads, maintains the stock fuel map
- Load-based system verses RPM-based for better performance.

PART	DESCRIPTION	MSRP
TFI1040ST	For '95-'05 Fuel Injected Big Twins	\$245.00
TFI1240ST	For '06 Softail® & Touring Models	\$245.00

E.

F. S&S® VFI Closed-Loop Sensor Kit

- Allows VFI users to upgrade to a closed loop system
- Includes two oxygen sensors, two weld-in exhaust bosses, oxygen sensor wiring subharness, connectors and instructions

SS551590	'01-'05 Delphi® Style	\$289.95
SS551620	L'95-'01 MM Style	\$279.95

The Highest-Tech Carb Is Also The Easiest To Use.

Big-Air adjustability is equivalent to 15 different main jets in the other maker's standard carbs

3 simple external fuel knobs can be adjusted in seconds. No teardown needed to tune. (Pilot Fuel At Bottom Right)

A ribbed venturi passes more air and vaporizes fuel better than the 20-year-old technology of other carbs.

Highly atomized fuel vaporization keeps fuel in suspension longer for incredible throttle response. Meets 2010 emissions standards.

8 internal ball bearing rollers ensure a very smooth slide.

The Big-Air Carb is the only carb on the market with a 3-year limited warranty.

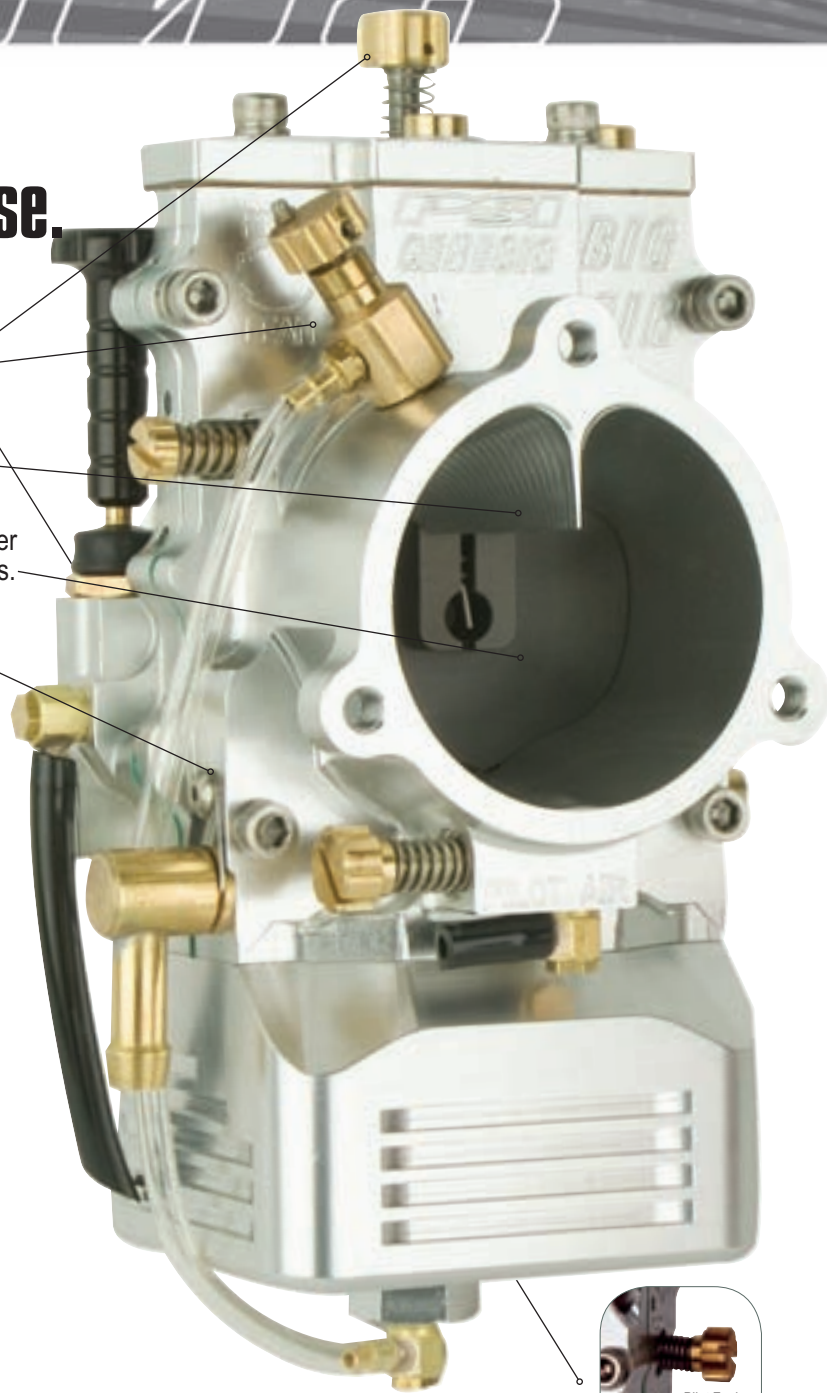

Big-Air Carbs fit 80"-100", 103"-113", 117"-131" and 124"-155" engines with an S&S® Super G intake manifold.

The Big-Air is the first carburetor in 20 years to introduce completely new technology to the V-Twin market.

Setup for single-cable or dual-cable pull

A. PSI Big Air Carburetor

D. S&S® Quick Set Up Exhaust & Intake Kit

- A quick 10 horsepower for about a small amount of money!
- Contains a pair of S&S performance mufflers, an S&S teardrop air cleaner, and a jet kit for carbureted models
- No engine work to do, and everything needed is included in the kit!
- Kits for '07-Later models do not include jet kits
- Make more power by making it easier to get air into the engine with either a high flowing S&S teardrop air cleaner or the new single throat tuned induction system
- Also makes it easier for exhaust to exit through low restriction mufflers
- Kits with the single bore tuned induction system provide an added kick due to the increased filter area and the effect of the tuned induction

SS1061013 For Sportster®

SS1061013 For Softail®

SS1061013 For Dyna®

SS556507 For Baggers

A.

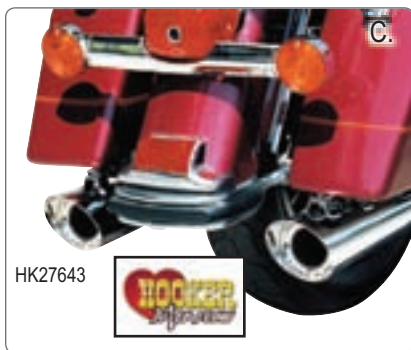

A. S&S® Stainless Performance Oval (SPO™) Mufflers

- Many compare the exhaust note of the standard SPO to the pleasing low rumble of a late '60s muscle car — but at a reasonable volume that is not likely to get the neighbors upset
- Makes as much power as much louder competitive performance mufflers
- Avoid covering the bike's audio system!
- A high temperature flat black powdercoat material capable of withstanding the exhaust temperatures of an S&S T124 engine was applied to the baffle flange — this hides soot, keeping the exhaust looking cleaner
- For even a little quieter, but with more power than the stock exhaust, the separate accessory baffle will reduce the noise by about 3 dB
- S&S® 80 dB SPO™ Mufflers meet the EPA 80 dB drive-by test requirements
- Testing at S&S with an otherwise stock 2007 FLHTC showed these new mufflers to not only be quiet, but to provide a boost in power at the same time
- Note: S&S 80 dB SPO mufflers may not conform to EPA standards if installed on a vehicle with a modified engine
- Mufflers are tamper proof in accordance with EPA regulations

SS1060116	Standard SPO Mufflers	\$594.95
SS1060117	Quiet Baffle For Standard SPO Mufflers	\$149.95
SS556634	80 dB SPO Mufflers	\$694.95

B. Martin Bros.® Bag Daddy Exhaust Pipes

- These fully-shielded 2.25" pipes merge into on 3.5" stock-mount pipe
- Punched out 10.2 more HP and 9 more ft lbs. out of a stock '07 touring model

C. Hooker® Exhaust For Baggers

For LSD '86-Later Bagger Models Unless Noted		MSRP
MB028P	Chrome	\$799.99
MB028PB	Ceramic Black	\$799.99

D. S&S® Slip-On Performance Muffler Kits

- Increase the horsepower of ANY stock Big Twin with these chrome mufflers
- Add up to 8 horses and 5 ft. lb. of torque!
- Great for big inch engines with excellent low and midrange torque
- May require rejetting or recalibration of your EFI — These do not conform to U.S. EPA noise emission standards

Slip-On Exhaust For:		MSRP

Hooker® Troublemaker™ Exhaust

- Stepped head pipe design with no visible bluing
- Top-end horsepower without sacrificing low-end torque
- A metallic ceramic coating on the internal head pipes retains the right amount of heat, increasing the exhaust velocity for

- more horsepower
- Includes a muffler cartridge that delivers a deep rumble
- Optional muffler cartridges are also available offering either a smooth mellow sound or loud sound with improved flow

- Includes exhaust gaskets, c-clips, chromed flanges, machined brackets, nuts, bolts and detailed instructions.

A.
**Bolt-On
 Easy To Use
 Triple Spark**

**ACCULIGHT
 IGNITION SYSTEM**

A. Spyke® Acculight Ignition System

- The only triple-fire ignition on the market—which means that it can fire up to three times per compression stroke. Burn fuel more completely!
- High-tech, yet easy to install in single- or dual-fire mode
- Uses optical sensors for up to three stable and precisely timed sparks per stroke
- Preset with four fully changeable curves
- Coil saturation can be set to different values at different RPM's
- Two separate RPM activated switches with variable on/off RPM settings can have different values for all sensor states—use with nitrous or auto-shifting
- Tachometer output to almost any tachometer, including automotive tachometers
- Automatic coil shutoff
- Precision stainless steel rotor
- Special curves available for racers, engine builders and OEM's — call for details

PART	DESCRIPTION	MSRP
SPIASA	3-Spark, Single-Fire Ignition	\$273.00
SPIASAK	Single-Fire Ignition w/ Single-Fire Coil & Plug Wires	\$385.00
SPIADA	3-Spark, Dual-Fire Ignition	\$227.50

DCS2KC4P	Dual-Plug/Dual-Fire & (2) DC21 Coils	\$399.99
DCS2KC5P	Single-Plug/Single-Fire & DC65 Twin Fire Mini Coil	\$399.99

Programming Kits For:

DCSPK1	D2Ki-P and All D2Ki Kits w/Coils	\$99.99
DCSPK2	2000HD1EP, 2000HD2EP and SFK-1	\$99.99
DCSPK3	2000HD1E8, 2000HD2E8 and SFK-3	\$99.99
DCSPK4	For Twin Cam 88®-2P	\$99.99

D. Dyna® S Ignitions w/ Coil (Street Use)

- Self-contained electronic ignition system with the latest state-of-the-art engineering with the reliability of use by top racers over twenty years
- Completely housed behind the ignition cover and uses a magnetic rotor with the original spark advancer, effectively maintaining the factory advance curve

PART	DESCRIPTION	MSRP
DCS61	'70-'99 (Dual-Fire) Use w/ Points Coil	\$124.99
DCS62	'70-'99 (Single-Fire) Use w/ Points Coils	\$149.99
DCSK61	'70-'99 (Dual-Fire) w/ Dyna® Dual-Fire Coil	\$189.99
DCSK62	'70-'99 (Single-Fire) w/ Dyna® Single-Fire Coil	\$279.99

E. Daytona Twin Tec Ignitions For '70-'99 BT

- Two advance curve groups with adjustable advance for stock to mod engines
- Digitally set RPM limit (100 RPM steps)
- Selectable single or dual fire mode
- Selectable multi-spark mode for quick starting and smooth cruise
- Coil outputs protected against short circuits
- Ask for USB interface #DAUSBINTF to program custom advance curves
- Billet aluminum housing

PART	DESCRIPTION	MSRP
DA1005	Model 1005 For '70-'99 BT & '71-'97 XL, Internal	\$269.99
DA1005S	Model 1005S For '98-'02 XL (Excludes 1200S), Internal	\$289.99
DA1006	Model 1006 For 7-Pin '90-'94 BT & '90-'93 XL, External	\$289.99
DA1007	Model 1007 For 8-Pin '95-'98 BT & '94-'97 XL, External	\$289.99
DA3005	Model 1005 Ignition, Coil & Plug Wire Kit	\$359.99
DA3005S	Model 1005S Ignition, Coil & Plug Wire Kit	\$379.99
DA3006	Model 1006 Ignition, Coil & Plug Wire Kit	\$379.99
DA3007	Model 1007 Ignition, Coil & Plug Wire Kit	\$379.99

F. S&S Cycle® IST Ignition System

- Simple install, auto timing adjustment, single-fire operation and auto dwell-adjust

PART	DESCRIPTION	MSRP
SS551221	Ignition Module	\$384.95
Installation Kits For:		
SS551049	'84-'99 Carb BT & '86-'03 XL	\$654.95
SS551012	'99-'03 Twin Cam 88®	\$174.95
SS551220	'04-'06 Carb Twin Cam 88®	\$189.95
SS551225	'04-'05 Sportster®	\$199.95
SS551050	S&S® 4 1/8" Bore '84-'99 BT	\$294.95

A.

A. Dyna® 2000 Digital Ignitions

- The market standard — replaces stock non-adjustable ignitions
- Expanded advance curve functionality with the option to use vacuum advance compensation via a V.O.E.S. switch and a special retard mode for use with turbocharged and nitrous bikes
- Select from eight advance curves with quick curve to simulate a mechanical advancer for hot rod motors
- Four rev limiter settings and retard of 5°, 7°, or 10° upon activation of input
- Uses the stock factory pick-up — harness is available for installing pre '91 bikes
- Requires programming kit, contact MC Advantages for details

PART	DESCRIPTION	MSRP
DCSD2H1EP	Single/Dual-Fire	\$249.99
DCSD2H1E8P	Single/Dual-Fire 8-Pin	\$249.99
DCS1009002	7 to 8-Pin Adapter	\$69.99
DCSD2H2EP	Dual-Fire	\$199.99
DCSD2H2E8P	Dual-Fire 8-Pin	\$199.99
DCS1009001	Extension Harness	\$39.00

For '99-'03 Carbureted TC

B.

B. Crane Cams® FireBall HI-4TC Carbureted Ignitions

- The same performance and absolute reliability of FireBall HI-4 and FireBall HI-4E, the worlds favorite!
- Easy to install — mounts in place of the stock module with plug-in installation
- True Single-Fire — Crankshaft position sensor is used to establish accurate firing — rear cylinder timing can be offset from -5 to +4. Initial timing is set from -5 to +4, both via easily adjusted, rotary switch
- Ten advance curve families for stock to wild! — easily selected via rotary switch
- Programmable advance curves for programming on or off the bike!

PART	DESCRIPTION	MSRP
CR83170	FireBall® Performance Ignition For '99-'03 TC88®	\$370.18
CR83180	FireBall® HI-4TC Performance Ignition For '04-Later TC88® & '03-Later XL w/ 12-Pin Plug	\$370.18
CR83220	HI-4TC Interface Cable & Software For CR83180	\$163.84
CR83210	HI-4TC Programming Software Cables & Power Adapter For CR83170	\$163.84

C.

C. Daytona Twin Tec Ignitions For Twin Cam

- Wide timing advance adjustment range for stock to highly modified engines
- Digitally set RPM limit (100 RPM steps)
- Selectable multi-spark mode for quick starting and smooth cruise
- Coil outputs protected against short circuits
- Optional USB interface and software for programming custom advance curve
- Billet aluminum housing with black anodized finish
- Easy plug-in installation
- Supports all sensors including theft/security module
- USB Interface includes all required adapters for DA1005-1007, DATC88, DATC88A and TCFI/VRFI fuel injection systems

PART	DESCRIPTION	MSRP
DATC88	Plug-In Ignition For Carbureted '99-'03 TC	\$289.00
DATC88A	Plug-In Ignition For 12-Pin Carbureted '03-'06 TC/XL	\$289.00
DA3008	DATC88 Ignition, Coil & Wires Kit	\$379.00
DA3088	DATC88A Ignition, Coil & Wires Kit	\$439.00
DATC88ADAPT	TC88 Power Adapter	\$99.95
DATC88AADAPT	TC88A Power Adapter	\$99.95
DAUSBINTF	USB Interface	\$99.95

D.

D. Dyna® 2000 Standard Ignitions For Twin Cam

- Single fire, fully programmable ignition with a one-year warranty
- 16 pre-programmed advance curves, in 3 groups from stock/slightly modified to heavily and insanely modified motors
- 8 rev. limiter settings, (5750-7250) in 250 RPM steps
- All functions full digital accuracy
- Coil compatibility from stock to performance (less than 1 ohm resistance)
- Coil current constantly monitored to provide constant full spark energy
- Use of all stock sensors, mounts and connectors
- Reverse battery and spike protection are built-in

*Dyna 2000 Ignition's Programmable Features & Data Recovery features require programming kits. Refer to HD programming kits

PART	DESCRIPTION	MSRP
DCSTC882P	For '99-'03 TC w/ Carb	\$249.99
DCSTC883	For '04-'06 TC w/ Carb	\$249.99
DCSPT1	For '04-'06 Sportster®	\$249.99

E. Dyna® 4000 Ignitions (Not Shown)

- Specifically designed to meet the needs of the serious racer
- Significantly increases spark energy and also includes built in launch and over-rev RPM limiters
- Uses microprocessors to provide extremely accurate control over the entire ignition process to maximize spark energy and control rev limiting with more precision than had previously been available

	MSRP	PART	DESCRIPTION	MSRP	
DCSPK4H1DF	Single-Plug/Dual-Fire Kit	\$499.99	DCSP4H1S	Module Only, Single-Plug	\$399.99

A. S&S® Billet Generator-Style Timer/Distributor

- For any shovelhead application with a counter clockwise rotation
- Features easy installation without having to remove the heads

PART	DESCRIPTION	MSRP
SS551269	Electronic Timer, Fits '36-'69 Generator Cases	\$399.95

B. Spyke® Quick Install Distributor & Kits

- Two-piece design allows installing the distributor without removing front head
- **Recommended for use with a Spyke® or Stampede® DF Ignition Kit only**

PART	DESCRIPTION	MSRP
SPDC	Quick Install, Chrome	\$279.99
SPDCKD	Chrome Distributor, Dual-Fire Ignition, Coil & Plug Wires & Hold-Down Clamp	\$449.99

C. Spyke® 80,000 Volt Coil

- Mounts under stock covers and has a resistance rating of 3Ω.
- **Extremely quick rise and fall times all while firing at an extremely low voltage to aid in the ease of starting**

PART	DESCRIPTION	MSRP
SPC	Single-Fire Coil	\$115.00
SPCDF	Dual-Fire Coil	\$59.99

D. Dyna® Coils

- **High tech, top quality coils are designed for maximum performance!**
- Spark voltages in excess of 30,000 volts and spark energies second to none
- For three configurations and five variations of resistance for different applications
- Works with point ignitions, aftermarket or OE electronic ignitions
- Before selecting, check the ignition manufacturer's resistance requirements
- No exposed laminations for rust to degrade performance — 1 year warranty

PART	DESCRIPTION	MSRP
DC92	Four Out, 0.7Ω, Twin Fire	\$179.99
DC64	Four Out, 3.0Ω, Twin Fire	\$154.99

E. Grandeur Cycle® Wire Harness

Easily wire your bike from the headlight to the taillight and everything in between. The kit includes color coded wire with protective covering, four sizes of heat shrink tubing, wire end terminals, fuses and fuse holders, and solder. Includes easy to follow diagram.

GRWK	Complete Wiring Harness	\$49.95
------	-------------------------	---------

F. Stampede Wiring Harness For Softail®

This is a solidly built, preassembled and complete wiring harness for custom/Softail® models

MS001	Complete Wiring Harness	\$129.99
-------	-------------------------	----------

G. Compu-Fire® Spark Plug Wires

• 8mm spiral-wound plug wire set for four-plug applications

• Use with all custom applications utilizing single or dual plug heads and any coil combination

CF40100	Single Spark Plug Wire Set, 2 Wires	\$15.71
---------	-------------------------------------	---------

CF40200	Dual Spark Plug Wire Set, 4 Wires	\$31.49
---------	-----------------------------------	---------

A.

A. Taylor High Performance 8mm Pro Wire

- 100% Silicone-jacketed wires allow for maximum energy transfer
- Resistor core wires
- Maximum durability and heat protection
- Provides for optimum spark and max horsepower

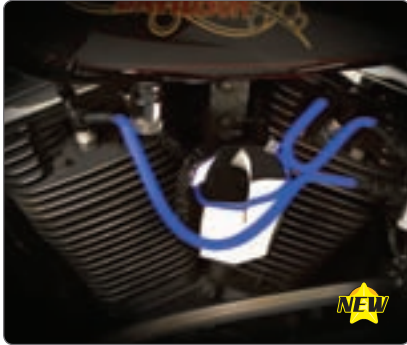

PART	DESCRIPTION	MSRP
MCWB	Universal Black	\$18.00
MCWR	Universal Red	\$18.00
MCWL	Universal Blue	\$18.00
SPWFXR	For FXR, Black	\$18.00
SPWST	For Softail®, Black	\$18.00

B. Neon Hot Wires Plug Wires

- A direct replacement for a spark plug wire — except it lights the night!
- Crafted using only the highest quality materials
- Made of glass — but still very durable
- They will never burn out — guaranteed
- Requires no wiring or transformer
- Just plug them into the coil and attach to the spark plug
- Specifically made for H-D®
- Select a model and then a color, it's that simple

B. Battery Tender Big Twin Battery Chargers

- Dual, independent output circuits for two batteries at the same time
- Detachable, extra long (15 ft.) DC output cables mate with fused ring terminal and alligator clip harnesses with black QDC (12V), included
- 100-240 VAC 50 / 60 Hz Input
- Push the red button to hear the V-Twin roar
- Three year warranty

PART	DESCRIPTION	MSRP
BT800DLWH	Big Twin Battery Charger, Dual Output (800 mA Ea.)	\$169.95

C. Battery Tender Junior Battery Chargers

- Big charge in a smaller package — five year warranty
- Includes ring terminals and alligator clips with black (6V & 12V) QDC

PART	DESCRIPTION	MSRP
BT210141	Battery Tender Junior, 12V	\$39.95
BT210142	Battery Tender Junior, 6V	\$39.95

D. Battery Tender 800, Waterproof

- Waterproof, vibration and shock resistant with a three year warranty
- Includes ring terminals and alligator clips with black QDC (12V)
- Portable or permanent mount

PART	DESCRIPTION	MSRP
BT210143	Battery Tender 800, Waterproof	\$49.95

E. Battery Tender PST-100 Battery Tester

- Fast results in less than 6 seconds — portable, lightweight

PART	DESCRIPTION	MSRP
BT260001	PST-100 Battery Tester For 12V Batteries	\$249.95

F. Compu-Fire® Voltage Regulators

- Series type circuitry that allows both the stator and regulator to operate at a lower temperature by controlling the stator output
- When the battery reaches full charge, the stator output is switched off by the regulator
- The output voltage of the regulator is calibrated to meet the charging requirements of modern maintenance free batteries
- Available in a chrome billet or black finned case

PART	DESCRIPTION	MSRP
CF55150	38 Amp (Single Phase) For '98-Later TC, Black Finned Case	\$213.31
CF55130	32 Amp For '89-'99 BT, Chrome Billet Case	\$145.50
CF55120	32 Amp For '89-'99 BT, Black Finned Case	\$85.64
CF55121	22 Amp For '81-'88 BT, Black Finned Case	\$91.48
CF55125	22 Amp For '91-'99 XL, Black Finned Case	\$85.64

G. Crane Cams® Voltage Regulators

- Performance-designed as a direct bolt-on replacement for stock H-D® regulators
- Delivers full-range of normal operating and charging with stock H-D® charging system or any 26-32 amp alternator
- Attractively finished in bright nickel-chrome double-plating
- Comes complete, ready for bolt-on installation on any stock chassis
- Traditional Crane Cams® quality, performance and value in a budget priced, performance replacement voltage regulator

PART	DESCRIPTION	MSRP
CR84060	Voltage Regulator For '88-'98 BT, Chrome	\$120.64
CR84061	Voltage Regulator For '81-'84 BT, Chrome	\$120.64

H. Regulator Mounting Bracket

Easily bolt-up a regulator with this raw steel bracket.

PART	DESCRIPTION	MSRP
GRVRB	Regulator Mounting Bracket	\$20.00

A. Bulletpruf® 32 Amp Charging Systems

- Economical, durable OE replacement system, selected to meet strict standards
- **Voltage regulator carries lifetime warranty!**
- Fits '70-'99 Big Twins (regulator features lifetime warranty)

PART	DESCRIPTION	MSRP
BPCSC	System w/ Chrome Regulator For '70-'99 BT	\$179.00
BPCSB	System w/ Black Regulator For '70-'99 BT	\$165.00
BPCSR	32 Amp Rotor	\$76.99
BPCSS	32 Amp Stator	\$61.49

B. Spyke® 32 Amp Complete Charging Systems

- **Forged steel rotor and thicker spline for maximum engagement**
- Magnets are encapsulated to prevent vibration-related breakage
- Includes a high performance stator and voltage regulator (regulator features lifetime warranty)
- Additional regulators available for most models, see MCAAdvantages.com

PART	DESCRIPTION	MSRP
SPCSK	'70-'99 Big Twin (Black Volt Reg.) 32 Amp	\$244.87
SPCSKC	'70-'99 Big Twin (Chrome Volt Reg.) 32 Amp	\$265.10

See Price List For Complete Fitment Listing In Chrome Or Black

SPCSS	Stator, 32 Amp (OEM #29970-88B)	\$64.99
SPSR	Rotor, '70-Later Big Twin (Black)	\$142.99
SPCSVR	Voltage Regulator, All BT w/ 32 Amp System OEM #74519-88, Black (Lifetime Warranty)	\$69.99
SPCSVRC	Voltage Regulator, All BT w/ 32 Amp System OEM #74519-88, Chrome (Lifetime Warranty)	\$89.99

C. Compu-Fire® 40 Amp 3Phase Charging System

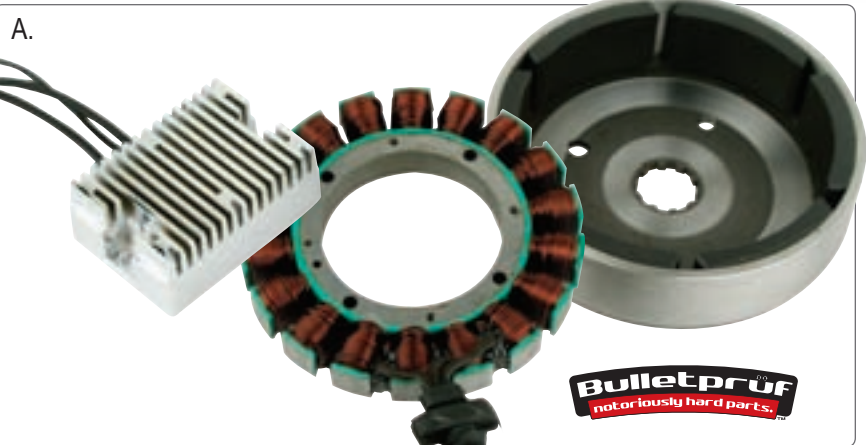

- 3Phase charging systems provide 25 amps at idle and 40 amps continuously above 2800 RPM
- Narrow rotor and stator combination fits Softail®/Dyna® primary cases and the voltage regulator bolts on without any frame modifications
- The precision balanced vented rotor keeps the stator cooler in closed primary systems to maintain maximum output under all high current draw conditions
- The large flanged seal spacer provides maximum support for the rotor and the voltage regulator output is calibrated to 14.25 volts from idle on up

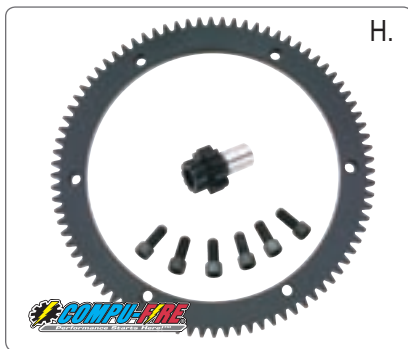

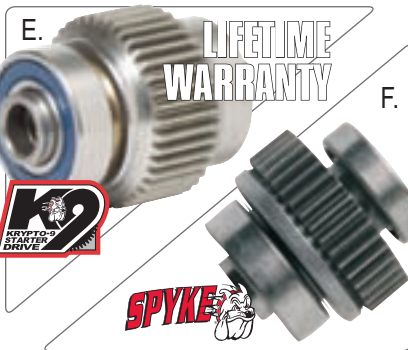

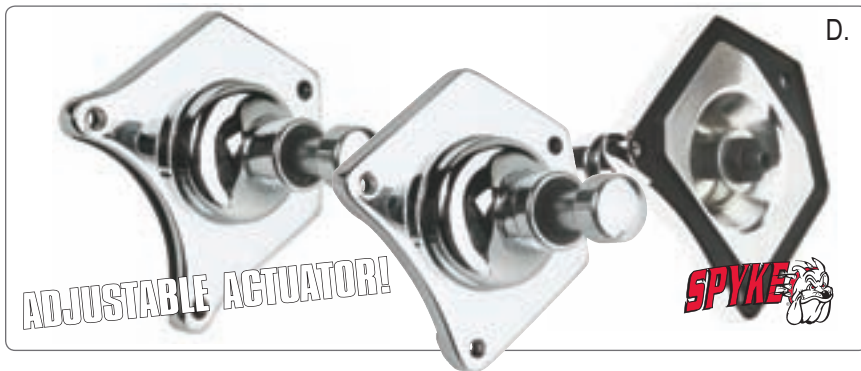

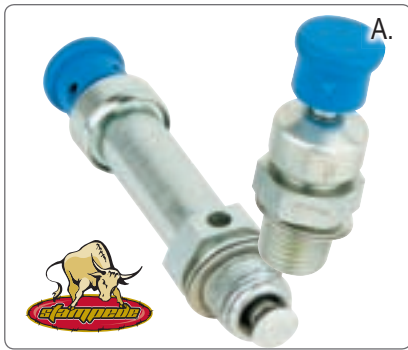

PART	DESCRIPTION	MSRP
CF55560	For '81-'99 BT, Vented Rotor	\$411.90
CF55570	For '81-'99 BT, Non-Vented Rotor	\$411.90
CF55565	For '03-'06 TC (Excludes '06 Dyna®), Vented Rotor	\$411.90

CF55566	For '99-'02 TC, Vented Rotor	\$411.90
CF55576	For '99-'02 TC, Non-Vented Rotor	\$411.90

D. Compu-Fire® 32 Amp Charging Systems

- Includes a custom wound stator with the correct engine case plug, a precision balanced rotor with the magnets permanently attached
- Splined center hole is designed to properly fit either OE or aftermarket engines
- Black finned series type voltage regulator has the voltage output calibrated to meet maintenance free battery requirements

PART	DESCRIPTION	MSRP
CF55520	For '81-'99 Carbureted Evolution®, 32 Amp	\$257.06
CF55522	For '98-'03 Carbureted Twin Cam, 32 Amp	\$420.33

CF55600	Rotor Only For '98-'03 Carbureted Twin Cam	\$107.15

A. Stampede™ Compression Release Valve

- Start your bike easily and save wear on your battery and starter
- Requires drill and tap of head to install
- 10mm X 1.0 thread pitch

PART	DESCRIPTION	MSRP
STCR382	60.5mm Long, 3.0 Throttle Drilling, Single	\$19.99
STCR692	36mm Long, 1.0 Throttle Drilling, Single	\$19.99

B. Bulletproof™ Compression Release Button Covers

- Chromed billet aluminum cap fits literally thousands of releases
- Great looks with easy glue-on installation to the existing button

PART	DESCRIPTION	MSRP
BP5000	Compression Release Button Cover	\$19.95

C. S&S® Compression Release Kits

PART	DESCRIPTION	MSRP
SS904915	Electronic Compression Release Kit	\$289.95
SS904925	Manual Compression Release Kit	\$274.95

D. Spyke® Starter Buttons

- Internally adjustable actuator
- Machined from triple show-chrome plated billet 6160 aluminum
- Adjusts from 9 volts to 12 volts during starter actuation

PART	DESCRIPTION	MSRP
SPSB14	For 1.2kw & 1.4 kw	\$69.99
SPSB18	For 1.6kw & 1.8 kw	\$69.99
SPSB24	For 1.0kw, 2.4 kw & '03-'04 Big Dog®	\$69.99

E. Spyke® Krypto-9 Upgrade Starter Drive

- The ultimate in starter drive strength, now with a lifetime warranty!
- Fits 1.4 kw Spyke® starters and other makes needing a beefed up drive
- The sprags of the drive are made with 52100 hardened high carbon alloy steel
- The double cage construction provides full phasing that gives the drive a tighter fit in the starter and prevents friction for years of uninterrupted use!

PART	DESCRIPTION	MSRP
SPSDK18	For '89 H-D®, 1.8/2.4 Spyke & Other 1.6-2.4kw Starters	\$285.70
SPSDK	For '90-Later XL, Spyke 1.4kw & Other 1.2-1.4kw Starters	\$185.70

F. Spyke® Replacement Starter Drive Clutch

OEM #31663-90 For Big Twins '90-later

PART	DESCRIPTION	MSRP
SPSD	Starter Drive	\$100.00

G. Spyke® Solenoid Repair Kit

- Includes plunger and 2 sets of contact points — one for Spyke, one for OE
- Use the ones that match those being replaced and discard the others

PART	DESCRIPTION	MSRP
SPSPK12	Solenoid Repair Kit for Spyke® and OE solenoid repair	\$19.99

H. Compu-Fire® 1084 Gear Set

- Increases starter torque by lowering the ratio of pinion gear to clutch ring gear
- As a replacement for the 9:66 ratio gear sets, get a 15% increase in torque
- Used as a replacement for 10:102 ratio gear sets which are prone to breaking

PART	DESCRIPTION	MSRP
CF54001	'90-'93 BT	\$189.33
CF54002	'94-'97 BT	Requires adapter for 3" BDL, call \$189.33
CF54003	'98-'06 BT (Excludes '06 Dyna®)	for details. \$189.33

I. Spyke® Pinion Conversion Kit

- Converts '94-later starters into the 9-tooth pinion gear and 66T ring gear
- Cost-effective compared to changing out the inner primary
- Provides greater contact area for higher torque and positive engagement
- Provides elevated endurance over the later model 102-tooth ring gear

PART	DESCRIPTION	MSRP
SPPG90K	'90-'97 Clutch Baskets Ring Gear	\$92.15
SPPG98K	'98-Later Clutch Baskets Ring Gear	\$92.15
SPPG	'90-Later Pinion Gear	\$71.99

STOP STARTER GRIND!

A. Bulletproof® Belt Drive Fix

- Stop starter grind immediately and easily!
- For open belt drives with one-piece jackshafts,
- Fix the "grind" from bikes with a solid or very rigid belt drive actuation
- The engineered spring and ramped teeth help integrate the teeth before the unit locks in and turns

PART	DESCRIPTION	MSRP
BPBDF	Belt Drive Fix (Excludes BDL Top Fuel)	\$79.99

B. Spyke® Starter Jackshaft

- Get more cranking power and durability working with a Spyke starter
- For '89-Later BT

PART	DESCRIPTION	MSRP
SPSJ90	Jackshaft For '89-'93 Big Twin	\$99.99
SPSJ94	Jackshaft For '94-Later Big Twin	\$99.99

C. Spyke® SuperTorque Starter For Sportster®

Designed with the same features as the 1.4kw Big Twin SuperTorque Starters.

PART	DESCRIPTION	MSRP
'81-Later XL		
SPSSP81	Polished	\$399.00
SPSSP81B	Black	\$319.00
SPSSP81C	Chrome	\$479.00
'67-'80 XL		
SPSSP67	Polished	\$499.00
SPSSP67B	Black	\$499.00
SPSSP67C	Chrome	\$579.00

D. Bulletproof® Starters

- Durable, cost-competitive OE replacement starter
- Dyno tested to meet or exceed stock starter standards
- One starter part number fits '86-'06 H-D® (Except '06 Dyna®) thanks to the special conversion through-bolt included
- *Not intended for engines larger than stock.

PART	DESCRIPTION	MSRP
BPS90	1.4kw For '86-'06 H-D® (Excl. '06 Dyna®), Chrome	\$215.00
BPS90-20	2.0kw For '86-'06 Softail® & FXR, Chrome	\$245.00

E. Compu-Fire® Gen3 Starters

- The only starters in the V-Twin industry that are engineered for cranking large displacement, high compression engines without the need for compression releases
- Produces more cranking power than 2.0kw starters with half the current draw
- The high energy neodymium magnets, high efficiency motor windings, and 6:1 planetary gear reduction are unique to this starter
- The splined output shaft, stepped jackshaft bolt and shortened case design allow just one part number to cover all '90-later BT

PART	DESCRIPTION	MSRP
CF53700	Gen3 Starter For '90-'99 BT	\$599.95
CF53900	Gen3 Starter For '99-'06 TC (Excludes '99-'05 Dyna®)	\$599.95

E. Grandeur Cycle® Auto Clutch Suicide-Free Shifting

The 2006 Industry Leader Award Winner Tech Product of the Year!

• No slipping clutches

• No more clutching in slow moving traffic

• Easy installation

• Simple instructions included

• Ride up to a stoplight with the bike in gear and avoid holding the clutch in — when the light turns green, twist the throttle and ride away

• Replaces your old clutch pressure plate with a new unit that applies centrifugal pressure to your clutch pack. Your engine speed does the work that is normally done by springs to engage the clutch—and does it a lot better!

• Makes dangerous suicide shifting a thing of the past

• Upgrade to carbide engagement balls for drag racing applications!

• The neutral safety switch allows the bike to start only when it is in neutral

A. Bulletprüf® Enclosed Primary Belt Drive Kits

- Includes inner and outer covers and mounting screws for '89-'93 Softail®
- For '94-later models, add the special 10T-9T pinion gear (BP400PG)
- The inner primary housing precisely fits a '01-later Twin Cam Softail®
- The included Kevlar® belts are fitted to a very high degree of accuracy
- For best fitment, we suggest using the Bulletprüf® outer cover — does not fit Dyna®

PART	DESCRIPTION	MSRP
BP4EBD	Primary Belt Drive Kit For '89-'93 Softail®	\$1,611.00
BP4PR	Pinion Gear For '94-Later Softail®	\$29.99

B. Bulletprüf® Enclosed Belt Primary Rebuild Kits (Not Shown)

- Includes clutch, front pulley and Kevlar® belt with the same specification as BP4 Kits above, minus the inner and outer primary covers

PART	DESCRIPTION	MSRP
BP4BRK	Rebuild Kit, '89-Later Softail®/Dyna®	Call

C. Bulletprüf® Belt Drive Fix/Jackshaft

- Stops starter grind associated with bikes with solid or rigid belt drive actuation
- For open belt drives with one-piece jackshafts
- The engineered spring and ramped teeth help integrate the teeth before the unit locks in and turns

PART	DESCRIPTION	MSRP
BPBDF	Belt Drive Fix (Excludes BDL Top Fuel)	\$79.99

D. Bulletprüf® Primary Spacer & Shaft Extension

Precisely machined in four increments for all Big Twins. Additional increments not shown here are available by special order.

PART	DESCRIPTION	MSRP
BP605	Spacer, 1"	\$139.99
BP607	Spacer, 1.5"	\$149.99
BP625	Extension/Nut, 1"	\$109.99
BP627	Extension/Nut, 1.5"	\$139.99

E. Primo Brute IV & V Direct Drive Kits

- A must-have for big-inch strokers that need more power for electric start
- Includes an integrated 78-tooth ring gear on the back side of the front pulley that allows the pinion gear to engage the starter ring gear
- Improved starter ratio to 54:1, an improvement of 96%!
- Includes chrome Monster Torque™ Starter

PART	DESCRIPTION	MSRP
PB20160051	Brute IV, 3", w/ 3D Flamed Cover	\$3,979.22

D. Tauer Machine 3" Warlord Belt Drive

Combining American-made quality with a great value, the Warlord features:

- **Lower gear ratio for superior low end torque and easier starting**
- Billet front and rear pulleys for unsurpassed longevity
- Three-piece spring-loaded jackshaft for superior engagement with no grind
- Includes Alto USA Red Eagle high-performance clutch
- Pressure plate designed for quieter clutch engagement
- Rear pulley cover can be swapped for any standard five-point derby cover
- The clutch pack is located closer to the transmission, which minimizes transmission shaft flex
- Upgrade available to set up outer bearing support
- Includes seven fiber plates or nine-plate upgrade, available separately
- Increased clutch area by 20%

PART	DESCRIPTION	MSRP
TM7040000	Warlord Belt Drive For '90-'04 Softail®, Chrome	\$1,325.95

E. Tauer Machine® Renegade & Warrior Belt Drives

- **TM® Renegade Belt Drives** are a complete high-performance 3" 8mm open primary drive available for electric start models (**excludes oil filter mount**)
- It has the highest standards, including starter gear and billet aluminum pulleys
- Includes reversible chrome engraved sword cover
- Nine Kevlar® clutch fibers, with increased surface contact in the clutch basket
- Upgrade to the patented Tauer Machine oil cooler covers shown in this section

- **The Warrior Belt Drive** has all the features of the Renegade drive in addition to a Twin Cam oil filter positioned in the backing plate.
- Tauer Machine® air scoops are machined in the plate, feeding air flow to the filter
- Filter holds more oil and aids in cooling the engine oil with more surface area
- Features all the components needed to put a 3" open primary drive on a Softail® with an electric start. Motor spacers may be needed and are sold separately. See Tauer's belt drive covers shown in this section

A. Primo Brute Slimline Belt Drives

- Slimline 1.75" 11mm narrow open belt drive kit
- Includes Kevlar® belt, pulleys, black motor plate and carbon fiber outer guard
- Fits '90-'06 Softail® & rigid customs with 12.812" center to center distance on primary drive
- Optional mid controls & center mount oil filter

PART	DESCRIPTION	MSRP
PB20160225	Slimline Belt Drive Kit For '90-'06 BT	\$2,299.95

B. Tauer Machine® Renegade Dual Belt Drives

- Doubled up on a Renegade drive – this new version has two 1.5" belts
 - The same great clutch, pulley and motor plate specs of the original
 - Avoid complete breakdowns in the event a belt breaks
 - Drive is much quieter over single belts while in operation
- See MCAdvantages.com For Complete Fitment Information

C. Prowler® Right Side Drive Hydraulic Clutch Actuator w/ Bearing Support

- Stop the strain on your clutch hand and wrist with this hydraulic clutch actuator that also has a much-needed internal shaft support with bearing for the RSD tranny
- With its internal hydraulic mechanism and the hose inlet tucked underneath, all lines have been erased yielding nothing but great looks
- Not only fits the Prowler® RSD tranny, but can provide its benefits to trannies by Baker™ and others

PART	DESCRIPTION	MSRP
PRT6BSC	Bearing Support/Hydraulic Actuator, Polished	\$569.99

D. GP Designs Main Shaft Outer Bearing Support

- Prevents crankshaft deflection and possible crankshaft bearing failure
- Fully secures crankshafts at their outermost point
- Unit bolts directly to engine case and the inner primary
- Effectively offers bottom-end longevity for stock to fully modified applications
- Includes all required hardware with installation instructions
- Fits '03-'06 FLH, with Softail® and Dyna® versions available soon
- Made in the USA

PART	DESCRIPTION	MSRP
GP151	Main Shaft Outer Bearing Support For Twin Cam	\$399.95

E. S&S Billet Primary Outer Cover

- Clean and sleek design that will complement the styling of any motorcycle from a near stocker to a wild one-off custom
- One small S&S logo is unobtrusively placed
- Bolts directly to stock or most aftermarket inner primary covers for added clutch clearance and an instant styling upgrade
- Entire S&S derby is removable, which allows unrestricted access to service or inspect the clutch
- The derby intended for street applications allows enough extra clearance for most aftermarket street clutches, such as the S&S high performance clutch, but is small enough that it does not present ground clearance problems on left turns
- The racing derby will accommodate the largest racing clutches, but by necessity is much larger and does restrict ground clearance — this style of derby is recommended only for racing
- Fitment for '89-'06 Softail® and '91-'05 Dyna® models

PART	DESCRIPTION	MSRP
SS564042	Street Derby Cover (Forward Controls)	\$1,185.95

A.

A. Crime Scene Choppers "Bad Attitude" Belt Drive Cover

- Bolts right up to a 3" BDL drive with the motor plate
- Easily adapts to other belt drive systems with owner-fabricated mounts
- The space between the fins is open to see through to the pulleys
- Made of cast aluminum, cover is approx. 18" long by 10" tall, and mounts using standard 4-point mounts. Stainless hardware included
- The Crime Scene Torque Plate is used to mount BDL-style primary covers, including the Bad Attitude™ finned cover, in applications that do not use a primary plate. It greatly increases the rigidity of the primary drive in addition to providing mounts for the primary cover.

A. Ride Wright Spoked Wheels

- High-quality, classic spoked wheels, rotors and pulleys
 - Built with the best in new and time-tested technologies
 - All wheel rims are spun for trueness in the circumference of the wheel
 - Available with 1/8" standard, twisted, diamond or 3/8" Fat Daddy spokes
 - Multiple colors and powdercoats available for the rims, hubs and spokes including chrome, polished, fire engine red, pumpkin yellow, cobalt blue, canary yellow, jet black, neon green and many more with or without metal flake—by special order
 - All spoked wheels are available in 40, 50, 60 and 80-spoke configurations
 - Available in sizes 16" x 3.5" to 21" x 3.5" and as wide as 18" x 14". Direct replacement hubs and 16" OR 18" x 5.5" wheels available for '06 Dyna®
 - Setup also available for pre-'66 brakeless models
 - Spokes are made from stainless steel to extend life and prevent corrosion — this also forgives the "pulse" often associated with the driveline of V-Twins
 - Hubs are billet cut for durability and precision
- Call For Custom Fitment Information

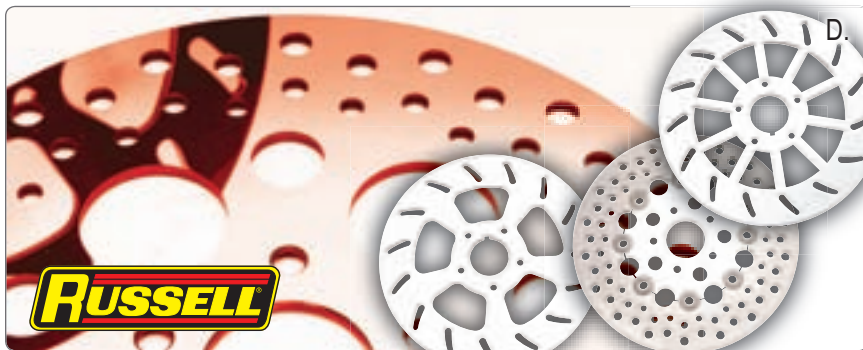

B. Stampede™ Rotors & Pulleys

- Stampede's Rotors & Pulleys can match their corresponding wheel
- Rotors are constructed from 420 stainless steel
- Heat treated to spec and blanchered ground for perfect flatness
- Precision machining guarantees absolute trueness in every item
- See previous page for matching wheel styles
- Call MC Advantages for a custom quote

C. Performance Plus Rotors

- Excellent fit and finish
 - A line of rotors from the same people who make our outstanding brake pads
- See MCAdvantages.com For Complete H-D® and Metric Fitments

D. Russell® Performance Rotors

- Exclusive E.F.S. mirror finishing
 - Held to exacting specifications with near perfect flatness and surface finish
 - 5-spoke and Turbine designs are precision cut from rust-resistant SVS420JZ stainless steel utilizing the latest high-pressure water jet technology
 - This process eliminates metal heat distortion while maintaining metal integrity
 - Unique hole patterns deliver the optimum in heat dissipation, providing the maximum in braking efficiency
- See MCAdvantages.com For Complete Fitment Information

E. Gary's Greaser Tool For Wheel Bearings

Grease wheel bearings without removing the bearing and destroying the grease seal. Remove wheel and spacers, insert tool then pack bearing with grease gun. In no time, the job is done!

PART	DESCRIPTION	MSRP
GGT	Gary's Wheel Bearing Greaser Tool	\$36.95

F. Doherty Wheel Spacers

Doherty premium wheel spacer kits are packaged in kits of 23 or 54 spacers which include labeling showing replacement part numbers. Replacement spacers are available in packages of 4.

A. Performance Plus Brake Pads

- Quality materials and construction can keep wheels 80% cleaner versus stock.
- Extend the life of rotors while providing more bite and shorter stopping distances in all conditions.
- **As a noise-free braking system, these pads have been extensively dynamometer and fleet tested.**
- The 100% asbestos-free formula is manufactured from man-made Aramid fibers including Kevlar® and Twaron®.
- These pads feature a LIFETIME WARRANTY, guaranteed for life against materials and workmanship defects. Non-transferable warranty does not cover race or track use. **Qualifying initial orders receive a FREE spinner rack. Call for details.**

B. Hawg Halters Driveside In-Board Brake System

- The latest addition to the HHI product line
- When spending big money on custom wheels, why not show them off?
- Designed to locate the brake caliper and rotor behind the drive pulley or sprocket providing an uncluttered view of your cool new wheels
- Applications include 18" x 5.5" and wider billet wheels and 18" x 8" and up spoke wheels, left or right side drive, belt or chain drive — call for other fitments
- An offset rotor system is available to fit most any stock or custom wheel available
- Adapt a wheel without an inboard rotor or convert a conventional wheel to the driveside brake set up
- Tag/license plate available separately

A. Shotgun Shock Air Suspension System

Shotgun Shock is a highly developed product resulting from years of R&D. •

- Nearly instantaneous adjustment of four inches of travel
- Ride height and firmness are independently adjustable
- A completely leak-proof system that operates without external air lines or the performance-robbing air line flex
- Better than stock suspension at any position along the full travel of the swingarm
- Four internally valved solenoids provide for adjustment of both height and firmness
- Air pressure is locked in the billet body resulting in a safe, leak-proof design
- Installation is hassle free since a bracket is provided for the compressor — the wiring is plug and play
- An ultra-clean design with compact packaging of the electronics
- The motorcycle won't drop because of failed lines or fittings
- The system can lock in the pressure — the air pressure has nowhere to flex, resulting in a solid ride and no bottoming out
- Encapsulated valving
- Remote electronic key fob
- Compact compressor unit
- Available in show polish or black

B. Hi-Lo Rider Adjustable Shocks For Softail®

- Allows custom adjustments and designs to be made to suit the riding conditions and the design of the bike
- Hi-Lo is well known for the optional remote control kit which allows operation from up to 200 feet from the bike
- Hi-Lo is the only air ride with a lifetime warranty, including two years on the components
- Shocks are made from aircraft grade aluminum that is hard anodized inside and out to eliminate corrosion caused by water in the air
- The hard chromed stainless steel piston shaft uses a double-lipped swell seal
- High strength dust boots over the shaft prevent damage to shaft and seals
- Top of the line chrome air compressor with up to 200 PSI output
- No internal bags to crack or leak
- Easy installation with no modifications to the frame
- Tech service available 7 days a week

B. Progressive® 440 Series I.A.S. Twin Shocks

- Revolutionary Inertia Active System with Inertia Valve technology separates wheel movement from chassis movement
- Progressive rate springs available in standard or heavy duty rates
- Available with chrome covers and chrome springs or black chrome covers with black springs. Also available in classic polished billet and all black
- Powdercoated damper and black nitride shaft
- Available in lengths from 11.0" to 13.5"
- Limited lifetime warranty on I.A.S. dampers

See MCAAdvantages.com For Fitment Information On: Sportster®, FL Models, FX Models (Excluding Softail®) V-Rod® and many more!

C. Bulletproof® Heavy-Duty Replacement Shocks

- Heavy-duty chrome replacement shocks for '89-later Softail®
- Adjustable dampening to control ride comfort
- Recommended for heavy or double riders
- Built-in lowering adjustment for travel from approximately 11" to 11 1/2" in length
- Adjustable dampening to control ride comfort
- Sold in pairs
- Always follow OEM instructions for adjusting shocks — both must be adjusted to same level for safe, balanced ride

PART	DESCRIPTION	MSRP
BPSH223	For '00-later Softail®, Chrome, Adjustable	\$319.99
BPSH211	For '89-'99 Softail®, Chrome, Adjustable	\$296.99

D. Progressive Suspension® 418 Series Shocks

The 418's custom tuned billet aluminum damper body is lightweight and improves ride performance. Their rebound dampening is adjustable to five settings for great tunability. They also feature cam-style preload adjuster in standard or heavy-duty.

See MCAAdvantages.com For Fitment Information On: Sportster®, FL Models, FX Models (Excluding Softail®) V-Rod® and many more!

A. Progressive Suspension® 430 Series Shocks

- High pressure gas mono tube construction for best in class damping performance
- Gas and oil separated by divider piston for absolute fade-free performance
- Deflective disk valves for quick consistent damping
- Can be run rod up or down
- Tool-less pre-load adjustments
- "Nitro-Steel" piston shaft for durability
- Polyurethane bushings for quick response

See MCAAdvantages.com For Fitment Information On: Sportster®, FL Models, FX Models (Excluding Softail®) V-Rod® and many more!

B. Progressive Suspension® 812 & 412 Series Shocks

- Simply the best value shock in the market today.
- The double wall steel body construction with nitrogen charged, multi-staged velocity sensitive valving gives you smooth, consistent dampening.
- 5-position cam style preload adjuster lets you dial in your ride whether you're a light rider or heavy hitter.
- 412 series are the standard shocks shown at left. The 812 series are 412 series shocks with a slick set of chrome slash-cut, baloney cut or flamed covers

See MCAAdvantages.com For Fitment Information On: Sportster®, FL Models, FX Models (Excluding Softail®) V-Rod® and many more!

A. Kraft/Tech Gas Tanks

- Great one-piece stretched custom gas tanks.
 - 14 gauge deep-drawn mild steel for optimal fit and finish.
 - Amazingly smooth welds that ensure an effective seal and save prep time.
 - Tank is mounted to the frame using the supplied weld-on brackets.
 - Installed brackets mount to the gas tank using a recessed grommet mounting system that isolates the tank from vibration and optimizes the sleek custom look
 - Etch coat sealer prevents corrosion and provides ideal primer/paint adhesion. Includes frame-weld brackets, grommets & mounting hardware, stainless filler bung, stainless 1/8" (22mm) petcock bung, stainless breather tube and stainless rear mounted gas crossovers tapped for 1/8" NPT unions.
 - Gas caps sold separately
 - Tanks hold 3 1/2 to 4 gallons depending on part number.
- IMPORTANT NOTE:** All gas tanks must be pressure tested, cleaned with tank cleaner and sealed before painting to protect the final finish and prevent internal rusting during winter storage. Always install the gas tank before painting to check fork, triple tree and handlebar control clearances.

- Pins install in seat pan before seat is covered
- Requires drilling of three holes in frame to insert the three Delrin® pin receivers

PART	DESCRIPTION	MSRP
GRSMK	Seat Mount Kit	\$40.00

A.

A. Polypan Gel Seat Pan Kit

- Create a clay perimeter of your planned seat shape
- A simple two-part composite is then applied with ordinary brushes
- Sets up overnight to give you a custom form-fitted seat pan

PART	DESCRIPTION	MSRP
MSSP	Polypan Seat Pan Kit	\$145.00

B. Crime Scene Choppers "Hard-Ass" Seat

Crime Scene's "Hard-Ass" seat combines old school cool with a modern look. The seat is precision investment cast solid stainless steel, polished to a blinding mirror finish. It features padded inserts in your choice of black/red/white leather or red metal flake vinyl. Mounting bosses for a pivot and springs are machined right into the seat, so it's ready to go. Any standard solo seat springs can be used with the seat. An ultra-low pivot kit and springs are available separately. It's made from investment cast 17-4 stainless steel, heat treated and polished. About 11.5" wide x 11.75" long. Four bosses 3/8" UNF bosses machined into the bottom for mounting.

Matching companion pads are available. Fabricated from 300 series stainless steel and mirror polished. With the same insert material as Hard-Ass Seat.

The Low-Mount Pivot Assembly is specifically designed to mount any solo seat as low as possible, and it is ideal for the Hard-Ass solo seat. The pivot is fabricated from 316 stainless steel and TIG welded. It includes two SAE 841 self-lubricating bronze bushings and an 18-8 precision stainless shoulder bolt. Two mounting tabs are provided to weld to your frame.

BUILD A RIGID FROM AN XL!

A.

Frames include: Oil Tank, Swingarm w/ Hidden Axle Adjusters, Flush-Mount Side Plates, Axle Housing And Internal Forkstop Plate

A. Stampede™ 250 To 300 Hidden Suspension Roller & Powertrain Packages

Stampede's Chopper Hidden Suspension Frame:

- Can be ordered from a 250 to 300 swingarm
- Has a 40° rake, 6" stretch and a 3" extended backbone but can also be modified to your specifications — including left-side or right-side drive formation

Stampede's Prostreet Hidden Suspension Frame:

- Can be ordered from a 200 to 330 swingarm
- It has a 38° rake and 3" stretch, but can also be modified to your specifications, including left-side or right-side drive formation

Both frames feature:

- CNC-machined mounts and side plates
- Fixture TIG welding for added strength
- 1 1/2" frame rails, 1 3/4" backbone, and a 2" single downtube made of DOM
- Options for the frame include a dropseat and curved/radius downtube and more

Stampede roller packages can include:

- The Stampede™ frame
- Your choice of Spyke®, Bulletprüf®, American Suspension, Mean Street, Kiwi or GS Motor Front Ends
- Shotgun Shock, Progressive Suspension®, Bulletprüf® or Hi-Lo Rider Suspension
- **FREE** Stampede™ Chrome Forward Controls

Check out our powertrain packages in the engine section!

B. Stampede™ 360 Hidden Suspension Frame

Bust out of the herd with the widest of the wide from Stampede! This 360 Dropseat Hidden Suspension frame utilizes intelligent design for a comfortable ride. Instead of continually widening out the seat area and creating an uncomfortable ride, the uprights have been moved inside of the belt or chain. Available with numerous customization options. Call today for a custom quote.

360 Hidden Suspension Dropseat Frame Please Call For Custom Pricing

B.

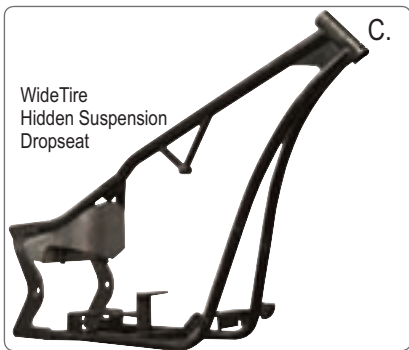

C. Stampede™ WideTire Hidden Suspension Dropseat Frame

Pick from a 330, 300, 280 or 250 size; dual or single-side swingarm, three different gussets, four different uprights, then select your rake and stretch.

Stampede™ Hidden Suspension Dropseats feature:

- Welded engine and tranny plates
- Custom fit oil tank
- Axle covers
- **Swingarms available separately**

BLPSTSPY	Sequential LED, Yellow	\$168.95
BLPNSTSPR	Non-Sequential LED, Red	\$168.95

A. All-In-One Light Controller Module

- Eliminates all electronic control modules, including the starter relay
- Simplifies wiring saving space, time and money
- Self cancelling signals can act as flashers
- Turn signals that can also act as brake lights
- Brake light flashes three times before steady state
- Battery saver kills lights when starting
- Includes hi/lo beam controller
- Will work with with A.R.S.E., see this section

PART	DESCRIPTION	MSRP
BELC	Systems/Light Controller	\$315.00

B. Badlands Illuminator Pro: Run, Brake & Turn Module

- Control every feature within a single system.
- Automatic canceling turn signals, running lights, brake lights
- Built-in load equalizer, quick lane change mode and an emergency flash mode
- Fits customs and H-D® without self cancelling turn signals

PART	DESCRIPTION	MSRP
BLILLP	Badlands Illuminator Pro	\$118.95

C. Badlands Illuminators: Run, Brake and Turn Lights

- Converts turn signals into running lights, brake lights and turn signals
- Built-in load equalizer — runs stock turn signals and small aftermarket lights

PART	DESCRIPTION	MSRP
BLILL1	Original For '73-'84 FX, FL, XL & Customs, No Plugs	\$99.95
BLILL1A	Plug-In For 6-Pin '85-'96 FLH, '86-'95 Softail®/FXR, '95-'96 Dyna®, '86-'98 XL; Security System Compatible	\$118.95
BLILL1B	Plug-In For '97-Later FLH, '96-Later Softail®/Deuce®, '97-Later Dyna®, '99-'03 XL; Security System Compatible	\$118.95
BLILL1C	Plug-In For '04-Later XL; Security System Compatible	\$118.95

C. Illuminator Modules

B. Illuminator Pro

D. Turn Signal Shut-Off Modules

E. Load Equalizer Modules

D. Badlands Automatic Turn Signal Shut-Off Modules

- Upgrade H-D® or customs without the '91-later self-canceller
- Features auto-canceling nine second flashing, lane change quick cancel, emergency flasher mode, built-in load equalizer and solid state flasher

PART	DESCRIPTION	MSRP
BLATS3A	10-Pin Amp-Style Plug-In For Many '87-'93 H-D®	\$83.95
BLATS3B	8-Pin Deutsch-Style Plug-In For Many '94-Later H-D®	\$94.95
BLATS3C	12-Pin Deutsch-Style Plug-In For Many '94-Later H-D®	\$94.95

E. Badlands Load Equalizers

- Designed to return amperage draw to the correct factory specs when aftermarket marker lights are used to replace stock turn signals
- Use in place of a heavy duty flasher on early model bikes when small marker lamps with wedge bulbs are being used as turn signals
- **BLLE2** adds the ability to retain emergency flashers without heat build-up
- **BLLE3** will run emergency flashers for any amount of time — the only load equalizer designed for parade use — it can also correct many erratic turn signals

PART	DESCRIPTION	MSRP
BLLE1	Load Equalizer I For '91-'99 H-D® & Customs	\$26.95
BLLE2	Load Equalizer II For '91-'99 H-D® & Customs	\$34.95
BLLE3	Load Equalizer III For '91-Later H-D® & Customs Using LED	\$69.95

F. Wire Plus Headlight Control Module

- High/low latching, to make a momentary push button latch from high to low beam as a stock switch — unit is 1" x 1.25" x .5"

PART	DESCRIPTION	MSRP
WP142	Headlight Control Module	\$75.00

G. Wire Plus Lighting Control Module

- Auto-cancel circuit makes rear signals into running/brake lights and turn signals
- One-wire hook-up — unit is 2" x 1.25" x .5"
- Provides load equalization and separate wires for side mount tail and brake light

PART	DESCRIPTION	MSRP
WE143	Lighting Control w/ Auto Cancel Turn & Load Equalizer	\$112.19

A. Yankee Engineuty Tach/Speedo Gauge Cups

- For 1.9" Micro and 2 5/8" Mini gauges in electronic or mechanical versions
 - Fits VDO, OEM, Dakota Digital®, Auto Meter® and RevTech®
 - Please confirm all gauge cups by specific diameter size before ordering.
- See [MC Advantages.com](http://MCAdvantages.com) For A Complete List Of Fitments

B. Yankee Engineuty Tach/Speedo Bases

- For '74-later risers, '88-later Springers® and Deuce®, as well as for 1", 1.25" and 1.5" T-Bars — universal fitment also available.
 - Various overall shapes, with or without LED lights and light holes
 - Cups are available for specific OE fitment include LED light bars and harness
- See [MC Advantages.com](http://MCAdvantages.com) For A Complete List Of Fitments

C. Yankee Engineuty Gauge Tops

- For 1.9" Micro gauges and 2 5/8" Mini gauges in single or double configurations
 - Also available as 3 3/8" size singles or teamed with a 1.9" Micro gauge
 - Fits VDO, OEM, Dakota Digital®, Auto Meter® and RevTech®
 - Yankee gauge tops fit on Yankee or Road King® base clamps
 - Please confirm all gauge cups by specific diameter size before ordering
- See [MC Advantages.com](http://MCAdvantages.com) For A Complete List Of Fitments

D. Yankee Engineuty Gauge Top To Motor Mount Adapter

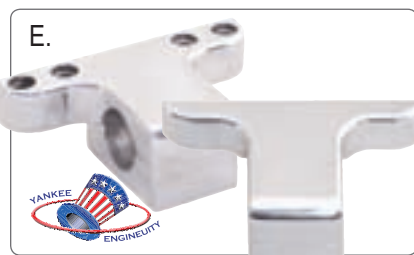

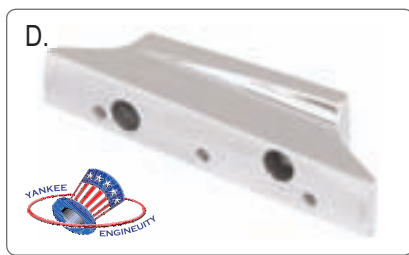

- Gauge top adapter for Yankee gauge tops to most Yankee motor mounts
- For the YEMM0304/05/06/07/09/10/11

PART	DESCRIPTION	MSRP
YEGA01	Gauge Top Adapter To Motor Mount, Chrome	\$83.95

E. Yankee Engineuty Slimline Base Clamps

- Tach/Speedo Base For 1" Bars w/ Separate Risers
- Gauge top adapter for Yankee gauge tops to most Yankee motor mounts
- For the YEMM0304/05/06/07/09/10/11

PART	DESCRIPTION	MSRP
YEB22	Tach/Speedo Base w/ No Indicator Lights	\$117.79
YEB23	Tach/Speedo Base w/ 4 Indicator Lights	\$121.98

F. CPI Rocker Box Gauge Mounts & Gauge Cup

- Single or dual cup chromed billet brackets with chromed gauge cups
- The single cup size is 2.25" deep with a 2.25" OD and a 1.9" ID
- Larger gauges can be used without cup — cup hole size in mount is 2.050" ID
- For dual gauge unit, the second cup is 1.5" ID to receive oil pressure gauge
- Mounting bolt hole spread is 3".
- Fits S&S®, Ultima™, TP Engineering® rocker boxes — now includes fitment for H-D® Evolution®

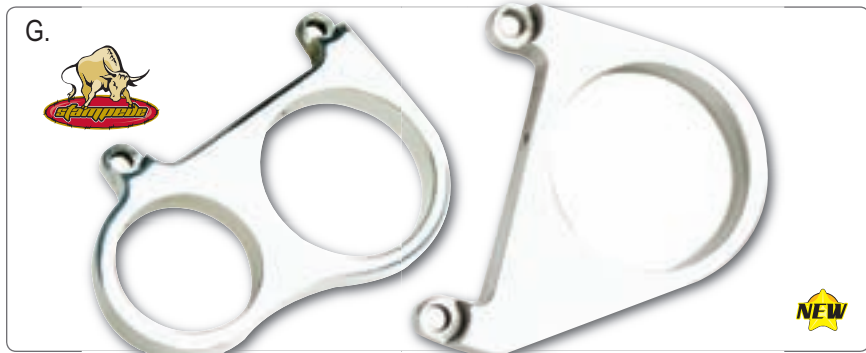

Smooth Billet w/ Cups, Chrome	MSRP

A.R.S.E. Security System

Eliminate the need for an ignition switch. Brings the bike to life — only you can simply sit on the bike to start it. A credit card sized transponder activates the A.R.S.E.!

- Hands free operation, get on the bike and ride
- Prevents lost keys, codes, locks and stress
- Millions of ID combinations, no chance of theft
- No ignitions or wiring fried while washing
- Works well with motorcycle light controller

BEARSE A.R.S.E. Ass Recog. System \$495.00
BELC Systems/Light Controller \$315.00

F.

F. Xena Security Alarm Lock

One product, two security systems. The lock: A solid block of hardened steel with double locking pins. Laser cut keys make the lock virtually pick-proof. The alarm: powered by a self arming, maintenance-free microchip, it features a 110 DB siren triggered by shock and/or motion

GRXR1Y	Yellow	\$99.95

E. Cyclone Security System

- Ear-piercing 120 dB durations of 10 or 30 seconds when warning
- Engine immobilizer prevents starting by three different methods
- Automatically arms five minutes after ignition is turned off
- Silent mode kills full siren blast but allows warning and confirmation chirps
- Panic siren is easily activated with transmitter to alert others in an emergency
- Sector bypass system prevents the siren from becoming a nuisance
- Manual disarm allows rider to disarm without a transmitter, simply by turning the ignition key the same number of times as your secret code

PART	DESCRIPTION	MSRP
CL866F	Cyclone Security System	\$229.99
CLCSP	Cyclone Security System Pager	\$109.99

B. S&S® Stainless Performance Oval (SPO™) Mufflers

- Many compare the exhaust note of the standard SPO to the pleasing low rumble of a late '60s muscle car — but at a reasonable volume that is not likely to get the neighbors upset
- Makes as much power as much louder competitive performance mufflers
- Avoid covering the bike's audio system!
- A high temperature flat black powdercoat material capable of withstanding the exhaust temperatures of an S&S T124 engine was applied to the baffle flange — this hides soot, keeping the exhaust looking cleaner
- For even a little quieter, but with more power than the stock exhaust, the separate accessory baffle will reduce the noise by about 3 dB
- S&S® 80 db SPO™ Mufflers meet the EPA 80 db drive-by test requirements
- Testing at S&S with an otherwise stock 2007 FLHTC showed these new mufflers to not only be quiet, but to provide a boost in power at the same time
- Note: S&S 80dB SPO mufflers may not conform to EPA standards if installed on a vehicle with a modified engine
- Mufflers are tamper proof in accordance with EPA regulations

PART	DESCRIPTION	MSRP
SS1060116	Standard SPO Mufflers	\$594.95
SS1060117	Quiet Baffle For Standard SPO Mufflers	\$149.95
SS556634	80 dB SPO Mufflers	\$694.95

C. S&S® Quick Set Up Kit

- A quick 10 horsepower for not a lot of money!
- Contains a pair of S&S performance mufflers, an S&S teardrop air cleaner, and a jet kit for carbureted models
- No engine work to do — everything needed is included in the kit!
- Kits for '07-Later models do not include jet kits
- Make more power by making it easier to get air into the engine with either a high flowing S&S teardrop air cleaner or the new single throat tuned induction system
- Also makes it easier for exhaust to exit through low restriction mufflers
- Kits with the single bore tuned induction system provide an added kick due to the increased filter area and the effect of the tuned induction

MB028P	Chrome	\$799.99
MB028PB	Ceramic Black	\$799.99

B. Progressive Suspension AirTail® I.A.S. Shocks

The revolutionary AirTail® System from Progressive® is now available to big bike riders, because the folks on Softails® can't have all the fun! Using the same AirTail® concept, I.A.S. (Inertia Active System) incorporate a coil spring system with a dual chambered air shock for totally independent control of both ride firmness and height. This helps improve handling performance by separating wheel and chassis movement. I.A.S. is the shock for performance and looks!

Combine your I.A.S. with the other AirTail® controls and pump options below for the absolute best in custom looks and clean controls.

PART	DESCRIPTION	MSRP
PS7401001C	I.A.S. Unit For '97-Later FLH	\$1,029.95
PS7401002C	I.A.S. Unit For Dyna®	\$1,319.00

A. Dragonfly Cycle Concepts Detachable Fairings & Windshields

- DFFRKBK1 or DFFSTBK1 bracket kits are required for installation of the fairing
- Provides more wind and weather protection than standard windshields
- Gives bikes the ability to have a stereo and extra gauges
- Fits Road King®, Heritage Softail®, Softail Deluxe® and Fat Boy® models
- Attach and detach in two minutes (after initial set up) – directly to factory windshield mounts
- The only detachable fairing with speakers mounted on the inside for an OE look
- Injection-molded composite materials for the best product possible
- No warping or fiber strand print-through when parts sit in the sun
- Perfectly match any two parts together without individual fitting
- Black gel-coat surface, ready to be painted
- Chrome trim and pin-striping options, too (factory colors only)!
- A variety of accessories: mirrors, stereo, 12-volt plug — most can be installed with any custom fairing order
- Warranted from manufacturing defects

C. Wham Bam All Metal Polish

- A unique liquid formula that produces a "mirror-like" shine in aluminum, magnesium, stainless, brass, nickel, etc.
- Ability to melt oxidation and simultaneously bring up the metal's true brilliance cannot be matched by any other polish

PART	DESCRIPTION	MSRP
BCWB02	WhamBAM All Metal Polish	\$17.95

D. Kal-Gard Cleaners & Lubricants

- **Filter Cleaner:** Spray this product on greasy, dirt -clogged filters, rinse with clean water, and that's it! It works fast and is extremely effective. Even the thickest grunge just melts away instantly, leaving your filter clean and ready to use. Completely water soluble and bio-degradable. Used on all foam and fabric filters.
- **Foam Filter Oil:** A special blend of oil and a high-tack bonding agent that stops sand, dirt and other contaminants from passing through the filter.
- **Degreaser:** Ideal when fast removal of grease and oil is necessary. Penetrates rapidly and rinses clean with water. Contains no harmful chemicals that will damage surfaces. Great for all kinds of vehicles and even floors. Water soluble and biodegradable.
- **30/30 All-Purpose Lubricant:** A penetrant and light lubricant that works fast, is harmless to most plastics, paints and rubber and metal. Perfect for preventing corrosion when salt water or high humidity is a problem. It will end squeaks while loosening rust and providing protection for metal parts.
- **Contact Cleaner:** Remove brake fluid, grease and dirt from internal components of electronic equipment and devices like, radios, compact disc players, electronic ignitions and computers. Extends the life of electronic components. It quickly flushes away grease oil, dirt and dust. There is no need to disassemble small delicate electronics.

A. EQUAL Tire Performance Wheel Balancing Material

- Eliminate ugly lead wheel weights
- Empty a bag of Equal into the applicator tool — with the flip of a lever, Equal is injected into the tire through the valve stem with compressed air
- Equal works for the life of the tire — constantly adjusting to changes in speed, load, temperature and tread wear
- Gives shops a less expensive way to balance tires
- Less money in equipment — no more balancers, different size weights or time involved in removing tires from the bike
- Saves time involved in spin balancing

PART	DESCRIPTION	MSRP
EQCSM30	2 oz. Equal Packages, 30-Pack	\$299.99
EQCSM	2 oz. Equal Packages	\$9.99
EQAPPV	Wheel Balancing Material Applicator	Call

B. Air-Lock Tire Mounting Lube

- Air-Lock is a combination tire mounting lube and bead seal
- One product application allows the bead to seat freely while cellulose emulsions seal the bead to the wheel
- Built-in rust inhibitors help protect against wheel and rim corrosion
- Water based, nonflammable and ready-to-use — it leaves no build-up on the tire/wheel and helps prevent tire slippage on the wheel
- Perfect for use with EQUAL Wheel Balancing Material

PART	DESCRIPTION	MSRP
ALCS4128	Tire-Mounting Lube & Bead Seal, 1 Gal. 4-Pack	Call
AL640	Tire-Mounting Lube & Bead Seal, 5 Gal.	Call

PREMIER DEALER REQUIREMENTS—Dealers that achieve minimum buying levels are extended the MC Advantages Premier Dealer pricing level. To qualify, dealers need to purchase \$5000 in parts each calendar year. Dealers that do not reach the \$5000 level at year end will revert back to standard wholesale pricing. If a dealer starts a new year at wholesale level or a new dealer comes on during the year, they will be elevated to Premier once they achieve \$5000 in purchases. The order that puts a dealer over \$5000 will be at Premier pricing.

PAYMENT AT TIME OF ORDER—Typical payment for all orders is advanced payment at time of order by credit card, wire transfer or by C.O.D./money order. Payment by company check is available upon approval of credit and successful completion of required guidelines. All orders for special order/non-stocking products and orders exceeding \$2500.00 must be paid for in advance of shipment as indicated above. Certain exceptions to this policy may be permitted and will be approved only by MC Advantages management.

FREIGHT—All orders are shipped either prepaid by credit card (VISA, Mastercard, Discover or American Express) or in certain circumstances, COD, cashiers check, company check or money order. We ship via ground unless otherwise specified. Next day and 2nd day delivery are available for most products at a higher cost and these expedited charges are not included in MC Advantages offer of free freight over a stated order amount—the difference in normal ground shipment and the chosen expedited freight will be added to the invoice for the order in accordance with our "Blue To You" Program. International orders require bank wire transfer in US dollars only and all freight and freight related charges will be added to the invoice for that order as the "Free Freight" offer does not apply to International orders. MC Advantages is not responsible for late deliveries by any particular carrier. **Note: The following items may require a shipping surcharge: frame assemblies, rolling chassis, engines, bike kits, exhausts, fenders, front ends, batteries, handlebars and other items based on size or weight. Ask a sales rep for details.**

FREIGHT CLAIMS—All orders are carefully inspected and packaged before shipment. Damage occurring in transit must be reported to the carrier, immediately upon receipt and notated on the delivery ticket. It is the responsibility of the recipient to promptly inspect and report damage or shipment shortages to the shipping company and to MC Advantages. Responsibility for damages or shortages after leaving our warehouse lies with the carrier and not MC Advantages. If freight damage does occur it must be noted on the bill of lading at time of receipt and claim for damages filed with the carrier. We generally use UPS, but may on occasion use other shippers. The carriers' ability to deliver in a certain period of time is beyond our control. MC Advantages is not responsible for delays caused by shippers.

PRICES—Prices and descriptions contained in our catalog and on our website are subject to change without notice. Call to confirm exact current pricing prior to ordering.

BACK ORDERS—Back orders will be kept open and shipped as soon as possible.

GENERAL PRODUCT WARRANTY—Many of MC Advantages' products carry one year or more in manufacturer's warranty. These warranties generally warrant that product is free from defects in material and workmanship for the stated period of time from date of purchase. This warranty applies to the original customer/installation with proof of purchase and cover defects in materials and workmanship provided that the product was correctly ordered and properly installed/fitted for its intended use. If upon inspection, returned parts are determined to be defective, they may be replaced or repaired at the option of MC Advantages and/or the original manufacturer. MC Advantages reserves the right to determine if a product warrants a repair or partial replacement of any parts.

WARRANTY AND LIABILITY LIMITATIONS—Except as may be expressly set forth in a product invoice, MC Advantages makes no representations or warranties as to any of its products, expressed or implied, including w/o limitation any warranties or merchantability or fitness for a particular purpose. Motorcycles can be dangerous. MC Advantages has no control over the usage of any part and MC Advantages expects all users of its products to exercise good judgment as to the proper selection, installation, use and maintenance of any parts. All merchandise is guaranteed against defects in material and workmanship only. **Replacement will be limited to parts only and does not include incurred labor costs.**

MC Advantages assumes no responsibility for damage or injury of any kind due to the misuse or improper application of any parts in any way by any person. MC Advantages shall not be liable for any indirect or consequential damages whatsoever. All matters shall be interpreted under Iowa law. All MC Advantages products are for custom made motorcycles. The fitment of our products to OEM or custom motorcycles and/or OEM or custom motorcycle parts is the responsibility of the end user. MC Advantages makes no warranty or specific claim of fitment. The user is responsible for verifying suitability of MC Advantages products to their application prior to ordering. It is highly recommended that the end user carefully test fit all parts prior to any modifications or painting. MC Advantages cannot be held responsible for any paint or labor costs, under any circumstances, and will not accept for return any part that has been modified or damaged during installation.

RETURNS, EXCHANGES, AND CANCELLATIONS—All items should be inspected upon receipt, preferably while the shipping representative is still present. Many MC Advantages products such as Frames, Motors, Front Ends and other products are specially ordered or custom made to end user specifications. As such, they cannot be changed, cancelled, or returned for any reason other than warranty repair once the order has been placed. Non-custom products may be returned within 30 days, and may be subject to a 20% re-stocking fee. Should returns be required, original purchaser must first contact MC Advantages, to establish if product will be returned to MC Advantages or to the manufacture, and to obtain a Returned Goods Authorization (RGA) number and RGA form. All Returns must be accompanied by an RGA form. This form shall be filled out in its entirety and the RGA number written on the outside of the box for easy identification. The RGA form must contain a detailed reason for the return. Do not sign an RGA form or return product until speaking to an MC Advantages representative and discussing possible costs and completion times. All return freight charges will be paid by the customer. All products must be returned via a traceable delivery method. Returned goods must be shipped prepaid, insured, and in the original packaging. No CODs will be accepted. MC Advantages will not be responsible for items sent to us w/o an RGA number on the box and completed RGA form.

NON-WARRANTY REPAIRS—Non-warranty repairs may be arranged with the original manufacturer of a product. However, all service work returns must be pre-paid by cashiers check if work is to be completed by MC Advantages. Please always call MC Advantages first, then follow return instructions above for returning products.

For any questions about an order or a specific MC Advantages product, call 1-800-726-9620 8:30 AM to 5:30 PM weekdays, CST.

Our Very Own **Freakshow**

As one of the sponsoring partners for the 2007 AMD World Championship of Custom Bike Building, MC Advantages was invited to award their choice for best bike in the show. The MC Advantages team selected Freakshow Choppers' Fantasma del Lago as their Partner Pick. This distinction, awarded by MC Advantages General Manager Kent Reed, recognized the bike that best represented the MC Advantages product line and customer base.

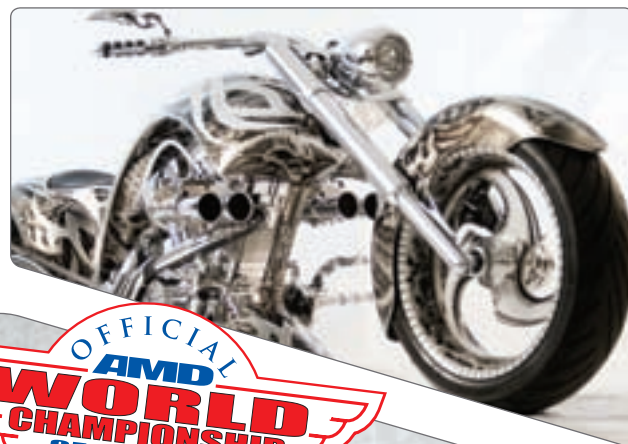

"Jay Burnham and the Freakshow Choppers team had a great bike with an absolutely wicked look and paint job," said Reed. "It features a number of parts that customers can purchase from their MC Advantages dealer like an American Suspension Front End, Spyke® Stealth Starter, 360 Brake, Custom

"Phantasma Del Lago"

Cycle Control System Bars and Chesapeake Performance Belt Drive Cover," he said.

The World Championship of Custom Bike Building is hosted annually by American Motorcycle Dealer Magazine at the Sturgis Rally and Races in Sturgis, S.D. MC Advantages is an official partner of the premier custom motorcycle event which hosted 175 entries from 10 different countries.
