A Word from the President

This catalog marks the 2nd annual KUSTOMWERKS METRIC CATALOG.

We have continued to add new products to this catalog, and we have additional new products in the pipeline that will be introduced in the coming year.

2007 has proven to be a challenging year for the entire industry. The Dealers that seem to be doing the best are Dealers that are doing something exciting or different to keep their customers interested in what's going on. METRIC CUSTOMS are continuing to gain acceptance and are a good way of generating interest at your shop.

KUSTOMWERKS is proud to introduce the SCOTT BRITT SIGNATURE SERIES of custom fenders with this catalog. These are the same parts used in the construction of the BRITT SIGNATURE SERIES Motorcycles. These parts can dramatically change the appearance of the Yamaha and Kawasaki models that they are designed to fit. We are providing parts that anyone with hand tools can use to modify the look of their bike. Our roll of providing Dealers with bolt-on custom pieces is unique in that up until now, these parts would normally have to be custom pieces – hand made. These parts will help open up this market to consumers that previously were not able to get the custom parts made.

The Metric Custom business is growing. Dealers that are looking for something new and different need to get on board to help build the size of this market and to add a new profit center to your business.

If you haven't tried KUSTOMWERKS yet, fill out your DEALER Application, get signed up and find out what KUSTOMWERKS has to offer your Dealership.

A handwritten signature in black ink that reads 'Don Hannon'. The signature is written in a cursive, flowing style.

President
Kustomwerks, INC.

New modern office and warehouse facilities. Conveniently located in the Piedmont Triad area of NC close to several LTL carrier hubs.

Twelve dock high doors for rapid loading and unloading of parts.

Substantial inventory with all the right tools to process your order on a “shipped the same day” basis. The latest packing equipment is used to insure safe delivery of your parts.

WARNING

Serious injury could occur from the improper installation, the alteration of a part, or improper maintenance to a motorcycle. The installer must exercise good judgment in the installation, alteration, part fitment, and maintenance of a motorcycle. *Kustomwerks* has no control over the judgment of installers and assumes no liability for the failure of others to use good judgment.

IMPORTANT NOTICE

We are not affiliated with any Motorcycle Manufacturing Company. ***No products in our catalog are made by, or with the permission of any Motorcycle Manufacturing Company.*** All words used in this catalog referring to any motorcycle manufacturer, models or motorcycle, or part numbers are intended for use as reference only. Although our parts are not original equipment, our intention is to provide quality parts that meet or exceed O.E.M. specifications. Model names of motorcycles are used as a reference only. We provide parts that can be used on a Metric motorcycle.

PRICING

The Dealer must determine their selling price. We list suggested retail pricing but it is intended to be used as a guide only. Dealer pricing is subject to change without written notification. All prices in our price list are current at time of publication but are subject to change as we incur price increases from our Vendors. We will quote current prices to telephone inquiries whenever requested. All Dealer prices indicated are F.O.B. Kernersville, NC.

TERMS OF BUSINESS

Standard terms are C.O.D. - cash, money order or certified check. C.O.D - Company Check is a credit privilege. We will accept checks from dealers whose financial histories justify this credit privilege. Once you submit a credit application we will check with your credit references and your bank, and advise you of our decision if we are able to accept your company checks. If a C.O.D. shipment is not accepted, the customer is liable for transportation costs and a 25% restocking charge will be added to a future order. A 50% deposit may be required on all future orders. If your bank returns a check to us unpaid / N.S.F. your account will revert to CASH ONLY. We sell only to licensed motorcycle businesses, WE DO NOT SELL RETAIL.

OPEN ACCOUNT TERMS

Open Account terms will be extended as a courtesy to select well-rated companies. ***Open account terms are NET 10 Days Receipt of Invoice. Your account will be delinquent 30 days from Invoice date.*** Delinquent accounts will have their orders held until the account is current and may revert to C.O.D. - Company check or CASH.

CREDIT CARD PAYMENT

KUSTOMWERKS accepts MASTERCARD, DISCOVER, VISA, and AMERICAN EXPRESS. If your credit card is declined, we will ship the order according to your normal payment terms.

HOURS OF BUSINESS

The order desk is open to receive telephone orders Monday thru Friday 9:00 A.M. to 6:00 P.M. E.S.T. We have an answering machine to take orders during the hours our order desk is closed. We have a toll-free order FAX number that is available Nationwide in the U.S.A. Please have part numbers, descriptions, and quantities ready when you call.

WARRANTY

KUSTOMWERKS, INC. makes no warranty of the parts that are distributed by us, expressed or implied, including, without limitation, any warranties of merchantability and fitness for a particular purpose. If the manufacturer has a warranty, it will be included with the product. Warranty's on Killer Watts Batteries are limited to 6 months from the dealers invoiced purchase date. Batteries accepted for warranty will be on a replacement basis only, no credit will be issued for a defective battery.

BACK ORDERS

Items not in stock when ordered will be back ordered and marked B.O. on your invoice. We **DO NOT** ship back ordered items automatically, but will notify you when they come in up to 30 days after date of invoice. After 30 days, if the item is still needed, please reorder.

SHIPPING OF ORDERS

Dealer orders will be shipped by United Parcel Service or FedEx ground. Items too large for UPS or FedEx will be sent by motor freight. Any refused shipment will be restocked with a 25% restocking charge plus all outbound and inbound freight costs.

PREPAID FREIGHT

Orders over \$395.00 shipped, not including C.O.D. fees, transportation costs, and insurance fees, will be shipped on a prepaid basis within the continental United States. We do not pay C.O.D. or insurance fees.

FREIGHT DAMAGED MERCHANDISE

All merchandise is packed and in good condition at the time of shipment. Title to the merchandise passes to the customer on delivery to the common carrier. Any damage claim must be filed with the carrier at the time of delivery, not with *Kustomwerks*. Parcels must be signed for as "damaged" at the time of accepting the shipment.

RETURNS

After 30 days there will be a restocking fee, there are no returns after 90 days.

A "Return Merchandise Authorization Number" must be obtained prior to returning merchandise to *Kustomwerks*. The RMA number must appear on the box of your return. Merchandise returned for credit must be in "NEW" condition. Returns must be sent prepaid. All returns are subject to inspection to receive credit. Items, which are not in the condition indicated on the RMA, will be returned at the dealer's expense. Any serialized part that has a Manufacturer's Statement of Origin (MSO) issued for the part must be returned with the MSO or credit will not be issued. Reimbursement for approved returns will be in the form of merchandise credit only. Cash or checks will not be issued. Items returned on an RMA will not be eligible for reimbursement of labor or paint costs. Electrical parts that have been installed and run will not be accepted for return unless it is covered by the manufacturer.

MANUFACTURER'S STATEMENTS OF ORIGIN

For items in shipments requiring an MSO, the MSO document is sent via Parcel Post / Certified Mail following the shipment and full payment of the item(s). The MSO document will be shipped in an envelope stating "MSO ENCLOSED". A \$50.00 processing fee is charged for all replacement or duplicate MSO's.

CATALOG LISTINGS

We have tried to confirm where possible the contents and specifications of this catalog. We assume no liability for any errors in specifications, part numbers or model applications. We reserve the right to change specifications, product descriptions, model applications and pricing at any time without notice or further obligation. ©Copyright 2003-2008 by *Kustomwerks Inc.* All rights reserved. No part of this catalog may be reproduced, transmitted, or stored by any electronic or mechanical means without express prior written permission from *Kustomwerks Inc.*

Spectro Platinum 4 Full Synthetic Engine Lubricant

32006

SOLD IN CASE OF 12 x 1 LITER BOTTLES

15w 50 for all four-stroke motorcycles where a full synthetic, high performance oil is desired.

Spectro Platinum 4 Premium full synthetic motorcycle engine lubricant is a blend of PAO Group IV synthetic base oils made with our new Spectra-Syn technology using the very latest technology A.P.I. SL & CG additive package fortified with additional anti-wear and anti-foam additives to provide smooth shifting characteristics in motorcycles with transmissions that share the engine lubricant. Since Spectro Platinum Full Synthetic uses no V.I. improvers, there is virtually no viscosity breakdown in a motorcycle gearbox environment.

Spectro Platinum 4 Full Synthetic is the ideal choice for all four-stroke motorcycles where a full synthetic, high performance oil is desired for touring, competition, and off-road use. Observe manufacturers' recommendations for viscosity and change intervals. Recommended for use wherever an A.P.I., SF, SG, SH, SL or JASO MA oil is specified.

- ◆ Exceeds all known motorcycle manufacturers' warranty requirements including the JASO MA standard as well as petroleum industry standards A.P.I SF, SG, SH, SL (A.P.I. SG approved)
- ◆ Highest shear stability index
- ◆ For all four-stroke motorcycles

Spectro Platinum 4 Full Synthetic Engine Lubricant

32003

SOLD IN CASE OF 12 x 1 LITER BOTTLES

10w 50 for all four-stroke motorcycles where a full synthetic, high performance oil is desired.

Spectro Platinum 4 Premium full synthetic motorcycle engine lubricant is a blend of PAO Group IV synthetic base oils made with our new Spectra-Syn technology using the very latest technology A.P.I. SL & CG additive package fortified with additional anti-wear and anti-foam additives to provide smooth shifting characteristics in motorcycles with transmissions that share the engine lubricant. Spectro Golden 4 Premium Synthetic Engine Lubricant

32022 SOLD IN CASE OF 12 x 1 LITER BOTTLES

10w 40 for all four-stroke motorcycles for touring, competition or off-road use. In touring conditions where extra loads from sidecar, trailer or luggage exist.

Spectro Golden 4 is a premium synthetic / petroleum blend motor oil that incorporates the very latest A.P.I SL additive technology; then, is further fortified with additional anti-wear, anti-shear, anti-rust and anti-foam additives to provide smooth shifting and reduced wear in motorcycle engines with transmissions that share the engine lubricant. Spectro Golden 4 is a blend of the highest quality petroleum base oils and complex Group IV PAO synthetics made with Spectra-Syn technology that achieves the best characteristics of both compounds.

Spectro Golden 4 is the ideal choice for all four-stroke motorcycles for touring, competition or off-road use. In touring conditions where extra loads from sidecar, trailer or luggage exist, Spectro Golden will help reduce consumption and noise. Added benefits are increased protection for touring motorcycles where higher mileage service intervals are recommended.

- ◆ Exceeds all known motorcycle manufacturers' warranty requirements including the JASO MA standard as well as petroleum industry standards A.P.I SF, SG, SH, SL
- ◆ High shear stability index
- ◆ For all four-stroke motorcycles

Spectro Golden 4 Premium Synthetic Honda Engine Lubricant

32026 SOLD IN CASE OF 12 x 1 LITER BOTTLES

10w 30 made for all 2007 Honda four-stroke motorcycles for touring, competition or off-road use. In touring conditions where extra loads from sidecar, trailer or luggage exist.

Spectro Golden 4 is a premium synthetic / petroleum blend motor oil that incorporates the very latest A.P.I SL additive technology; then, is further fortified with additional anti-wear, anti-shear, anti-rust and anti-foam additives to provide smooth shifting and reduced wear in motorcycle engines with transmissions that share the engine lubricant. Spectro 4 Engine Lubricant

32024 SOLD IN CASE OF 12 x 1 LITER BOTTLES

10w 40 for all four-stroke motorcycles for touring, competition or off-road use. In touring conditions where extra loads from sidecar, trailer or luggage exist.

Spectro 4 is a blend of highly refined, paraffin base oils with the very latest A.P.I. SL technology additive package fortified with additional anti-wear additives to provide smooth shifting characteristics in motorcycles with transmissions that share the engine lubricant. Spectro 4 uses a shear-stable olefin co-polymer viscosity index improver to resist viscosity breakdown in a motorcycle gearbox environment.

Spectro 4 is the ideal choice for all four-stroke motorcycles where an economical, high performance oil is desired for touring, competition, and off-road use. Spectro 4 can be used in any four-stroke gasoline engine, but is manufactured specifically to meet the unique demands of motorcycle engines. Observe manufacturers' recommendations for viscosity and change intervals. Recommended for use wherever an A.P.I., SF, SG, SH, SJ, SL and JASO MA oil is specified.

- ◆ Exceeds all known motorcycle manufacturers' warranty requirements including the JASO MA standard as well as petroleum industry standards A.P.I SG, SH, SJ, and SL
- ◆ High shear stability index
- ◆ For all four-stroke motorcycles

Spectro 4 Honda Engine Lubricant

32025 SOLD IN CASE OF 12 x 1 LITER BOTTLES

10w 30 made for all 2007 Honda four-stroke motorcycles for touring, competition or off-road use. In touring conditions where extra loads from sidecar, trailer or luggage exist.

Spectro 4 is a blend of highly refined, paraffin base oils with the very latest A.P.I. SL technology additive package fortified with additional anti-wear additives to provide smooth shifting characteristics in motorcycles with transmissions that share the engine lubricant. Spectro 4 uses a shear-stable olefin co-polymer viscosity index improver to resist viscosity breakdown in a motorcycle gearbox environment.

- ◆ Exceeds all known motorcycle manufacturers' warranty requirements including the JASO MA standard as well as petroleum industry standards A.P.I. SG, SH, SJ, and SL
- ◆ High shear stability index
- ◆ For all four-stroke motorcycles

Spectro Hypoid Gear Lubricant

32013 SOLD IN CASE OF 12 x 1 LITER BOTTLES
80w 90 Hypoid gear lubricant.

Spectro hypoid gear lubricant is formulated with the highest density and highest V.I. petroleum base stocks available. Special EP additives are included to reduce pinion gear wear. This fine product may be used in the final drives and transmissions of all shaft drive motorcycles that do not have a wet clutch.

- ◆ Reduces drag, friction losses, wear and extends component life
- ◆ Highest lubricity and shear stability
- ◆ A.P.I. GL-5 rated

Spectro Fork Oil

32014 SOLD IN CASE OF 12 x 12 OZ BOTTLES
15w fork oil using Showa, Kayaba and Marzocchi forks.

Spectro fork oils are formulated specifically for both conventional and inverted cartridge style forks. Blended high V.I. petroleum base oils combine with anti-foaming additives and an anti-wear additive system to fight fade and wear due to both heat and aeration.

- ◆ "Zero stiction" additive package
- ◆ Anti-foaming system

Spectro Heavy Duty Fork Oil

32016 SOLD IN CASE OF 12 x 1 QUART BOTTLES
40w heavy duty fork oil.

32015 SOLD IN CASE OF 12 x 1 QUART BOTTLES
20w type E fork oil.

Spectro heavy duty fork oils deliver superior damping and long lasting lubrication tanks to superior base product combined with anti-foaming, anti-rust and anti-corrosion additives.

- ◆ Provides exceptional temperature stability, minimizes fluid leakage, resists fading
- ◆ Preserves and conditions your fork seals
- ◆ Heavy formula limits front end dive during braking
- ◆ Available in : heavy duty and type E

Spectro Waterproof #2 Grease

32012 SOLD EACH - 1lb TUB
Spectro special performance lubricant (SPL) EP waterproof #2 grease.

A multi-grade, extreme pressure grease that does not thin out at high temperatures, Spectro SPL provides superior protection in all critical applications. Ideal for use in wheel bearings, steering head bearings, and swingarm pivots.

Spectro Assembly Lubricant

32010 SOLD EACH - 4oz BOTTLE
Spectro assembly lubricant.

Recommended for initial scuff and wear protection in re-assembly and repair of two and four cycle engines, as well as motorcycle transmissions. A heavy weight lubricant fortified with anti-scuff polymers. Spectro assembly lubricant can be applied to rings, cam lobes, gear and bearings, it coats and plates them completely, assuring total starting protection. Compatible with all Spectro lubricants and other petroleum based products, assembly lubricant provides anti-rust properties for prolonged storage of engine and transmission parts.

Golden Spectro Total Tac Chain Lubricant

32017 SOLD IN CASE OF 12 x 20 OZ CANS
Total tac chain lubricant.

Golden Spectro total tac chain lube is formulated to provide superior lubrication and protection in the most extreme riding conditions. It utilizes the highest quality polyisobutylene synthetic base oils in combination with tackiness additives to resist wear and protect the chain long after other lubes have disappeared. O-ring safe. Contains Hexane, do not use near an open flame and do not store above 150°F. Does not contain CFC's.

- ◆ Provides smoother, quieter operation
- ◆ Exceptional resistance to water washout
- ◆ Non-drip, foaming, clear formula
- ◆ O-ring safe

Forcewinder Tilt Forward Air Cleaner Kits for Yamaha Roadstar

Yamaha's love to use Force..... Force Motor Products that is. Forcewinder by far the nicest addition in air intake systems available for the Yamaha Roadstar today. Easy to install kit comes complete with billet aluminum intake elbow, mounting hardware, billet show polished carb adapter, hi performance K&N air filter and a black outerwear Dry Charger weather resistant filter sock. Forcewinder claims that the airflow can be increased to such a degree that they strongly recommend the use of the appropriate jet-kit to compensate and recalibrate the carburetor to maximum performance. Available with polished aluminum elbow, black powder coated aluminum elbow, wrinkle black powder coated aluminum elbow.

131109 SOLD AS KIT

Fits Yamaha Roadstar
Forcewinder kit with **polished** billet aluminum intake elbow, carb support bracket, spacers, filter, black dry charger sock, gasket and screws.

131110 SOLD AS KIT

Fits Yamaha Roadstar
Forcewinder kit with **black powder coated** billet aluminum intake elbow, carb support bracket, spacers, filter, black dry charger sock, gasket and screws.

131111 SOLD AS KIT

Fits Yamaha Roadstar
Forcewinder kit with **wrinkle black powder coated** billet aluminum intake elbow, carb support bracket, spacers, filter, black dry charger sock, gasket and screws.

Replacement Parts :

131115 SOLD EACH

Replacement Forcewinder pro billet series filter.

Forcewinder Tilt Forward Air Cleaner Kits for Yamaha Warrior

It's here... the baddest intake for the Yamaha Warrior ever created. Force Motor Products NEW intake for the very awesome Yamaha Warrior features the NEW square port Predator intake for optimum air flow. Cool lookin hot performing the Forcewinder has plenty of options and upgrades to personalize this intake to YOUR machine. Easy to install kit comes complete with a show polished billet aluminum intake box, mounting hardware, hi performance K&N air filter and a black outerwear Dry Charger weather resistant filter sock.

131107 SOLD AS KIT

Fits Yamaha Warrior models from 2002 thru 2007.
Forcewinder kit with **polished** billet aluminum Predator intake box, mounting hardware, hi performance K&N air filter and a black outerwear Dry Charger weather resistant filter sock.

Replacement Parts :

131115 SOLD EACH

Replacement Forcewinder pro billet series filter.

*Increased leg room, cool lookin
and great performing set up's*

Forcewinder Tilt Forward Air Cleaner Kits for Honda VTX 1800 FI

One of our slickest kits this Forcewinder features our exclusive Predator rectangular intake casting for optimum flow made especially for the dual port EFI's so prevalent on the modern Metric rides. The all billet aluminum Forcewinder intake base features fittings for temp sensors and crankcase venting on the back side. Comes standard with premium K&N air filter that accepts all the very cool and popular Show Off covers. Easy to install kit comes complete with mounting hardware and a black outerwear Dry Charger weather resistant filter sock.

Get one on and get it on !!!

131105 SOLD AS KIT

Fits Honda VTX 1800 fuel injected models. Forcewinder kit with billet aluminum intake base, mounting hardware, premium K&N air filter and a black outerwear Dry Charger weather resistant filter sock.

Replacement Parts :

131115 SOLD EACH

Replacement Forcewinder pro billet series filter.

Forcewinder Dress Up Kit

Yamaha's Roadstar Forcewinder dress up kit. Easy to install kit comes complete with billet aluminum idle speed holder, breather pipe holder, crankcase filter and cable ties.

131112 SOLD AS KIT

Forcewinder dress up kit.

Forcewinder Tilt Forward Air Cleaner Kits for Kawasaki 1500 & 1600 FI Meanstreaks

Forcewinder by far the nicest addition in air intake systems available for the Kawasaki Meanstreak models. Easy to install kit comes complete with billet aluminum intake elbow, mounting hardware, hi performance K&N air filter and a black outerwear Dry Charger weather resistant filter sock.

 4" long all steel construction baffle fits 1-3/4" diameter drag pipes.

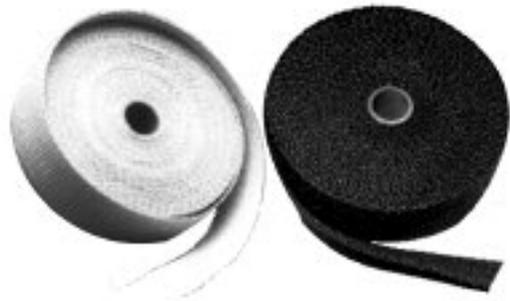

47006 SOLD EACH
 4" long all steel construction baffle fits 2" diameter drag pipes.

Cool it® by Thermo Tec - Often copied, never equaled.

The saying goes that Imitation is the sincerest form of flattery. If that's true, then Thermo-Tec has been receiving compliments for years. Since the introduction of their Original Exhaust Insulating Wrap in 1986, many products have tried to copy its success. None have come close. Thermo-Tec is the industry leader in exhaust insulating and heat protection products. For almost twenty years, Thermo-Tec's dedication to R&D and extensive testing both on and off the track has set the standard for managing the destructive nature of exhaust heat.

Reduces temperatures up to 70%
 Increases horsepower and fuel efficiency
 Withstands continuous heat up to 2000°F
 Increases life of the engine and electronic system components

The Original Exhaust Insulating Wrap™ was developed almost 20 years ago by ThermoTec™. Exhaust Insulating Wrap is an innovative way to create more horsepower and reduce exhaust temperatures. Wrapping headers with Exhaust Insulating Wrap maintains hotter exhaust gases that exit the system faster through decreased density. This produces increased exhaust scavenging, as well as lower intake temperatures. Exhaust Insulating Wrap withstands continuous heat up to 2000°F; it contains no asbestos. ThermoTec's Exhaust Wrap will not over-insulate a system when properly installed, due to its proprietary coating - Thermo-Conductive-Technology (T-C-T™), specially developed by Thermo-Tec, that conducts heat across the wrap's surface. This unique coating controls heat buildup and dissipation. Exhaust Insulating Wrap, available in natural and graphite black colors, is sold in 2" wide x 50 ft. rolls. All Exhaust Wrap has a low profile 1/16 inch thickness.

48065 SOLD IN 50ft ROLLS
 Fits Custom applications
 Natural color Thermo Tec exhaust wrap.

48066 SOLD IN 50ft ROLLS
 Fits Custom applications
 Graphite black color Thermo Tec exhaust wrap.

Generation II Copper™ Exhaust Insulating Wrap

Revolutionary! The best just got better!

Generation II COPPER Header Wrap improves heat resistance up to 30% more than current insulating technology, by utilizing a new proprietary coating developed by Thermo-Tec-improved Thermal-Conductive-Technology (T-C-T). Available in 2" x 50' lengths. HI-HEAT COPPER COATING Part of Thermo-Tec's Tri-coating system, it enhances the performance of all Thermo-Tec Exhaust Wraps. Advanced T-C-T is proprietary and only available through Thermo-Tec's world-wide distribution network.

48067 SOLD IN 50ft ROLLS
 Fits Custom applications
 Copper color Generation II Thermo Tec exhaust wrap.

Thermo Tec Hi-Heat Coating Finish

Use the Hi-Heat Coating to finish off a clean and well-protected Exhaust Insulating Wrap installation. The coating will protect the wrap from abrasion and harmful liquid spills. Extra resins and binders toughen the surface and help extend the life of the wrap by protecting it from friction. They also seal the pores to minimize the penetration of harmful liquids. The 11oz. spray coating now comes in three colors black, aluminum and new copper.

48070 SOLD EACH

Thermo Tec **Black color** hi-heat exhaust wrap coating.

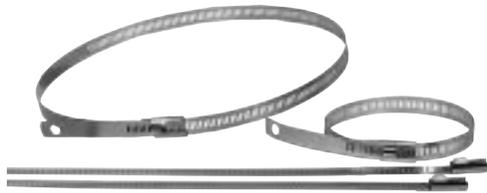

48071 SOLD EACH

Thermo Tec **Aluminum color** hi-heat exhaust wrap coating.

48072 SOLD EACH

Thermo Tec **Copper color** hi-heat exhaust wrap coating.

Thermo Tec Snap Strap™

48069 PACK OF 6

18" Thermo Tec Snap Straps.

New and improved! Same quality stainless steel straps with a dependable multi-lock system, now in standard lengths. No more cutting to length, then attaching the lock. Narrow width straps come in precut lengths with the multi-lock already attached - just insert the end and pull to tighten.

47003 SOLD EACH

Fits 1-3/4" diameter exhaust pipes.

47004 SOLD EACH

Fits 1-7/8" diameter exhaust pipes.

Chrome plated exhaust pipe & muffler clamps.

Hypercharger

Since their introduction in 1992, The Hypercharger has been widely recognized as one of the most cost effective performance modifications available. When the demand arose for adaptation to the Metric Cruisers we expected performance increases, but never expected to see the gain common on these engines. The performance increase comes from simply letting the engine breathe. No decrease in longevity or drivability should be expected after normal, careful installation and proper jetting. Aside from the desirable gains in performance, the Hypercharger is one of the most striking enhancements you can make to your bike. The cases are beautifully chromed with trap doors and butterflies available separately in a wide array of colors.

Honda Models

131026 SOLD AS KIT
Fits VTX 1300 models from 2003 thru 2006

Yamaha Models

131024 SOLD AS KIT
Fits V Star 650 models from 1998 thru 2006*

131025 SOLD AS KIT
Fits V Star 1100 models from 1999 thru 2006

131022 SOLD AS KIT
Fits Road Star 1600 / 1700 (ex. Warriors) models from 1999 thru 2006

Note : *We recommend that Hypercharger installation and jetting on the 650 V Star be performed by a Yamaha Dealer or other qualified technician.

Kawasaki Models

131020 SOLD AS KIT
Fits Vulcan 800 models from 1995 thru 2006

131015 SOLD AS KIT
Fits Vulcan 1500 (single carb) models from 1995 thru 2004

131017 SOLD AS KIT
Fits fuel injected Vulcan 1500 / 1600 models including Mean Streak

Replacement Component :

131011 SOLD AS KIT
Replacement filter for Hypercharger

Standard Trap Doors & Butterflies

Trap Doors

131006 SOLD EACH
Chrome plated trap door for Hypercharger.

131003 SOLD EACH
Black trap door for Hypercharger.

131004 SOLD EACH
Candy Red trap door for Hypercharger.

131005 SOLD EACH
Candy Blue trap door for Hypercharger.

Butterflies

131010 SOLD IN PAIRS
Chrome plated butterflies for Hypercharger.

131007 SOLD IN PAIRS

Pro Series Hypercharger Kits

Honda Models

131018 SOLD AS KIT
Fits VTX 1300 models from 2003 thru 2006

131021 SOLD AS KIT
Fits VTX 1800 models from 2002 thru 2006

Yamaha Models

131023 SOLD AS KIT
Fits Road Star 1600 / 1700 (ex. Warrior) models from 1999 thru 2006

Kawasaki Models

131016 SOLD AS KIT
Fits Vulcan 1500 (single carb) models from 1995 thru 2004

131019 SOLD AS KIT
Fits all fuel injected Vulcan 1500 / 1600 models including Mean Streak.

The Pro Series Hypercharger was designed for massive air hungry V-Twin mills that like lots of RPMs. If your motor needs air, here's the place to start. The inlet is cavernous. The filter area has been increased by a full 50%. Internal shapes have been tweaked to allow increased flow and velocity. The "Pro" has a look all its own. All edges are radiused for a more streamlined appearance and a completely new cover with speed lines completes this picture of performance.

Note : These kits contain an all-chrome pro series Hypercharger, mounting kit and carburetor jetting where necessary for a complete, sanitary installation.

Replacement Component :

131012 SOLD AS KIT
Replacement K&N filter for Pro-Series Hypercharger

Blood Groove Trap Doors for Hypercharger

131002 SOLD EACH
Chrome blood groove trap door for Hypercharger.

131001 SOLD EACH
Black blood groove trap door for Hypercharger.

Create a new looking in minutes. Choose from either chrome plated or black powder coated colors to give your Hypercharger a different look.

Air Filter for Twin Velocity Air Cleaners

131013 SOLD EACH
Main air filter element for the original Twin Velocity air cleaner.

131014 SOLD EACH
Small air filter element for the original Twin Velocity air cleaner.

Push Rod Top Covers

150019 SOLD IN PAIRS
Fits Road Star 1600 models.

150020 SOLD AS PAIRS
Fits Road Star 1700 models
(excluding Warrior) .

Connect the chrome between your valve covers and push rod tubes on the right side of your motor and cover that large black void. These little accents will really class up your ride.

Tappet Block Covers

150017 SOLD AS SET
Fits Road Star 1600 and 1700 models
(excluding Warrior).

Add some sparkle to the right side of your motor with these stylized chrome Tappet Block Covers and trim piece. These metal covers bolt directly over the bottom of your pushrod tubes and finish off by installing the bottom trim piece. Stand back and look at the chrome flowing from your pushrod tubes all the way down your bike. Add the Cylinder Base Covers PT# 150018 to complete the new chromed base of your motor.

Finned Spark Plug Covers

150021 SOLD IN PAIRS
Fits Road Star 1700 models (excluding Warrior).

Fill the gaping hole around your spark plugs and amaze your friends with the clean full look of your motor. These little beauties simply install into the spark plug area and are a must have.

Engine Cover Inserts

150010 SOLD IN SET OF 3
Fits VTX 1800 models from 2002 thru 2006.

150011 SOLD IN SET OF 3
Fits VTX 1300 models from 2003 thru 2006.

Dress up your plain chrome engine covers with these racy, speed-lined engine cover inserts. Sold in sets of 3, our molded ABS chrome plated inserts stick to the smooth clutch, timing, and left crankcase covers adding depth and a "machined from billet" look. Easily installed without tools.

Front Drive Pulley Cover

150023 SOLD EACH
Fits Road Star 1600 and 1700 models
(excluding Warrior).

Customize your Road Star and add that little extra class with the look of motion to your front drive pulley cover. Simple installation will take you seconds and you will be amazed at the difference this little beauty will do for your ride.

Spark Plug Covers

150014 SOLD IN SET OF 4
Fits VTX 1800 models from 2002 thru 2006. **Red / Blue LED Backlit**

150015 SOLD IN SET OF 4
Fits VTX 1800 models from 2002 thru 2006. **Red LED Backlit**

150016 SOLD IN SET OF 4
Fits VTX 1800 models from 2002 thru 2006. **Blue LED Backlit**

These are hot! Replace your plain stock spark plug covers with these trick new custom covers with colored LED backlighting. This slotted design is accented by a colored LED glow. Pure high tech! installation is a snap.

Intake Runner - Spark Plug Cover

150008 SOLD IN PAIRS
Fits Valkyrie and Valkyrie Tourer models

150009 SOLD IN PAIRS
Fits Valkyrie Interstate models

These exciting new covers place and extra dollop of chrome on an already deliciously sparkling engine. Once installed, almost all of the cast surface is replaced with a beautiful show-chromed finish.

Engine Cylinder Base Covers

150018 SOLD AS SET
Fits Road Star 1600 and 1700 models (excluding Warrior).

Chrome the left side of your motor and top of your transmission with these chromed metal covers. With simple installation, flow chrome over your motor and get that expensive chromed motor look in minutes. Add the Tappet Block Covers PT# 150017 and add that chrome sparkle to the base of the right side. You will be amazed at the difference these make.

Note : fully dress your motor with additional Yamaha OEM chrome motor covers.

Marquis Choke Knob Cover

167000 SOLD EACH
Fits :

Honda VTX 1300 models.

Yamaha Road Star 1600, Road Star Venture, V Star 1100 and V Star 650 models.

Kawasaki 800 and 1500 Vulcan models.

Our attractive chrome choke knob cover installs easily without removing or modifying the stock choke knob.

Motor Mount Accents

150002 SOLD EACH
Fits VTX 1800 models from 2002 thru 2006.

Precision-cut from steel, polished to a mirror-like finish, then chrome-plated, these Motor Mount Accents pull double duty for you. They cover the plain, black motor mount while filling in some of the "dead space" around the engine. Three of the mounts are slotted, adding style and allowing you to backlight them for a spectacular, vibrant look. Our engine case covers for VTX, PT# 150007, take care of the front motor mounts, but leave the rear mounts exposed. We've added a kit with just the rear mount covers for that application.

Engine Case Covers

150007 SOLD EACH
Fits VTX 1800 models from 2002 thru 2006.

Complete the creamy, luscious appearance of your VTX 1800 with these new Engine Case Covers that fit snugly along the base of the engine below the fins on both sides. They look like expensive, chromed-engine cases, but they bolt on in minutes and cost a heck of a lot less.

Clutch Housing Shroud

150012 SOLD EACH
Fits VTX 1800 models from 2002 thru 2006.

We Designed this part to finish off the job started by our Engine Case Covers. Stamped steel, chrome plated construction installs quickly and easily with industrial strength adhesive tape to cover the exposed upper surface of the clutch housing. Intended only for use with our Engine Case Covers, PT# 150007.

Transmission Cover Set

150013 SOLD IN PAIRS
Fits all Valkyrie models (except Rune).

You'd best keep your shades handy, 'cause once you mount this new Transmission Cover set, the shine from your Valkyrie will be blinding! These covers put the finishing touch on the otherwise dull looking cast transmission case and nicely complement existing chrome engine components.

All hardware is included for an easy, classy looking installation.

Mid-Frame Covers

161007 SOLD IN PAIRS
Fits V Star 1100 models from 1999 thru 2006.

Turn that drab black tube under your seat into a real eye catcher. It looks so real that you can hardly tell it's just a cover. When added to our Boomerang frame cover, it a looks like you've chromed the whole frame! Quick and simple to install.

Radiator Top Trim

150005 SOLD EACH
Fits Metric custom applications.

A great dress-up item for your radiator! A beautiful chrome finish, beveled edges and an array of LED's will really add a touch of class. Measuring 1" x 6-7/8" for use on a variety of makes and models. Installs with ease!

Reflector Covers

176010 SOLD IN PAIRS
Fits **Front**, all VTX 1800, 1100 Spirit (front and rear), 750 Spirit, Shadow VLX 600 models. Will also fit other motorcycles with reflectors that are 3-5/16" x 1-1/4" or smaller with 1/4" of clearance around the reflector. **Small reflector covers**

176011 SOLD IN PAIRS
Fits **Front**, all Yamaha Road Star, V Star, 1100, Royal Star and Royal Star Venture models. **Large reflector covers** **Rear**, All Honda VTX 1800 (excluding C) models and 1300 Retro / S models. Will also fit other motorcycles with reflectors that are 3-1/2" x 1-3/8" or smaller with 1/4" of clearance around the reflector.

Stylize those unsightly front and rear reflectors on your bike with our louvered chrome covers. Leaves them on your bike for heightened visibility but adds a stylized louvered cover in traditional Kuryakyn shiny chrome.

Radiator Side Trim

150004 SOLD IN PAIRS
Fits VTX 1800 C and Retro models from 2002 thru 2003.

Instant pizzazz! Add this classy chrome and LED trim to the sides of your VTX 1800 Radiator and watch it come alive. Sturdy, gleaming chrome inserts attach easily and really dress up a part of the bike the factory tries to camouflage. An array of LED's provide a stock detail and increase visibility by functioning as additional running lights and turn signals.

Boomerang Frame Covers

161005 SOLD IN PAIRS
Fits V Star 650 models

161006 SOLD IN PAIRS
Fits V Star 1100 models

This dazzling chrome accent will really make your bike stand out from the rest. Easily installed, these show-chromed, die-cast frame covers make artwork out of a part of your bike that would otherwise fade into the background. The kit for the V Star 1100 includes a pair of upper frame covers that smooth the transition from the Boomerang Frame Cover to the fender. These really "pop" when combined with our new "Phantom" axle / hub covers PT#161004

Frame Trim

161008 SOLD AS SET
Fits VTX 1800 models.

161009 SOLD AS SET
Fits VTX 1300 models.

Transform that rough black frame forging into a sleek, stylish, attention getter. This two-piece kit attaches with high-strength, high temp adhesive for a quick and easy install.

Phantom Covers

161004 SOLD IN PAIRS
Fits all Road Star models (excluding Warrior).

Add the finishing touches to the tail end of your swingarm and smooth out those lines. These little beauties cover up the axle, adjustment bolts, and rough casting in one easy step.

Phantom Covers

161003 SOLD IN PAIRS
Fits V Star 650 models from 1998 thru 2005 and V Star 1100 models from 1993 thru 2005. On 2006 V Star 650 and 1100 models left side installs fine. Right side requires an aftermarket exhaust that allows 3/4" clearance from exhaust mount bracket and exhaust.

These awesome rear axle/hub covers work wonders on the back wheels of V Star 1100s and 650s alike. They turn a hodge-podge of fasteners, frame tubes, axles, hubs etc. into one smooth-sculpted chrome cover. The kit also includes covers to hide the bolt heads that secure the drive housing to the swing arm. Combine these with our new Boomerang Frame Covers and you'll have one seriously hot looking scooter on your hands!

Rear Shock Top Cover

163003 SOLD IN PAIRS
Fits all Honda VTX 1800 (excluding N), all VTX 1300, Shadow 1100 Sabre and Spirit, 750 Ace, Aero - Spirit, VLX 600 models. will also fit other models with 3-1/8" dia rear shocks that have 3/4" between the top of the shock cover and the center of the top mount hole.

Chrome shocks with a dull chrome top mount, not good. Now finish the chrome all the way to the top with our Rear Shock Top Cover and notice the difference. With Kuryakyn style Blood Grooves, these covers finish the shock top out right.

Note : When checking for appropriate clearance on '06 models please remember swingarms move separate from your exhaust mounts. Compress and uncompress suspension for proper clearance.

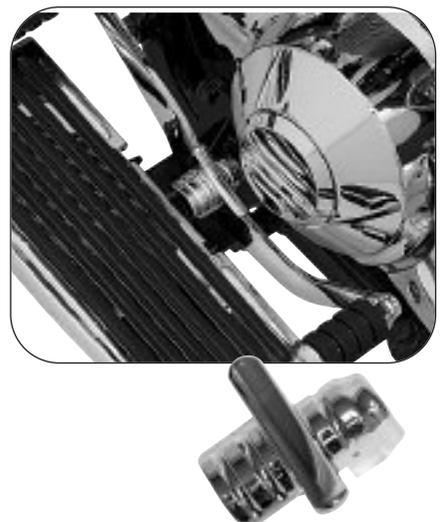

Shaft Drive Cover

150022 SOLD EACH
Fits V Star 1100 models from 1999 thru 2006 and V Star 650 models from 1998 thru 2006.

Give the rear differential the effect of a chromed housing at a fraction of the cost. Our new shaft drive cover integrates nicely with the design of our Phantom Covers for the V Star. Easy add-on with a two-bolt installation.

Shifter Pivot Cover

150006 SOLD EACH
Fits VTX 1800 Retro, S or N models from 2002 thru 2006.

On a finely finished bike like the VTX you don't want an ugly weld showing on an otherwise decent shift lever. In a heartbeat you can cure this with our creamy smooth chrome cover.

Neck Cover

123002 SOLD AS SET

Fits all V Star 1100 models from 1999 thru 2006.

Kuryakyn's chrome neck cover for the V Star 1100 is a stunning replacement for the dull, stock, black components. The cover is not simply a chrome replica of the stock parts. The contours on both sides have been smoothed and molded to provide a flowing appearance. The right side cover has a stylized teardrop shaped boss that surrounds the ignition switch and leaves just its outer surface exposed. Installation of this chrome plated two-part composite piece is a simple affair and can be accomplished with common hand tools.

Stiletto Axle Nut Caps

160002 SOLD IN PAIRS

Fits VTX 1300 and VTX 1800 models.

For those with Stiletto ISO-Grip End Caps, here's an opportunity to make a stronger statement. Stiletto Axle Nut Caps fit up closely to the sliders with no unsightly gaps.

Neck Cover

123001 SOLD EACH

Fits Valkyrie (excluding Rune) models from 1997 thru 2004.

This beautifully chromed delta-shaped cover neatly hides the front tank tab and neck top. Stainless steel mounting hardware is included to complete this easy installation.

Axle Caps

160001 SOLD IN PAIRS

Fits Vulcan 1500 models from 1995 thru 2004.

It's amazing what a difference adding a small detail like this will do for a front end. In minimal time, rusted, corroded, or chewed up axle ends and hardware are replaced with a pristine chrome finish!

Tank Tab Cover

120001 SOLD EACH

Fits 1100 Sabre models.

Simple yet effective, tasteful not gaudy, our new Tank Tab Cover conceals the front tank mounting tab and tidies up the area behind the top triple tree.

Hub Covers

160003 SOLD IN PAIRS

Fits VTX 1300 models.

Bring some flash to the spun aluminum hubs on your VTX 1300. Our chrome plated die cast, directional hub covers fit perfectly, giving you the benefit of custom wheels without the expense. Installation is quite simple, but does require removing the front wheel (not compatible with cast wheels).

Banjo Bolt Cover

143006 SOLD EACH

Fits most Cruisers with banjo fittings requiring a 12mm wrench.

This trick little cover "erases" nasty looking zinc or cad plated brake line fittings that are very prone to corrosion. They also add finishing detail to master cylinders and calipers.

Axle Nut / Fork Covers

163004 SOLD IN PAIRS

Axle nut / fork covers.

Conceal that unsightly front axle in a stylish new way while improving the looks of your front forks. Covers slide over the bottom of your fork legs and compression set screws tighten them in place.

Model Fitment :

Honda

Shadow Ace / Aero / Spirit, VLX, VTX 1300, VTX 1300 retro and VTX 1800R

Kawasaki

VN 800A / Classic / Drifter, VN 900 Classic, VN 900 LT, VN 1500 Classic / Drifter / Nomad

Suzuki

Intruder 1400, Intruder LC 1500 and Volusia.

Yamaha

Road Star (1999 thru 2007), Royal Star (1996 thru 2001), Royal Star Tour Deluxe (2005 thru 2007), V-Star 1100 Classic, V-Star 1100 Custom and Venture (1999 thru 2007).

Speedo Cable Ferrule Cover

161001 SOLD EACH

Fits V Star models.

Here's a little flash of chrome for V Star speedo cables. Just slip into place and tighten the set screw - it's that easy!

Custom Kickstand

10019 SOLD EACH

Fits custom applications.

Custom bolt on kickstand with hidden internal spring. Comes with set screw to allow adjustment of desired position for clearance between the frame and primary covers when in the up position. Made from high quality steel with a show chromed finish.

Note : Frame mounted kickstand, not to be used on forward control mount. Frame requires drilling and tapping. Installer must verify that the kickstand clears all other parts on the motorcycle and that the kickstand can rotate its full range to allow the ball stop to work correctly.

Custom Kickstand

10020 SOLD EACH

Custom lowered kickstand made from high quality steel with a show chromed finish. Includes hardware.

Note : Frame mounted kickstand, not to be used on forward control mount. Frame requires drilling and tapping. Installer must verify that the kickstand clears all other parts on the motorcycle and that the kickstand can rotate its full range.

Adjustable Height Kickstand

10040 SOLD EACH

Chrome adjustable height **front mounted** kickstand with hidden internal spring.

Beautifully show chromed kickstands machined flat on 2 sides for a Hi-tech look. Kickstands can be adjusted to suit custom frame applications or as OEM replacements.

The hidden heavy duty internal return spring mechanism gives these kickstands a smooth trouble free operation. Mounting brackets are made from stainless steel and are mirror polished, mounting hardware is also included.

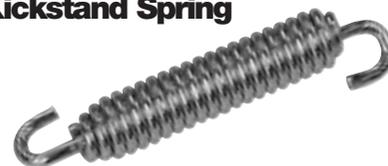

Heavy Duty Kickstand Spring

10036 SOLD EACH

Nicely chromed heavy duty kickstand spring, 3-7/8" long.

Kickstand Spring

10010 SOLD EACH

Chrome plated kickstand spring.

Front Fork Assemblies

Beautifully chromed, smooth and Ball milled Billet front fork assemblies. Made from 6061-T6 aluminum with flush axles. Available for single and dual disc applications.

The following front ends will fit custom applications on Metric motorcycles. They were originally designed for use on Harley Davidson Custom bikes but metric custom builders can utilize the following front ends on any triple tree applications that will accept 41mm front forks. We list the Harley applications to simplify the installation of other components ie HD wheel applications, HD brake rotors and calipers, triple trees, axles and spacers etc.

Front Fork Assemblies

Beautifully chromed, smooth and Ball milled Billet front fork assemblies. Made from 6061-T6 aluminum with flush axles. Available for single and dual disc applications.

Single Disc Fork Assemblies

62042 SOLD AS ASSEMBLY
Fits custom applications and Softail models from 1984 to 1999.

22-1/2" long complete front fork assembly with smooth legs for **single discs**.

Fits custom applications and FXDWG models 1993 to Present

36-1/4" long complete front fork assembly with smooth legs for **single discs**.

62043 SOLD AS ASSEMBLY
Fits custom applications and Softail models from 1984 to 1999.

22-1/2" long complete front fork assembly with **ball milled** legs for **single discs**.

62047 SOLD AS ASSEMBLY
Fits custom applications and Softail models from 1984 to 1999.

24-1/2" long complete front fork assembly with **ball milled** legs for **single discs**.

62051 SOLD AS ASSEMBLY
Fits custom applications and Softail models from 1984 to 1999.

26-1/2" long complete front fork assembly with **ball milled** legs for **single discs**.

Dual Disc Fork Assemblies

62044 SOLD AS ASSEMBLY
Fits custom applications and Softail models from 1984 to 1999.

24-1/2" long complete front fork assembly with smooth legs for **dual discs**.

62041 SOLD AS ASSEMBLY
Fits custom applications and Softail models from 1984 to 1999.

22-1/2" long complete front fork assembly with **ball milled** legs for **dual discs**.

62045 SOLD AS ASSEMBLY
Fits custom applications and Softail models from 1984 to 1999.

24-1/2" long complete front fork assembly with **ball milled** legs for **dual discs**.

62049 SOLD AS ASSEMBLY
Fits custom applications and Softail models from 1984 to 1999.

26-1/2" long complete front fork assembly with **ball milled** legs for **dual discs**.

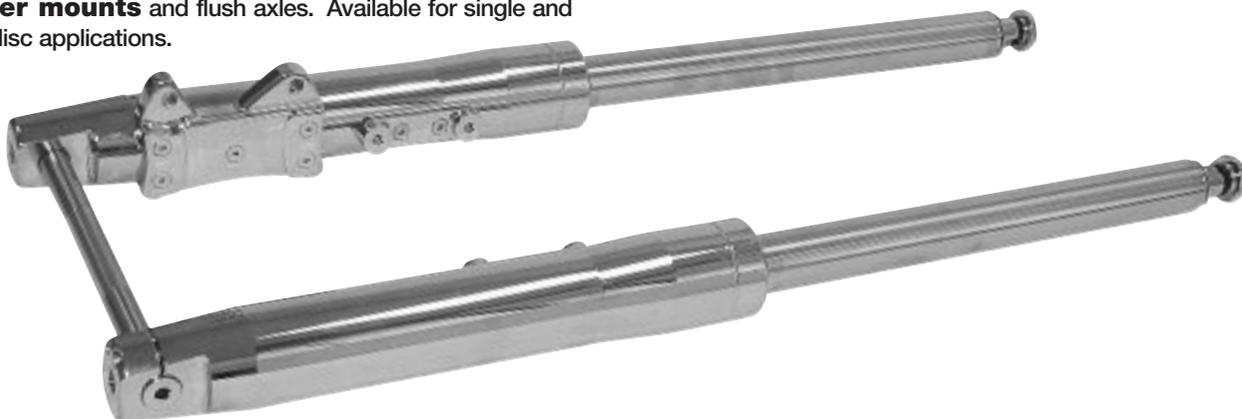

Front Axle

60021 SOLD EACH
Fits front forks with flush mounts.

Front axle for flush mount billet front forks.

Softail Front Fork Assemblies with Inside Fender mounts

Beautifully chromed, smooth and Ball milled Billet front fork assemblies. Made from 6061-T6 aluminum with **inside fender mounts** and flush axles. Available for single and dual disc applications.

Single Disc Fork Assemblies

62054 SOLD AS ASSEMBLY
Fits custom applications and Softail models from 1984 to 1999, uses Deuce style fender KWPT# 11380.

22-1/2" long complete front fork assembly with smooth legs for **single discs**.

62058 SOLD AS ASSEMBLY
Fits custom applications and Softail models from 1984 to 1999, uses Deuce style fender KWPT# 11380.

24-1/2" long complete front fork assembly with smooth legs for **single discs**.

62062 SOLD AS ASSEMBLY
Fits custom applications and Softail models from 1984 to 1999, uses Deuce style fender KWPT# 11380.

26-1/2" long complete front fork assembly with smooth legs for **single discs**.

62055 SOLD AS ASSEMBLY
Fits custom applications and Softail models from 1984 to 1999, uses Deuce style fender KWPT# 11380.

22-1/2" long complete front fork assembly with **ball milled** legs for **single discs**.

62059 SOLD AS ASSEMBLY
Fits custom applications and Softail models from 1984 to 1999, uses Deuce style fender KWPT# 11380.

24-1/2" long complete front fork assembly with **ball milled** legs for **single discs**.

62063 SOLD AS ASSEMBLY
Fits custom applications and Softail models from 1984 to 1999, uses Deuce style fender KWPT# 11380.

26-1/2" long complete front fork assembly with **ball milled** legs for **single discs**.

Dual Disc Fork Assemblies

62052 SOLD AS ASSEMBLY
Fits custom applications and Softail models from 1984 to 1999, uses Deuce style fender KWPT# 11380.

22-1/2" long complete front fork assembly with smooth legs for **dual discs**.

62056 SOLD AS ASSEMBLY
Fits custom applications and Softail models from 1984 to 1999, uses Deuce style fender KWPT# 11380.

24-1/2" long complete front fork assembly with smooth legs for **dual discs**.

62060 SOLD AS ASSEMBLY
Fits custom applications and Softail models from 1984 to 1999, uses Deuce style fender KWPT# 11380.

26-1/2" long complete front fork assembly with smooth legs for **dual discs**.

62053 SOLD AS ASSEMBLY
Fits custom applications and Softail models from 1984 to 1999, uses Deuce style fender KWPT# 11380.

22-1/2" long complete front fork assembly with **ball milled** legs for **dual discs**.

62057 SOLD AS ASSEMBLY
Fits custom applications and Softail models from 1984 to 1999, uses Deuce style fender KWPT# 11380.

24-1/2" long complete front fork assembly with **ball milled** legs for **dual discs**.

62061 SOLD AS ASSEMBLY
Fits custom applications and Softail models from 1984 to 1999, uses Deuce style fender KWPT# 11380.

26-1/2" long complete front fork assembly with **ball milled** legs for **dual discs**.

60021 SOLD EACH
Fits front forks with flush mounts.

Front axle for flush mount billet front forks.

“Tear Drop” Complete Front Fork Tube Assemblies

63031 SOLD AS ASSEMBLY
Fits custom applications and single or dual disc FXST models 1984 to 1999, FXWG models 1985 to 1986 and FXDWG models 1993 to 1999.

Stock length nicely chrome plated “Tear Drop” front end. Assembly includes patented clamp lock to secure the triple tree with the fork tubes, a smooth top triple tree without visible hardware, hidden fork stop, removable brake caliper mounts, height adjustable fender mounts, hidden axle and all necessary hardware including headlight mount.

Note : Does not accept stock brake caliper, use with 2000 & later 3/4” axle with sealed bearing wheels. Cannot be used with tapered wheel bearings.

Springer Style Front Ends

62181 SOLD EACH
2” under stock length **chrome plated** Springer front end.

62176 SOLD EACH
Stock length **chrome plated** Springer front end.

62177 SOLD EACH
2” over stock length **chrome plated** Springer front end.

62178 SOLD EACH
4” over stock length **chrome plated** Springer front end.

62179 SOLD EACH
6” over stock length **chrome plated** Springer front end.

62180 SOLD EACH
8” over stock length **chrome plated** Springer front end.

These Springers can be used on H-D and Aftermarket frames. This complete assembly includes a custom axle and spacers. The front end can be used with internal fork stops and a left or right side brake set up can be used. These front ends don’t provide any fender mounts.

Note : These front ends don’t provide any fender mounts. Fender mounting Tabs available separately PT#11515

Springer Style Front Ends

62086 SOLD EACH
2” under stock length **black** Springer front end.

62083 SOLD EACH
Stock length **black** Springer front end.

62084 SOLD EACH
2” over stock length **black** Springer front end.

62085 SOLD EACH
4” over stock length **black** Springer front end.

These Springers can be used on H-D and Aftermarket frames. This complete assembly includes a custom axle and spacers. The front end can be used with internal fork stops and a left or right side brake set up can be used.

Note : These front ends don’t provide any fender mounts. Fender mounting Tabs available separately PT#11515

Springer Fender Mountings

11515 SOLD AS SET
Fits 3/4” and 1” Front legs of Springer Front Ends.

Nicely chrome plated Springer front fender mounting tabs.

Front Fork Tube Assemblies

62070 SOLD AS ASSEMBLY
Fits custom applications and single disc FXSTD models 2000 to Present.

22-1/4" long nicely chrome plated 41mm OD fork tube assemblies, including all internal parts.

62071 SOLD AS ASSEMBLY
Fits custom applications and single disc FXSTD models 2000 to Present.

24-1/4" long nicely chrome plated 41mm OD fork tube assemblies, including all internal parts.

62072 SOLD AS ASSEMBLY
Fits custom applications and single disc FXSTD models 2000 to Present.

26-1/4" long nicely chrome plated 41mm OD fork tube assemblies, including all internal parts.

Billet Smooth 41mm Lower Fork Legs

Fits VTX 1800 C/F models from 2002 thru 2006.

A 5-piece set that includes a one-piece cover for the top triple clamp, chrome fork tube caps, and covers for the lower triple clamp.

These are the ultimate front end dress-up kits for the VTX. They provide the look of a custom chrome replacement triple tree set, at a fraction of the cost, and with significantly less work!

Note : Requires removal of handlebar riser assembly and headlight mount during installation.

Inspection Sticker Plate

28008 SOLD EACH
Fits custom applications.

Nicely chrome plated inspection sticker plate, use for most state inspection stickers. Measures 3" x 3" with a 1/2" mounting hole.

Diamond Chains

DL - Duralube® chain is constructed using a one-piece powered metal bushing / roller combination which has lubricant drawn in under vacuum. In service, lubricant is released to the pin / bushing joint to provide supplemental lubrication between regularly scheduled maintenance. Wear life of a Duralube® chain can be five times that of a standard chain.

MS Standard Performance - “Multi-Service” chains for street, track or trail. MS chains offer Diamond’s superior parts processing technology, which includes : material selection, precise component fabrication, exacting heat treatment and assembly techniques.

XLO O-Ring - Ring Leader® Diamond’s top of the line roller chain. The O-Ring lubrication system keeps the chain properly lubrication and prevents premature elongation by sealing lubricant in and contaminant’s out of the pin / bushing joint. Depending upon the specific conditions, a Ring leader® chain can provide up to ten times the wear life of a standard chain.

We use and supply belts from the major belt manufacturers.
THERE IS NO WARRANTY ON ANY BELTS.

One Piece Chopper Square Cut Gas Tank

20180 SOLD EACH

One piece chopper custom gas tank with **square cut rear**. Fits custom application, uses screw in gas cap - not included (style A & F) holds approx 4 gallons.

20192 SOLD EACH

One piece chopper custom gas tank with **square cut rear**. Fits custom application, uses pop up style gas cap - not included (style E) holds approx 4 gallons.

No expense was spared in the construction and finish quality of these gas tanks. All visible welds (when mounted on bike) have been finished and polished to give a nice smooth seamless appearance and then phosphate etched to help prevent corrosion and to give a good surface for primers to adhere.

The tank is mounted to the frame using the supplied weld on brackets. When the brackets have been installed they mount to the gas tank using a recessed rubber mounting system which isolates it from vibration and gives a nice flush look.

Comes with weld to frame brackets, rubbers and mounting hardware, stainless filler bung, stainless 13/16" (22mm) petcock outlet and stainless breather tube.

Overall length : 23.25"
 Tunnel length : 23.25"
 Tunnel width : 2.00"
 Overall width : 13.50"
 Height : 8.86"

Note : Before painting these steel gas tanks, we recommend that you mount the tank and check all frame and fork clearances. Gas tanks come with custom mountings including weld on mounting brackets. We recommend a qualified welder mounts the brackets to the frame.

Style E

All gas tanks must be pressure tested, cleaned with tank cleaner and sealer before painting to protect the final finish and prevent internal rusting during winter storage. Always install the gas tank before painting to check fork, triple tree and handlebar control clearances.

One Piece 3" Stretched "Smoothie" Custom Gas Tank

20162 SOLD EACH

Fits Custom applications, uses screw in gas cap - not included (style A & F) holds approx 4 gallons.

20163 SOLD EACH

Fits Custom applications, uses pop-up style gas cap - not included (style E) holds approx 4 gallons.

No expense was spared in the construction and finish quality of these gas tanks. Instead of the usual butt welded construction they incorporate joggle lap and lap joints through out. This results in a much stronger gas tank without the worry of compromising the structural strength while providing a smooth surface finish. The joggle lap joints also allow the tunnel plate to be sunken below the bottom surface of the tank making grinding of the welds unnecessary.

The tank is mounted to the frame using the supplied weld on brackets. When the brackets have been installed they mount to the gas tank using a recessed rubber mounting system which isolates it from vibration and gives a nice flush look. The gas tank has a grey phosphate etched finish to help prevent corrosion and to give a good surface for primers to adhere.

Comes with weld to frame brackets, rubbers and mounting hardware, stainless filler bung, stainless 13/16" (22mm) petcock outlet, stainless breather tube and stainless rear mounted gas crossovers tapped for 1/8" - 27 NPT unions.

Overall length : 22.24"
 Tunnel length : 19.21"
 Seat pocket length : 3.03"
 Tunnel width : 3.48"
 Overall width : 14.00"
 Height : 9.3"

Note : Before painting these steel gas tanks, we recommend that you mount the tank and check all frame and fork clearances. Gas tanks come with custom mountings including weld on mounting brackets. We recommend a qualified welder mounts the brackets to the frame.

All gas tanks must be pressure tested, cleaned with tank cleaner and sealer before painting to protect the final finish and prevent internal rusting during winter storage. Always install the gas tank before painting to check fork, triple tree and handlebar control clearances.

One Piece 2" Stretched Softail Style Custom Gas Tank

20184 SOLD EACH

Fits custom applications, uses screw in gas cap - not included (style A & F) holds approx 4 gallons.

20185 SOLD EACH

Fits custom applications, uses pop up style gas cap - not included (style E) holds approx 4 gallons.

No expense was spared in the construction and finish quality of these gas tanks. All visible welds (when mounted on bike) have been finished and polished to give a nice smooth seamless appearance and then phosphate etched to help prevent corrosion and to give a good surface for primers to adhere.

The tank is mounted to the frame using either the supplied weld on front and rear brackets, or one of the weld on front brackets and the supplied Softail horse shoe style rear bracket. When the brackets have been installed they mount to the gas tank using a recessed rubber mounting system which isolates it from vibration and gives a nice flush look.

Comes with weld to frame brackets, Softail horse shoe style rear bracket, rubbers and mounting hardware, stainless filler bung, stainless 13/16" (22mm) petcock outlet and stainless breather tube.

Overall length : 23.28"
 Tunnel length : 19.70"
 Seat Pocket : 3.58"
 Tunnel width : 2.00"
 Overall width : 16.18"
 Height : 8.19"

Note : Before painting these steel gas tanks, we recommend that you mount the tank and check all frame and fork clearances. Gas tanks come with custom mountings including weld on mounting brackets. We recommend a qualified welder mounts the brackets to the frame.

Style E

Style A

Style F

All gas tanks must be pressure tested, cleaned with tank cleaner and sealer before painting to protect the final finish and prevent internal rusting during winter storage. Always install the gas tank before painting to check fork, triple tree and handlebar control clearances.

One Piece Custom Gas Tank

20168 SOLD EACH

Fits custom application, uses screw in gas cap - not included (style A & F) holds approx 3.5 gallons.

20169 SOLD EACH

Fits custom application, uses pop-up style gas cap - not included (style E) holds approx 3.5 gallons.

No expense was spared in the construction and finish quality of these gas tanks. All visible welds (when mounted on bike) have been finished and polished to give a nice smooth seamless appearance and then phosphate etched to help prevent corrosion and to give a good surface for primers to adhere.

The tank is mounted to the frame using the supplied weld on brackets. When the brackets have been installed they mount to the gas tank using a recessed rubber mounting system which isolates it from vibration and gives a nice flush look.

Comes with weld to frame brackets, rubbers and mounting hardware, stainless filler bung, stainless 13/16" (22mm) petcock outlet and stainless breather tube.

Overall length : 21.25"
 Tunnel length : 21.25"
 Tunnel width : 3.25"
 Overall width : 14.00"
 Height : 9.00"

Note : Before painting these steel gas tanks, we recommend that you mount the tank and check all frame and fork clearances. Gas tanks come with custom mountings including weld on mounting brackets. We recommend a qualified welder mounts the brackets to the frame.

All gas tanks must be pressure tested, cleaned with tank cleaner and sealer before painting to protect the final finish and prevent internal rusting during winter storage. Always install the gas tank before painting to check fork, triple tree and handlebar control clearances.

Stretched Pro Image I Gas Tank

20178 SOLD EACH

Fits custom application, uses late 96 thru 05 screw in gas cap - not included (style A & F) holds approx 4.7 gallons.

Fits custom applications uses spinner gas cap (style G) holds approx 2.4 gallons.

Bobber style gas tank with indented sides to add a touch of style. Tanks come with weld-on mounting brackets, which are recessed in the bottom of the tank for that smooth hidden look.

Note : Before painting these steel gas tanks, we recommend that you mount the tank and check all frame and fork clearances.

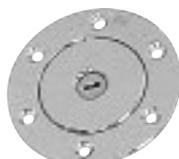

Chrome Plated Aluminum Aero Style Gas Cap

20009 SOLD EACH
Fits gas tanks with Midi (3.74") Aero style **non vented** gas caps.

20008 SOLD EACH
Fits gas tanks with Midi (3.74") Aero style **vented** gas caps.

Chrome plated racing style gas caps can be used as a replacement for existing Aero style gas caps or to customize your stock tank.

All gas tanks must be pressure tested, cleaned with tank cleaner and sealer before painting to protect the final finish and prevent internal rusting during winter storage. Always install the gas tank before painting to check fork, triple tree and handlebar control clearances.

Pop Up Custom Gas Caps

20120 SOLD EACH
Fits custom applications.

Raw paintable pop up gas cap with weld in 2-5/16" OD steel bung.

20121 SOLD EACH
Fits custom applications.

Raw paintable pop up gas cap with weld in 2-5/16" OD aluminum bung.

20122 SOLD EACH
Fits custom applications.

Chrome pop up gas cap with weld in 2-5/16" OD steel bung.

20123 SOLD EACH
Fits custom applications.

Chrome pop up gas cap with weld in 2-5/16" OD aluminum bung.

These pop up gas caps give your tank that smooth custom look. Just push in the cap, twist and the cap will pop up.

Replacement Caps Only

20182 SOLD EACH
Raw finish pop up gas cap only.

20183 SOLD EACH
Chrome finish pop up gas cap only.

Chrome Pop Up Gas Caps

Fits our screw in type gas tanks.

Chrome screw in type vented pop up gas cap.

20125 SOLD EACH
Fits our screw in type gas tanks.

Chrome screw in type non vented pop up gas cap.

20126 SOLD AS SET
Fits our screw in type gas tanks.

Chrome screw in type vented and non vented pop up gas caps.

These are very cool looking pop up caps. Just push in the cap, twist and the cap will pop up.

Black Pop Up Gas Cap

20187 SOLD EACH
Fits our screw in type gas tanks.

Black screw in type vented pop up gas cap.

Black versions of our very cool looking pop up caps. Just push in the cap, twist and the cap will pop up.

Spinner Black Gas Cap

20188 SOLD EACH
Fits our screw in type gas tanks.

Black screw in type vented spinner gas cap.

High Flow Petcock Left Side Spigot

20159 SOLD EACH
Fits custom applications using 22mm internal thread, comes with nylon filter.

1 Litre per minute high flow Petcock with left side spigot. Comes with a new design of viton seal to solve the swelling problems associated with different types of fuel, including the lead free Ethanol type gas.

High Flow Petcock Right Side Spigot

20160 SOLD EACH
Fits custom applications using 22mm internal thread, comes with nylon filter.

1 Litre per minute high flow Petcock with right side spigot. Comes with a new design of viton seal to solve the swelling problems associated with different types of fuel, including the lead free Ethanol type gas.

High Flow Petcock with Downward Facing Spigot

20161 SOLD EACH
Fits custom applications using 22mm internal thread, comes with nylon filter.

1 Litre per minute high flow Petcock with downward facing spigot. Comes with a new design of viton seal to solve the swelling problems associated with different types of fuel, including the lead free Ethanol type gas.

Petcocks

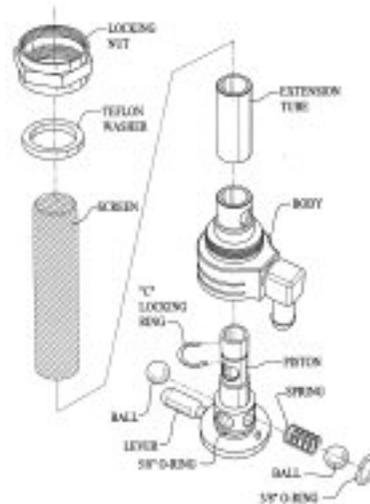

20172 SOLD EACH
Ball petcocks with backward facing hose barb.

20173 SOLD EACH
Ball petcocks with downward facing hose barb.

20174 SOLD EACH
Ball petcocks with side facing hose barb.

Golan Products "NEW TECHNOLOGY" petcock. Made out of show chrome plated 360 brass with stainless steel ball bearings and components.

The ball bearing mechanism prevents a frozen valve, providing a secure seal in the "OFF" position, and our O-Ring seat secures any leaks from the petcock to the carburetor, while giving you the feeling of a firm and positive action movement.

This new petcock can easily be modified for use in low and shallow tanks, without any problem, the petcock can be mounted on the very end of the tank or any other desired location on the tank.

Stainless Fuel Filter

17022 SOLD EACH
USA made show chrome plated fuel filter with easy clean element for reuse. 0.875" long with 5-1/16" hose barbs and a 10 micron 304 stainless filter element. It won't restrict fuel flow to big carbs and is just what you need to keep fuel contamination out of your engine.

Fuel Filter

17008 SOLD EACH
Fits 5/16" Fuel line.

17009 SOLD EACH
Fits 1/4" Fuel line.

Show chromed in line fuel filter. Comes with clear housing and washable filter element.

Custom Billet Fuel Filter

17021 SOLD EACH
Show Chrome billet fuel filter for 5/16" fuel lines.

Vented Gas Tank Filler Bung

20157 SOLD EACH
Fits custom applications.

Weld in **vented** gas tank filler bung, can be used when building your own custom made gas tank. Takes our screw in style vented gas caps.

5/16" ID oil and braided neoprene hose (use 1/4 - 5/16" PT# 83003 hose ends).

83002 SOLD IN 10' ROLL
3/8" ID oil and braided neoprene hose (use 3/8" PT# 83004 hose ends).

These gas resistant hoses are seamless neoprene inside with a steel braided outside. Available in 3 different internal diameters and come in 10' rolls.

Cycle Tank Repair Kit

32001 SOLD AS KIT
Standard gas tank repair kit.

Cycle fuel tank repair kits have been designed for the special needs of bikes and other small fuel tanks such as recreational vehicles, snowmobiles, outboards, generators, etc. Order a cycle fuel tank repair kit today, and experience its quality and durability for yourself. Each kit contains:

Marine Clean : to remove gum, sludge, varnish

Metal Ready : to remove rust & prepare tank for sealer

U.S. Standard Tank Sealer : creates a permanently sealed tank

Cloth Patch : for sealing large holes or reinforcing weak areas

Brush : for applying patching system to exterior of tank

Detailed Instructions : to take you easily through each step of tank restoration

The U.S. Standard Fuel Tank Sealer was formulated and developed due to the demand for a high-tech sealer impervious to all fuels, including the new stage II fuels which have a high alcohol content. It has superior strength and fuel resistance, and does not contain Methyl Ethyl Ketone, a highly flammable and deadly carcinogen (cancer-causing). U.S. Standard Fuel Tank Sealer is non-flammable and is environmentally safe.

Note : Must be shipped via ground transportation (FEDEX or UPS) - cannot be shipped air.

Heavy Duty Cycle Tank Repair Kit

32000 SOLD AS KIT
Heavy duty gas tank repair kit.

These heavy duty Cycle fuel tank repair kits have been designed for those unfortunate customers who have had bad results from other inferior fuel tank sealers, we have developed these all new " Heavy Duty Cycle Tank Repair Kits ". They feature everything found in our regular Cycle Tank Repair Kits, plus a quart bottle of our famous Tank Strip to first remove that inferior coating that failed you. Each kit contains:

Tank Strip : to first remove poor quality coatings

Marine Clean : to remove gum, sludge, varnish

Metal Ready : to remove rust & prepare tank for sealer

U.S. Standard Tank Sealer : creates a permanently sealed tank

Cloth Patch : for sealing large holes or reinforcing weak areas

Brush : for applying patching system to exterior of tank

Detailed Instructions : to take you easily through each step of tank restoration

The U.S. Standard Fuel Tank Sealer was formulated and developed due to the demand for a high-tech sealer impervious to all fuels, including the new stage II fuels which have a high alcohol content. It has superior strength and fuel resistance, and does not contain Methyl Ethyl Ketone, a highly flammable and deadly carcinogen (cancer-causing). Handlebar Programmable Speedo Kit

19023 SOLD AS KIT
Fits custom applications.

This Thunder Heart 3-5/8" speedo is fully programmable for different wheel sizes. Speedo kit comes with a polished housing bracket for handlebar mounting, LED indicators for the turn signals, oil, high beam and neutral lights. The VDO gauge has a weatherproof and UV protective coating for a long service life.

Note : Use with our electronic wiring harness PT# 75073 and our rear wheel pick up PT# 19021.

Rear Wheel Speedo Pick up

19021 SOLD AS KIT
Fits custom applications.

Polished billet Speedo Sensor / Rear wheel Inductive Pick up assembly for use with Programmable VDO Electric Speedo's. This pick up works by counting the bolt heads on your pulley or sprocket and allows you to use any size rear wheel.

Thunder Heart Electronic Wiring Harness with Controller

75073 SOLD AS KIT
Fits custom applications. Typically mounts under the gas tank, but can be mounted anywhere on the motorcycle.

Performs all fuse, relay and flasher functions in one small module. Electronic module uses surface mount technology and microprocessors which eliminate cumbersome relays and flashers. High-tech circuit interrupters are used to replace circuit breakers for a more compact and less complicated wiring harness. Industry standard AMP and Molex connectors reduce harness clutter and improve serviceability. Unit has a water resistant case and connectors for trouble free operation in all conditions. Diagnostic LED's indicate problems for easy trouble shooting. Controller has conventional brake light activation (soild "on", without flashing the turn signals). It also allows a dual filament bulb to be used three ways : tail, brake and turn light which excludes the need for a center brake light. Kit includes full harness, connectors, terminals, heat-shrink tubing and wiring diagram.

Note : Used with our handlebar speedo kit PT# 19023, and / or our plug in LED indicator unit PT# 19018.

LED Kit for use with Thunder Heart Wiring Harness

19018 SOLD AS KIT

Fits custom applications with dash openings of 2-7/8" long x 7/8" wide.

Polished billet LED light strip, lets you keep all of your indicator lights with style. Light colors included 2 amber, 1 blue, 1 red and 1 green. Plugs into Thunder Hearts electronic wiring harness controller PT# 75073.

Handlebar BrackeTree™

Cycle Performance Products have made it easy for the **Metric Crusier Rider!** Take your pick of just about any tach or speedo and mount them to your handlebar or riser combination with their polished aluminum BrackeTree™ and ease on down the road. That's right, their brackets now fit most gauges with the advent of Pro-Loc™ rubber isolators in different sizes.

Pro-Loc Rubber Isolators

19051 SOLD EACH
Rubber isolator for all VDO 2.4" gauges.

19053 SOLD EACH
Rubber isolator for all HD 2.5" mini tach gauges.

Discription	Single BrackeTree	
	2-5/8"	3-3/8"
Kawasaki Vulcan with HD style Stretch Risers	19029	19030

Britt Signature Series Front Fenders

Kustomwerks and Scott Britt of Britt Motorsports have teamed up to offer a Signature Series of fenders. Scott Britt is nationally known for producing some of the most cutting edge metric custom bikes in the country. Late in 2006, the two companies collaborated in developing several new sheet metal offerings for V-star 1300 model, Vulcan 900 and 2000 models. Scott will be offering these same sheet metal products on several "Britt Signature Series" motorcycles that will be introduced to the market later this year. Whether you want to change the look of your current bike, or you want to be one of the lucky few to own one of Britt's limited production signature series motorcycles, we've got you covered.

Roadliner and Stratoliner Yamaha Front Fender

111710 SOLD EACH

Fits Yamaha Roadliner and Stratoliner XV 1900 models from 2006 to present and custom applications.

What about a custom front fender to match that custom rear fender? This 6.25" wide front fender is made from 14 gauge steel and is phosphate etched so there is minimal preparation before painting. This fender is perfectly matched to be used with either 16" front wheels using 130/90/16 tires or with the stock 18" front wheel and 130/70/18 tires.

Custom applications

These heavy duty fenders are made from 0.080" (14 gauge) steel. They are formed in one piece for added strength. Unlike the normal two piece welded fenders these won't split or crack down the middle. The fenders have been phosphate etched to help prevent corrosion and to give a good surface for primers to adhere. They are available in two widths and several different styles. All front fenders are supplied raw and un-drilled for custom applications.

Note : 4.75" fenders are used on Narrow Glide front ends with 19" or 21" wheels, will fit Wide Glide front ends if fender spacers are used. 6.25" fenders are for Wide Glide front ends using 16" wheels. Always check fender fit and installation before painting.

11404 SOLD EACH
Custom 13.50" Softail style rear fender ready to be trimmed to your own individual taste. Fits Softail-style frames using up to 330mm wide rear tires. Fender is **13.50" wide and 45.88" long**.

Heavy duty 9.00", 10.25", 11.00", 12.50" and 13.50" rear fenders for Softail-style frames. Fenders are made from 0.080" (14 gauge) steel and formed in one piece for added strength. Unlike the two piece welded fenders these won't split or crack down the middle. The fenders have been phosphate etched to help prevent corrosion and to give a good surface for primers to adhere. They are supplied raw, un-trimmed and un-drilled for custom applications.

Round Top Softail Style Rear Fenders

11376 SOLD EACH
Fits Softail-style frames using up to 200 wide rear tires, fender is **9.00" wide and 33.90" long**.

Fits Softail-style frames using up to 280mm wide rear tires, fender is **12.50" wide and 31.57" long**. Includes chrome CNC machined license plate frame with DOT approved Half Moon LED stop and tail light.

11445 SOLD EACH
Fits Softail-style frames using up to 330 wide rear tires, fender is **13.50" wide and 31.57" long**. Includes chrome CNC machined license plate frame with DOT approved Half Moon LED stop and tail light.

Heavy duty 9.00", 10.25", 11.00", 12.50" and 13.50" rear fenders with **license plate box** for Softail-style frames. Fenders are made from 0.080" (14 gauge) steel and formed in one piece for added strength. Unlike the two piece welded fenders these won't split or crack down the middle. The fenders have been phosphate etched to help prevent corrosion and to give a good surface for primers to adhere. They are supplied raw and un-drilled for custom applications. Includes chrome CNC machined license plate frame with DOT approved Half Moon LED stop and tail light.

Custom applications

These heavy duty fenders are made from either 0.080" (14 gauge) steel or 0.12" aluminum. They are formed in one piece for added strength. Unlike the normal two piece welded fenders these won't split or crack down the middle. The steel fenders have been phosphate etched to help prevent corrosion and to give a good surface for primers to adhere. They are available in four widths and several different styles. All rear fenders are supplied raw and un-drilled for custom applications.

Note: Always check fender fit and installation before painting.

164002 SOLD IN PAIRS

Fits :

Intruder LC 1500 / Boulevard C90 models from 1998 thru 2006.
Volusia 800 / Boulevard C50 models from 2001 thru 2006.
Marauder 800 / Boulevard M50 models from 2001 thru 2006.

164004 SOLD IN PAIRS

Fits :

Intruder 800 / Boulevard S50 models from 1995 thru 2006.
Intruder 1400 / Boulevard S83 models from 1995 thru 2006.

Note : These grips are not compatible with "bar-end" weights found on many bikes. The majority of the time, removing these weights is a simple affair and the vibration absorbing quality of our ISO-Grips more than compensates for the vibration damping lost by removal of the "bar-end" weight. Sometimes, the "bar-end" weight is incorporated into the design of the stock grips and actually supports the end of the grip. Please make sure removing "bar-end" weights or stock grips will not affect the installation of the ISO-Grips.

ISO-Flame Grips

Our new ISO-Flame Grips have a unique flamed pattern in the soft and cushy rubber pads. Finished off with a Maltese Cross emblazoned end cap and trim ring for that additional bad attitude look. This grip accepts our wildly popular ISO-Throttle boss, which greatly aids your hand on those long rides to the next rally.

Honda Models

164007 SOLD IN PAIRS

Fits :

Shadow Aero 1100 models from 1998 thru 2003.

164012 SOLD IN PAIRS
Fits Kuryakyn ISO-Grips Left and Right matching Bosses.

Added to the popular Kuryakyn ISO-Grips, this little jewel can make all the difference in the world on a long ride. The Throttle Boss is a small adjustable paddle that is positioned under the palm of one's throttle hand. This allows the rider to slightly relax the grip on the gas and still maintain a constant speed. Muscle stiffness and fatigue are reduced after prolonged cruising at a steady pace. A new redesigned rubber pad permits use on both grips for a "matched set".

Universal Throttle Boss

164011 SOLD EACH
Fits any application with twist grip throttle.

Regardless of what type of bike you ride, the Throttle Boss will make riding any distance more comfortable. Designed to fit any type or size grip, the Throttle Boss can be installed in seconds to provide a cushioned platform for your palm. This allows the rider to vary or maintain a speed without keeping a tight grip on the throttle, reducing muscle fatigue and discomfort. Removes quickly without tools to stow in a jacket pocket, tool bag, etc.

Handlebar Control Covers

Cover up unsightly housings and create a smooth, full-custom look with these clamshell-design chrome covers. They install easily and encapsulate the stock housing without interfering with control functions. They're an awesome accent to ISO-Grips and our custom mirrors. Offered for many applications with more on the way.

Honda Models

165008 SOLD AS SET
Fits VTX 1800 models from 2002 thru 2006.

Mirror Hardware Adapters

66080 SOLD IN PAIRS
 Metric Motorcycle mirror adapter hardware. Required when installing custom mirrors on metric motorcycles.

Turn Signal Mirrors

166006 SOLD IN PAIRS
Fits Metric custom applications. Flat Glass Turn Signal mirrors 5" x 2-3/4" with 4-3/8" height stem.

This Kuryakyn original looks good coming and going. From the rider's seat, these custom mirrors are functional, and great looking, with a heavy duty locking mechanism and swivel ball to keep the mirrors adjusted where you want them. Looking at the mirrors from the front, you'll notice a bank of LED's that work as a running light and a super bright auxiliary turn signal. Unlike other lighted mirrors, these lights only face forward so glare is not a factor. The life of this light source will be several times that of incandescent bulbs.

Mirror adapters PT# 166001 or 166002 required for installation on Metric Cruisers.

Note : These Turn Signal Mirrors were designed to satisfy the flash requirements of Harley Davidson motorcycles. The draw produced by these lights, or load equalizers used with LED lights may or may not be what is needed for proper flash and frequency on your Metric Cruiser. You may have to experiment with different flashers, load equalizers, etc. to achieve the desired flash on your bike. It may be necessary to obtain these components from sources other than Kustomwerks.

Magnum Plus Mirrors

166003 SOLD EACH
Fits Metric custom applications. **Small head** Flat Glass Magnum Plus mirror 5" x 2-5/8" with Magnum Plus height stem 4-3/8".

166004 SOLD EACH
Fits Metric custom applications. **Large head** Flat Glass Magnum Plus mirror 5-1/2" x 3" with Magnum Plus height stem 4-3/8".

Beautifully chrome plated Magnum Plus Mirrors feature the same beefed construction as our standard Magnum mirrors but have a different stem that moves the mirror head outward 2" farther than our Magnum Mirror.

Note : Mirror adapters PT# 166001 or 166002 required for installation on Metric Cruisers.

Mirror Adapters

166001 SOLD IN PAIRS
Fits Honda, Suzuki and Kawasaki models.

166002 SOLD IN PAIRS
Fits Yamaha models.

These adapters make it possible to use Kuryakyn custom mirrors, on Metric Cruisers. Locknuts allow the mirror to be positioned for maximum effectiveness. Order a pair of adapters along with a pair of the mirrors that suit your style.

Magnum Mirrors

166005 SOLD IN PAIRS
Fits Metric custom applications. Small head Flat Glass Magnum mirrors 5" x 2-5/8" with standard height stem 3-15/16".

We call it the Magnum because of its rugged design. Every component has been beefed up. Unlike other flimsy mirrors, ours are made super tough. Magnum mirrors have a beautiful chrome plated finish and a style all their own.

Note : Mirror adapters PT# 166001 or 166002 required for installation on Metric Cruisers.

Ellipse Mirrors

166007 SOLD IN PAIRS
Fits Metric custom applications. Flat Glass Ellipse mirrors 5" x 2-3/4" with 4-3/8" height stem.

These state-of-the-art custom mirrors are cut from the same mold as our turn signal mirrors, but they do not have the running light and turn signal functions. They feature an oversized swivel ball for superior locking ability.

Note : Mirror adapters PT# 166001 or 166002 required for installation on Metric Cruisers.

Brake Line Accent Covers

143011 SOLD IN PAIRS
Fits all VTX 1800 models.

Cover those bare stamped brackets holding your front brake lines to the forks with some blood grooved chrome. These little beauties really make a difference and clean up the lower front fork area.

Brake Bleeder Screw Cover

143008 SOLD EACH
Fits most Metric Cruisers.
Single Brake Bleeder Screw Cover.

143007 SOLD IN PAIRS
Fits most Metric Cruisers.
Pair of Brake Bleeder Screw Covers.

This little gem is the perfect complement to our Banjo Bolt Cover. Easily installed over the stock rubber cover, this piece provides a nice detail when dressing up brake calipers on metric Cruisers.

Caliper Covers

Front Caliper Cover

143002 SOLD EACH

Fits :
Yamaha V Star 1100 and Royal Star Venture models.

Kawasaki Vulcan 1500 models.

Suzuki Volusia / Boulevard C50 models.

This Wicked looking Caliper Cover installs in minutes, no tools required.

Brake Component Dress-up kit

143009 SOLD AS KIT
Fits VTX 1800 C/F models from 2002 thru 2006.

143010 SOLD AS KIT
Fits VTX 1800 Retro/S models from 2003 thru 2006.

These Dress-up Kits for the VTX and VTX Retro make artwork out of parts that are otherwise pretty dull. All components are simple to install and include all necessary hardware. All kits include a replacement fluid reservoir cap and a wrap around reservoir cover. The kit for the VTX 1800 C/F also places a streamlined cover on the master cylinder. All components feature a dazzling chrome finish.

143003 SOLD IN PAIRS
Fits Valkyrie models (excluding Rune) from 1997 thru 2004.

In only minutes, you can make art out of an otherwise drab looking caliper. These covers install easily with no tools or fastener. Add our bleeder fitting cover and banjo bolt cover with these and you'll be looking smart!

Front Caliper Covers

143004 SOLD IN PAIRS
Fits all VTX 1800 models from 2003 thru 2006 (except early 2003 models with caliper bleeder screw between brake line fittings).

Perk up that front end by adding these super easy to install show chrome caliper covers. You'll get a lot of compliments on these.

Rear Caliper Covers

143005 SOLD EACH
Fits VTX 1800 models from 2002 thru 2006.

Finish off that rear brake with our pure custom looking caliper cover. You won't believe the difference.

Rear Caliper Covers

143001 SOLD EACH
Fits Suzuki M109R models thru 2006.

Very Cool, very easy, very affordable . Be the first to finish off that rear brake with our pure custom looking caliper cover. You'll be glad you did.

PRO System I Stainless Steel Braided Hose

43170 SOLD IN 10' ROLL
Clear Coat Pro System I
-3 stainless steel braided hose.

43171 SOLD IN 10' ROLL
Smoke Tint Clear Coat Pro System I
-3 stainless steel braided hose.

Engineered for the professional bike builder, Pro System 1 hose is a 308 stainless steel -3 braided hose specifically designed for high performance brake applications. It features a Teflon inner liner along with a clear coated exterior for abrasion resistance to painted surfaces. Maximum operation pressure is 2500 PSI. Available with clear coat or smoke tinted clear coat.

Billet Brake Hose Clamp

67165 SOLD EACH
Fits all models and custom applications

Roger Bergei from A/C Precision has done it again by coming up with a simple but effective answer to clamp down your front brake hose. By machining a close tolerance polished billet clamp that simply snaps onto your 41mm fork leg, you can keep your braided brake hose from scratching expensive paint work. Just like magic. Nothing to drill or tap. An inexpensive answer to keeping that hose from flapping around in the breeze.

PRO System I Fitting Assembly

- 1) Wrap tape tightly around hose where cut is to be made.
- 2) Using either a cut off wheel or fine tooth hack saw, cut hose to desired length.
- 3) With a sharp knife, trim back the clear coating approx. 1" from end of hose.
- 4) Disassemble the 3-piece adapter fitting.
- 5) Slide the tapered nut (taper first) over the hose.
- 6) Using a small screw driver, separate and open up the stainless braid from the Teflon inner liner.
- 7) Slip the brass ferrule (tapered end towards the hose) over the Teflon inner liner.
- 8) Lubricate barb with brake fluid and insert the barbed end of the fitting into the Teflon tube.
- 9) Draw up the tapered nut and tighten down.

Note : To re-use Compression fittings, you need a 5/16" Replacement Ferrule PT#43169

DOT 5 Brake Fluid

32002 SOLD EACH
Russell's long life DOT 5 Silicone Brake Fluid is specifically developed for severe service and competition applications. Complies with Federal Motor Vehicle Safety Standard #116. It will not boil at temperatures up to 500°F. Russell Silicone Brake Fluid will not absorb moisture and is factory recommended for use with all Russell PowerFlex Hoses. Available in 12oz. bottles.

Do not mix with Non-DOT 5 Brake Fluid

Note : Best quantity price for buying a case of 12 each, this part cannot be shipped by air.

5/16" replacement ferrule **Type F**

PRO System II Nylon Hose

43132 SOLD IN 25' ROLL
Black Pro System II 3/16" nylon hose.

This semi-rigid, black nylon tubing is ideal for the custom bike builder who wants to fabricate their own brake lines. Pro System II hose allows for maximum flexibility and the non-abrasive, small diameter lines won't scratch your custom paint job. Rated at 1200 PSI, sold in 25' roll. Does not meet D.O.T. specifications. Use with Pro System II chrome hose ends.

PRO System II Fitting Assembly

- 1) Cut hose to desired length using a knife.
- 2) Disassemble the 3-piece adapter fitting.
- 3) Slide the tapered end (taper first) onto the hose.
- 4) Slide the brass ferrule, with tapered end going towards the end of the hose.
- 5) Push the hose into the body until it bottoms out, then bring the tapered nut forward and tighten down.

Note : To re-use Compression fittings, you need a 5/16" Replacement Ferrule PT#43138

RUSSELL

Scorpion Style Forward Controls for Yamaha Models

143014 SOLD AS SET
Fits Yamaha **Roadstar** models from 1999 to present.

143015 SOLD AS SET
Fits Yamaha **V-Star** models from 1998 to present.

143016 SOLD AS SET
Fits Yamaha **Warrior** models from 1999 to present.

These forward controls are precision CNC machined from aircraft quality billet aluminum and then beautifully chrome plated. They are manufactured and assembled in the USA and feature a side port master cylinder to accommodate a hidden brake line, 3/4" master cylinder bore and show quality mounting hardware.

Accessories available separately

Complete the design of bike with matching grips and rear peg sets.

164017 SOLD AS SET
Scorpion chrome and rubber grip set for Yamaha models.

144045 SOLD AS SET
Scorpion chrome and rubber rear peg set for Yamaha models.

Brake Hose Clamp

67167 SOLD EACH
Fits custom applications.

Chrome plated aluminum 49mm brake hose clamp.

Stainless 10 & 12mm Banjo Bolts

05504 SOLD AS SET
Fits custom applications.

Polished stainless steel 3/8" - 24 (10mm) Banjo bolts.

05505 SOLD AS SET
Fits custom applications.

Polished stainless steel 7/16" - 24 (12mm) Banjo bolts.

Give your brake lines a smooth new look with Diamond Engineering's polished stainless steel Banjo bolts. Both sizes have reduced wrenching and a lower profile head for a cleaner look. For performance the threads are rolled for greater strength and durability.

Banjo Bolt & Washers

43052 SOLD EACH
Fits brake master cylinders and calipers with 10mm banjo fittings.

43053 SOLD EACH
Fits brake master cylinders and calipers with 12mm banjo fittings.

Nicely chromed replacement banjo bolts with washers for master cylinders and calipers.

Banjo Washers

43054 PACK OF 10
Fits 3/8" and 10mm banjo bolts.

Soft metal washer with vulcanized "O" ring for banjo bolts.

ISO Floorboards

144016 SOLD IN PAIRS

Fits custom applications.
ISO-Boards with Brackets.

This system allows replacement of stock front footpegs with our ISO-Boards on popular metric cruisers. This kit includes our finely chromed ISO-Boards, with cushy, full length ISO rubber inserts for great looks and unbeatable comfort and a cast bracket to connect the ISO-Board to the slip resistant splined adapter. Freshly designed for front applications, this system requires the use of our make / model specific splined adapters found on page 89 (sold separately)

Note : Placing these footboards on mounts intended for footpegs may prohibit them from folding up in the same manner as the stock peg. While the board may be rotated on the mount for a comfortable foot position, some angles may cause the board to contact other components on the bike before the board is folded up completely. Also, if the board is positioned so it will fold up as stock, the trailing end of the board may be in a position that could limit cornering clearance. Before ordering, be aware of components on the bike that may interfere with the placement of the footboards.

Floorboard Covers for Honda

144007 SOLD IN PAIRS

Fits VTX 1300 models with factory floor boards (Retro, etc.) from 2003 thru 2006
VTX 1800 models with factory floorboards (Retro, etc.) from 2003 thru 2006

Simple to install with a huge impact. These Floorboard covers really make the difference to your foot rest area.

Passenger Floorboards

144015 SOLD IN PAIRS

Fits custom applications.
ISO-Boards and Mounting Kit.

This system allows the mounting of our ISO-Boards to passenger mounts on popular metric cruisers. This kit includes our finely chromed ISO-Boards, with cushy, full length ISO rubber inserts for great looks and unbeatable comfort and a cast bracket to connect the ISO-Board to the footpeg adapter. Requires the use of our make / model specific footpeg adapters found on page 89 (sold separately) not recommended for use in front (driver) applications.

Note : Placing these footboards on mounts intended for footpegs may prohibit them from folding up in the same manner as the stock peg. While the board may be rotated on the mount for a comfortable foot position, some angles may cause the board to contact other components on the bike before the board is folded up completely. Also, if the board is positioned so it will fold up as stock, the trailing end of the board may be in a position that could limit cornering clearance. Before ordering, be aware of components on the bike that may interfere with the placement of the footboards.

Floorboard Covers for Kawasaki

144008 SOLD IN PAIRS

Fits VN 1600 Classic models from 2003 thru 2006 and VN 2000 models from 2003 thru 2006.

Simple to install with a huge impact. These Floorboard covers really make the difference to your foot rest area.

Floorboard Covers for Kawasaki

144009 SOLD IN PAIRS

Fits all Floorboard model Vulcan 800 and 1500 models including Classic, Nomad and Drifter models.

Simple to install with a huge impact. These Floorboard covers really make the difference to your foot rest area.

Floorboard Covers for Yamaha

144006 SOLD IN PAIRS
Fits V Star 1100 and Road Star 1600 / 1700 models from 1999 thru 2006.

Dress up those drab stock rider (driver) boards with these finely chromed covers. Rubber inserts add comfort and give your boots a better grip. To install, just peel off the stock rubber layer, pop the cover into place, and screw the cover onto the stock board from the bottom.

Floorboard Covers for Yamaha

144010 SOLD IN PAIRS
Fits Roadliner and Stratoliner models.

Dress up those drab stock rider (driver) boards with these finely chromed covers. Rubber inserts add comfort and give your boots a better grip. To install, just peel off the stock rubber layer, pop the cover into place, and screw the cover onto the stock board from the bottom.

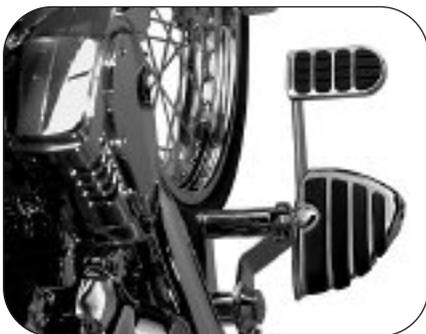

Dually ISO-Pegs with Clevis and Magnum Clamps

144017 SOLD IN PAIRS
Fits custom applications.

This is our most popular style of highway pegs. Using our patented Magnum Quick Clamp, they are a snap to install and provide long-haul comfort. They can be installed on any 1-1/4" diameter round tubing (frames or engine guards), but it is important to keep in mind that the footpeg itself will end up perpendicular to the bar to which it is mounted.

ISO Wing Male Mount Footpegs

144013 SOLD IN PAIRS
ISO Wing male mount footpegs for custom applications.

These pegs are compatible with all Kuryakyn cruise peg mounts and can also be used to "build-your-own" highway pegs by combining mounting components.

Note : These pegs will NOT replace the stock peg on any metric cruiser.

Longhorn Offset Dually Highway Pegs

144014 SOLD IN PAIRS
Fits custom applications.

These Longhorn offset dually ISO-pegs with 1-1/4" clamps are the all-in-one answer for long-haul comfort. We combined our most popular highway peg components into one product that's attractive, adjustable and easy to install.

Dually ISO Male Mount Footpegs

144026 SOLD IN PAIRS
Dually ISO male mount footpegs for custom applications.

These pegs are compatible with all Kuryakyn cruise peg mounts and can also be used to "build-your-own" highway pegs by combining mounting components.

Note : These pegs will NOT replace the stock peg on any metric cruiser.

Round Shift Peg Covers

Honda Models

144030 SOLD EACH

Fits VTX 1300 C models from 2003 thru 2006
VTX 1800 models from 2002 thru 2006

Note : Will also fit most any application with round shift pegs approximately 2-5/8" long and 9/16" in diameter.

Yamaha Models

144029 SOLD EACH

Fits Road Star Venture models
Road Star (heel and toe) models
V Star 1100 Classic (toe only, heel PT#144002) models
V Star 650 Classic (toe only, heel PT#144002) models from 2001 thru 2006

Note : Will also fit most any application with round shift pegs approximately 2-9/16" long and 9/16" in diameter.

Kawasaki Models

144029 SOLD EACH

Fits Vulcan 1500 models
Vulcan 1600 models
Vulcan 2000 (toe only, heel PT#144001) models

Note : Will also fit most any application with round shift pegs approximately 2-9/16" long and 9/16" in diameter.

Suzuki Models

144029 SOLD EACH

Fits Intruder 1500 LC models 1998 thru 2004
Boulevard C90, C50 (toe only, heel PT#144001) models from 2005 thru 2006

Note : Will also fit most any application with round shift pegs approximately 2-9/16" long and 9/16" in diameter.

Victory Models

144031 SOLD EACH

Splined adaptor mounts to allow replacement of stock **rear footpegs** with our ISO-Boards.

5-3/4" Headlamp Assemblies with either Diamond Cut "ICE" or "Skull" Lamps

These Rodeo Drive design headlamp assemblies are a combination of the old school step down look and the new style pointed rear section look. The smooth flowing or flamed style bodies and the Frenched bezels really make them stand out and look great. Each headlamp bucket comes with a 3/4" mounting block (mounting bolts are not included), a diamond cut ice or skull lamp and an H4 Xenon filled 55/60 watt bulb.

Note : Installing a higher wattage or Blue tint bulb will void the warranty as it will eventually cause damage either in your lamp or your wiring.

76150 SOLD EACH
5-3/4" Rodeo Drive Design Smooth / Frenched Bucket with DOT approved Diamond Cut "ICE" Lamp.

76151 SOLD EACH
5-3/4" Rodeo Drive Design Smooth / Frenched Bucket with DOT approved Diamond Cut "Skull" Lamp.

76152 SOLD EACH
5-3/4" Rodeo Drive Design Flamed / Frenched Bucket with DOT approved Diamond Cut "ICE" Lamp.

76153 SOLD EACH
5-3/4" Rodeo Drive Design Flamed / Frenched Bucket with DOT approved Diamond Cut "Skull" Lamp.

3/4" Headlamp Block Mount

76161 SOLD EACH
This Beautifully precisely crafted mounting block mounts to the bottom triple tree. They fit all 7", 5-3/4" and 4-1/2" headlamp buckets. Mounting bolts are not included.

5-3/4" Headlamp Assembly

76178 SOLD EACH
Beautifully chromed 5-3/4" DOT approved headlamp assembly offers high dollar looks at a budget price. Includes a chrome mounting block, 3 wire harness and a 60/55 watt halogen H4 bulb.

Don't let the price fool you, this light offers the looks of much higher priced units.

Sunset Boulevard Design Headlamp Buckets

These Sunset Boulevard design headlamp buckets give a sleek look that just fits the modern styles of today's custom bikes. Great looks whether it's the smooth flowing or flamed style buckets with exceptional quality and affordability these buckets have it all. Each headlamp bucket comes with a 3/4" polished aluminum block mount (mounting bolts are not included) and a bulb harness.

76154 SOLD EACH

Run - Turn - Brake Controllers

Honda Models

119004 SOLD EACH
Fits VTX 1800 models from 2002 thru 2004.

119003 SOLD EACH
Fits VTX 1300 and VTX 1800 all models from 2005 thru 2006, Shadow and Aero 750 models from 2004 thru 2006.

Yamaha Models

119005 SOLD EACH
Fits all 1600 Road Star models from 1999 thru 2003, all Road Star 1700 models from 2004 thru 2006 and all V-Star 650 and 1100 models.

These Plug and Play run - turn - brake controllers will change your turn signals into running, turn, brake lights and will light up the back of your motorcycle for increased visibility. These plug and play controllers connect directly into the stock OEM wiring harness under the seat with no need to splice any wires. Simply finish off the installation with the required red turn signal lenses, or bulbs if you have clear lenses, for the rear of your motorcycle.

Mini Halogen Silver Bullet Lights with 3/8" -16 Hollow Mounting Bolts

176007 SOLD IN PAIRS
Fits Metric custom applications.

Mini Halogen Silver Bullet Lights measure 2-1/2" x 1-5/8" and can be installed just about anywhere. They include minimal mounting hardware, and are assembled with high shock, heavy duty single filament quartz halogen bulbs. Halogen Silver Bullet kits for the rear of the bike include red and amber lenses. There is no need to use a load Equalizer.

Note : Halogen Silver Bullets have a single power wire and ground through their mount. Do not wire Halogen Silver Bullets with Red Lenses to operate as running lights. Excessive Heat will result in cracked lenses.

Bullet Light Mounting Kit for Metric Cruisers

Mini LED Silver Bullet Lights with 3/8" -16 Hollow Mounting Bolts

176005 SOLD AS KIT
Fits Metric custom applications. Mini LED Silver Bullet Lights with Amber lenses.

176008 SOLD AS KIT
Fits Metric custom applications. Mini LED Silver Bullet Lights with Red lenses.

Mini LED Silver Bullet Lights with either amber or red lenses, measure 2-1/2" x 1-5/8" and can be installed just about anywhere, and include minimal mounting hardware. LED Silver Bullets have CAD-designed lenses to enhance the already bright LED output to provide exceptional, jewel-like illumination. If you choose to run them on the rear of your bike, you simply wire the "bright" circuit from the light into your stock turn signal circuit and they will function just as your stock turn signals did. Red LED Silver Bullets are single circuit and are intended for rear applications as turn signals only.

Note : Amber LED Silver Bullets have three wires, low, bright and ground, so they can be wired to operate as running lights and turn signals. Check to see if amber running lights are legal in your State first.

Red LED Silver Bullets have two wires, power and ground, and are intended to be used only as turn signals.

176006 SOLD AS KIT
Fits Metric custom applications. Bullet light mounting kit.

Designed expressly for installing our Mini Silver Bullet Lights on Metric Cruiser fender struts. This kit makes it easy ! Specialized hollow mounting studs are 3/8"-16 on one end to thread into the light body and M8-1.25 on the other end to install in place of a fender strut mounting bolt on most Metric Cruisers. M8-1.25 is very common on Honda, Kawasaki, Suzuki and Yamaha fender struts, but you should confirm the suitability of this kit before ordering.

Halogen Headlight Bulb

76130 SOLD EACH
Fits 5-3/4" and 7" OD headlights using a P43T base for the bulb contacts. These H4 12V 60/55 Watt style Halogen double contact headlight bulbs are resistant to vibration and shock, they have been specially designed and developed for motorcycle use. Can be used as a replacement for OE bulbs or with headlights using a P43T base.

Turn Signals with Lighted Curved License Plate

176003 SOLD AS KIT
Fits 1700 Road Star models (excluding warrior) from 2004 thru 2006.

Get ready for the compliments when you stream line the back fender and add that custom top class look to your Road Star. Designed to flow around your stock tail light this kit fully replaces that stock bulky turn signal and license plate bracket.

Note : Installation of this accessory may be in violation of Federal motor vehicle safety standard #108. Please check your local laws first.

License Plate Bracket

176004 SOLD EACH
Fits VTX 1800C models from 2002 thru 2006 and VTX 1300C models from 2004 thru 2006.

Two vast improvements in one ! the sleek License Plate Bracket slides over the eye-sore version of a mount that comes standard on the fender, plus replaces stock turn signals with Kuryakyn's exclusive Silver Bullets. Our CAD-designed lenses on red LED. Silver Bullets provide exceptional, jewel-like illumination. Comes with a pair of slotted and visored bezels.

Note : Installation of this accessory may be in violation of Federal motor vehicle safety standard #108. Please check your local laws first.

Laydown License Plate Mount

176002 SOLD EACH
Fits VTX 1300 Retro/S models from 2003 thru 2006 and VTX 1800 Retro/S models from 2002 thru 2006.

The rear fenders on today's cruisers are very impressive. The license plate bracket and reflectors are a different story. Our new streamlined license frame holds a 4" x 7" plate and is truly the final touch needed. Such a difference for so little money.

Chrome License Plate Mounts

11267 SOLD AS SET
Flat style, fits all rear fenders from 1955 to Present, except FXWG & FXST models.

11268
Pyramid style, fits all rear fenders from 1955 to Present, except FXWG & FXST models.

Beautifully chrome plated replacements for the up right multi piece license plate mount and bracket on rear fenders. Comes with mounting hardware and two rubbers to help isolate vibration and allow you to mount the license plate to match the fender profile.

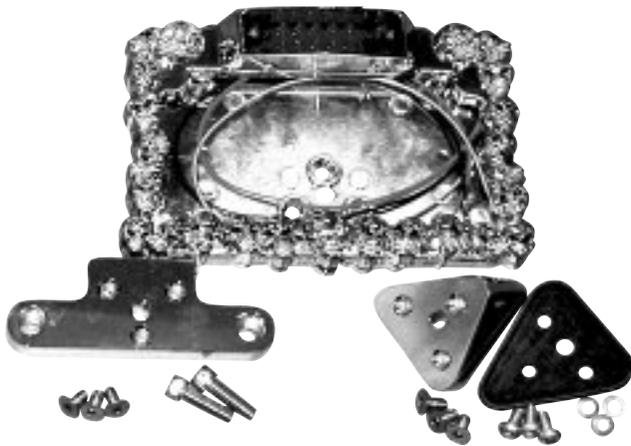

License Plate Mounting Chrome hardware Kit

05063 SOLD AS KIT
Fits all models and custom applications.

with Maltese Cross LED Tail Light**

76133 SOLD EACH
Machined from billet aluminum and then nicely chrome plated. These horizontal side mount license plate holders have a smooth finish and feature a Maltese Cross LED tail light. They will bolt to either 3/4" or 1" rear axles.

**Side Mount License Plate Holder
with Maltese Cross LED Tail Light**

76134 SOLD EACH
Machined from billet aluminum and then nicely chrome plated. These vertical side mount license plate holders have a smooth finish and feature a Maltese Cross LED tail light. They will bolt to either 3/4" or 1" rear axles.

**Side Mount License Plate Holder
with Maltese Cross LED Tail Light**

76135 SOLD EACH
Machined from billet aluminum and then nicely chrome plated. These radius style side mount license plate holders have a smooth finish and feature a Maltese Cross LED tail light. They will bolt to either 3/4" or 1" rear axles.

**Fender Mount License Plate Holder
with Maltese Cross LED Tail Light**

76136 SOLD EACH
Machined from billet aluminum and then nicely chrome plated. These horizontal fender mount license plate holders have a smooth finish and feature a Maltese Cross LED tail light. They mount to the fender using a supplied **rubber block**.

76137 SOLD EACH
Machined from billet aluminum and then nicely chrome plated. These horizontal fender mount license plate holders have a smooth finish and feature a Maltese Cross LED tail light. They mount to the fender using a supplied **block mount**.

Note : Fender mount license plate holders are supplied with either a rubber block mount or aluminum block mount depending on part number ordered.

Note : Not Dot Approved.

Stainless Side Mount Tail Light & License Plate Brackets

Here's a fine selection of simple, yet sturdy, axle-mount tail light and license plate brackets. Designed for either left side or right side mounting, these durable stainless creations are offered as a complete assembly for both license plate & tail light or license plate only. They're made for 3/4" rear axles.

Left Side Mount License Plate Holder

76122 SOLD EACH
Fits custom applications using 3/4" axles.
Mirror polished **left side** mount stainless steel license plate bracket.

Left Side Mount Tail Light & License Plate Holder

76120 SOLD EACH
Fits custom applications using 3/4" axles.
Mirror polished **left side** mount stainless steel tail light & license plate bracket. Takes Cat-eye style tail light PT# 76018 or 76058, not included.

Right Side Mount License Plate Holder

76123 SOLD EACH
Fits custom applications using 3/4" axles.
Mirror polished **right side** mount stainless steel license plate bracket.

Right Side Mount Tail Light & License Plate Holder

76121 SOLD EACH
Fits custom applications using 3/4" axles.
Mirror polished **right side** mount stainless steel tail light & license plate bracket. Takes Cat-eye style tail light PT# 76018 or 76058, not included.

Handlebar Switch

75009 SOLD EACH
Fits custom applications.
Chrome plated Hi / Low or turn
signal handlebar switch for
1" handlebars.

Universal Button Switch

75063 SOLD EACH
Fits custom applications.
Heavy duty universal Horn or Kill
button switch.

Universal Switch

75062 SOLD EACH
Fits custom applications.
Heavy duty universal Dimmer or Turn
signal switch.

Universal Stop Light Switch

75008 SOLD EACH
Fits custom applications.
Heavy duty universal stop light
switch. Pull on position, swivel
mounted and 5" long.

Button Switches

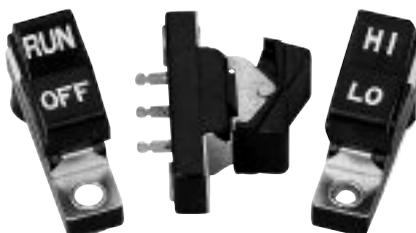

75015 SOLD EACH
Fits custom applications.
Button switch for starter, horn or turn
signal.

75016 SOLD PACK OF 10
Replacement short button cap.

75065 SOLD PACK OF 10
Replacement long button cap.

Rocker Switches

75064 SOLD EACH
Fits custom applications.
Run / Off rocker switch.

75066 SOLD EACH
Fits custom applications.
Plain rocker switch.

75017 SOLD EACH
Fits custom applications.
Hi / Low rocker switch.

Push Button Switch

75007 SOLD EACH
Fits custom applications.
Chrome plated horn / starter button.

Round Key Ignition Switch

75004 SOLD EACH
Fits custom applications.
Two position (off, ignition with lights)
ignition switch with round keys to
provide tamper resistance. Switch is
1-3/4" long with 1-3/8" outside diameter.

75003 SOLD EACH
Fits custom applications.
Three position (off, ignition and ignition
with lights) ignition switch with round
keys to provide tamper resistance.
Switch is 1-3/4" long with 1-3/8"
outside diameter.

Mini Push Button Switch

75214 SOLD EACH
This tiny little stainless steel push button
switch comes with a special radius
shaped spacer to allow mounting in
handlebars. Switch works for turn
signal, starter, horn, kill or hi-low, must
be used with a switch relay. Requires a
9/32" hole and 5/16" UNF nut. Switch
is less than 1/2" in diameter and sticks
only 1/4" above the handlebar surface.
Can also be used on flat surfaces
without using the radius shaped spacer.
Switch comes with 20" wires installed.

Handlebar Stop Light Switch

75014 SOLD EACH
Fits custom applications.
Handlebar stop light switch.

Custom Horn

75024 SOLD EACH
Fits custom applications.

Early Style Horn

75023 SOLD EACH
Fits custom applications.
Early style 12 volt electric horn with
nicely chromed grill.

Starter Push button Switch

75239 SOLD EACH
Fits custom applications.
Made in USA 15amp starter push button
switch with 15/32 - 32 UNS thread.

Nicely chromed 12 volt horn with 4"
mounting bracket for custom applications.

Horn Cover

175001 SOLD EACH
Fits V Star 650 models from 1998 thru
2006 and V Star 1100 models from
1999 thru 2006.

Making your presence known is a
beautiful thing. But the horn itself sure
isn't. This bolt-on chrome cover
ensures your horn is heard but not
seen.

12 Volt Custom Horn

75025 SOLD EACH
Fits custom applications.

12 volt universal horn with chrome face.

Trumpet Horn Kit

75067 SOLD AS KIT
Fits custom applications.

Chrome plated 12 voltroduction of the OEM trumpet horn.

Regulator Cover

150001 SOLD EACH
Fits all Road Star 1600 / 1700 models
(excluding Warrior).

150003 SOLD EACH
Fits all Road Star 1600 models.

Flow some chrome over your regulator
and add sparkle to this bland part.
These traditional finned style regulator
covers contain slots to allow ample air
flow to keep your regulator cool and
functional.

High Performance Maintenance Free Batteries

Killer Watts High Performance Maintenance Free batteries are a must if high power is top priority in a replacement battery. Killer Watts means more power, less maintenance and longer life.

Killer Watts High Performance Maintenance Free batteries are your best choice for motorcycles.

No Spilling, No Leaks, No Water to check and topping off is a thing of the past.

Increased Power and up to 30% More Cranking Amps thanks to a radial grid design and additional plates.

Long Lasting which means Killer Watts High Performance Maintenance Free batteries will last up to three times longer than conventional batteries.

Exceptional Resistance to Vibration makes Killer Watts High Performance Maintenance Free batteries the most reliable battery on the market today.

Patented Sealed Post

prevents acid seepage, reduces corrosion – extends battery life.

Safety Valve Flame/Arrestor

relieves excess pressure.

Thru-Partition Construction

provides shorter current path with less resistance than "over the partition" construction – you get more cranking power when you need it!

Special Active Material

is compounded to withstand vibration, prolong battery life and dependability.

Special Grid Design

withstands severe vibration, assures maximum conductivity.

Special Separator

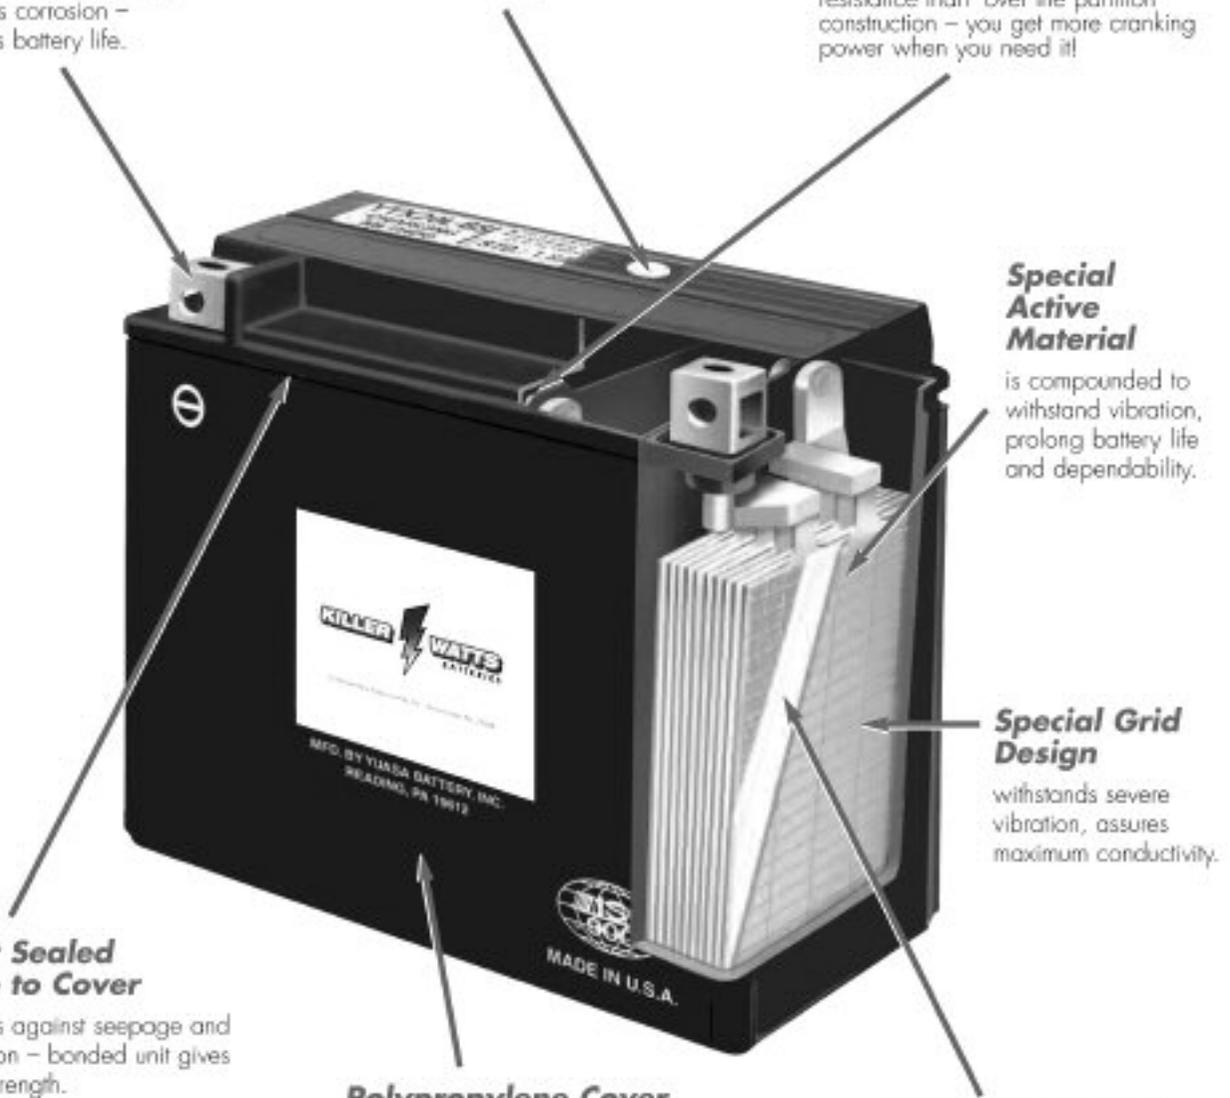

makes the battery spill-proof. Valve regulated design eliminates water loss and the need to refill with acid.

Heat Sealed Case to Cover

protects against seepage and corrosion – bonded unit gives extra strength.

Polypropylene Cover and Container

assures reserve electrolyte capacity for cooler operating temperatures; gives greater resistance to gas and oil – and impact in extreme weather conditions!

High Performance Maintenance Free Batteries

Absorbed Glass Mat (AGM) Technology is an advanced battery design used in Killer Watts Maintenance free batteries that eliminates water loss. Once it's filled with acid the battery is permanently sealed - so you'll never need to fill it with water or check the acid level.

Long life

Because of its lead calcium design, the AGM battery will hold its specific gravity more than three times longer than conventional lead antimony types. This means much longer periods between charges when the battery is used in a standby mode, like winter storage.

Sealed, Non-Spillable

It's totally sealed and all of the acid is absorbed in the special plates and separators, so there is no need to worry about acid leaks on valuable vehicle parts and accessories.

These batteries are filled, charged and sealed at the factory. But due to various shelf storage periods, all batteries should be checked prior to putting into service to determine if they have a minimum of 12.8 Volts. If not they will require charging at 1amp or less until they reach the minmum of 12.8 Volts before putting into service.

82005 SOLD EACH

Battery type : YTX20HL-BS

Voltage : 12V

Capacity : 18 Amp Hrs

Amps : 1.8

Cold cranking amps : 310

Dimensions : 6-7/8" x 3-7/16" x 6-1/8"

Conventional Batteries

A workhorse battery engineered to protect against corrosion, withstand vibration and deliver high cranking power.

The industry standard for motorcycles, our Conventional Battery is anything but conventional. This workhorse is for applications requiring operation on uneven surfaces and vibrating environments - even when the weather's dealing its worst. It's the rugged, reliable and dependable battery that customers are looking for !

These features are built into our conventional manifold vented battery - and every battery in the Killer Watts line :

Patented separators provide high cranking power
 Though- partition construction delivers maximum power.
 Unique sealed posts resist corrosion for longer battery life.
 Polypropylene cover and container thwart damage from gas, oil and impact. Heat-sealed, bonded unit fabrication protects against seepage and corrosion.

Note : All Conventional Batteries are shipped dry without acid, the acid for battery activation is not included. Instructions on how to fill the battery with acid are included.

82000 SOLD EACH

Battery Rubber Strap

75031 SOLD EACH

Fits custom applications and FXST / FLST models 1991 to Present, FL(H)T models 1980 to 1992, XLCR models 1977 to 1978 and 1979 XL models.

Rubber battery hold down strap.

LED Battery Gauge

119002 SOLD EACH
Chrome plated LED Battery Gauge

119001 SOLD EACH
Black LED Battery Gauge

Unfortunately, most riders find out that their charging system has failed when they end up broken down on the side of the road. A little advance warning can keep you from being stranded in the middle of nowhere. Now you'll know at a glance whether or not your charging system is working properly.

Our LED Battery Gauge is an array of LEDs indicating the operating voltage of the bikes electrical system. Green LEDs represent the normal operating range of your charging system, 12.5v to 14.5v. Amber LEDs warn the rider that the bike is not charging. If the reading drops below 10v or exceeds 15v, a flashing red LED will alert the rider of an impending stall or the possibility of damage to the battery and/or sensitive electronic components on the motorcycle.

Simple two wire connection and a compact size (about 2" x 3/4" x 3/16") make installation a breeze. A daylight sensor automatically adjusts the brightness of the LEDs. They are bright during the day for visibility and dim at night so as not to blind the rider.

Moroso Blue Max Ignition Wire Sets

The superiority of Blue Max 8mm, 800 ohm Spiral Core Wire comes from over 25 years of continual refinement. The combination of our engineers' expertise and a rigorous testing program gives you the finest ignition wire available for your bike

74027 SOLD AS SET
Black lead wire set, Powersports, 90 degree terminal connector.

74028 SOLD AS SET
Red lead wire set, Powersports, 90 degree terminal connector.

74029 SOLD AS SET
Yellow lead wire set, Powersports, 90 degree terminal connector.

74030 SOLD AS SET
Black lead wire set, Powersports, Straight terminal connector.

Anti Vibration Mounts

28002 SOLD PACK OF 3
 Fits custom applications.
 Anti Vibration Mounts with 5/16" UNF studs.

28001 SOLD PACK OF 3
 Fits custom applications.
 Anti Vibration Mounts with 5/16" UNC studs.

Anti vibration mounts perfect for mounting gas tanks, oil tanks, battery boxes and all kinds of electronic parts to insulate them from vehicle vibrations.

Mount Stud Cover

28006 SOLD EACH
 Chrome aluminum rubber mount stud cover. Fits over the black rubber mount, adds a nice touch especially where the mounts are visible on wide tire frames.

74031 SOLD AS SET
Red lead wire set, Powersports, Straight terminal connector.

74032 SOLD AS SET
Yellow lead wire set, Powersports, Straight terminal connector.

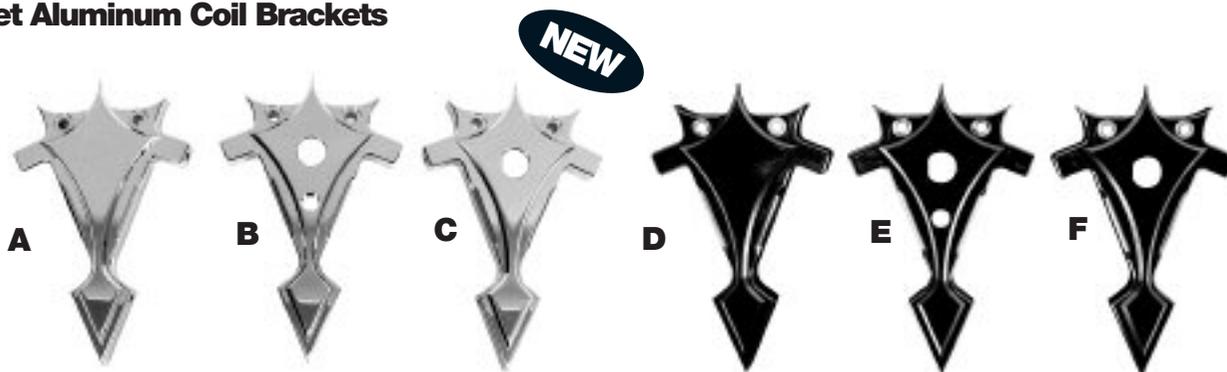

Wire Sleeve Kits

74024 SOLD AS KIT
Black insulated wire sleeve kit.

74025 SOLD AS KIT
Red insulated wire sleeve kit.

74026 SOLD AS KIT
Yellow insulated wire sleeve kit.

Billet Aluminum Coil Brackets

No holes

75232 SOLD EACH
Fits custom applications.

Beautifully **chrome plated** billet aluminum coil bracket with machined highlights, accepts single and dual tower Dyna brand coils. **(style A)**

75238 SOLD EACH
Fits custom applications.

Gloss black powered coated billet aluminum coil bracket with machined highlights, accepts single and dual tower Dyna brand coils. **(style D)**

With ignition switch hole

75230 SOLD EACH
Fits custom applications uses KW PT# 75004 or 75002 ignition key switch (not included).

Beautifully **chrome plated** billet aluminum coil bracket with machined highlights, accepts single and dual tower Dyna brand coils. **(style C)**

75236 SOLD EACH
Fits custom applications uses KW PT# 75004 or 75002 ignition key switch (not included).

Gloss black powered coated billet aluminum coil bracket with machined highlights, accepts single and dual tower Dyna brand coils. **(style F)**

With ignition switch & starter button hole

75231 SOLD EACH
Fits custom applications uses KW PT# 75004 or 75002 ignition key switch and a heavy duty starter button (not included).

Beautifully **chrome plated** billet aluminum coil bracket with machined highlights, accepts single and dual tower Dyna brand coils. **(style B)**

75237 SOLD EACH
Fits custom applications uses KW PT# 75004 or 75002 ignition key switch and a heavy duty starter button (not included).

Gloss black powered coated billet aluminum coil bracket with machined highlights, accepts single and dual tower Dyna brand coils. **(style E)**

Chrome Plated Thunderbolt Coils

74008 SOLD AS KIT
Fits custom applications.

Chrome plated 12 volt ignition coil with black spark plug leads. Coil mounting bracket not included and must be ordered separately.

Improved version to the classic round style coils. Internal windings are 100% immersed in a genuine oil filled jacket which cannot become brittle or crack like in cheaper versions.

74009 SOLD EACH
Nicely chromed ignition coil mounting bracket for round ignition coils.

Champion Copper Plus Spark Plugs

Features include a wider base insulator which provides an easier path to speed the transfer of heat, and a longer insulator nose containing a center electrode of pure copper inside of chrome nickel to transfer heat between firing and help resist fouling.

Honda models

74033 SOLD IN PACK OF 4
Champion# RA8HC

Fits :

VT700C Shadow models from 1986 thru 1987
VT800C Shadow models 1998

25002 SOLD EACH
Fits all frame backbones up to 1-3/4" and comes with slotted holes for mounting.

Quality steel universal seat bracket with a chrome finish.

Phantom II Goggles

34001 SOLD EACH

These stylish goggles come with one piece polycarbonate lenses and include a cushioned headband and air vents to help prevent misting. Will fit over many spectacles.

Black Bungee Cords

81002 SOLD IN PACK OF 10
Black 24" Bungee cords.

81004 SOLD IN PACK OF 10
Black 16" Bungee cords.

These cords are all you need to handle your tie down needs without disturbing the appearance of your motorcycle.

Heavy Duty Flat Nylon Tie Down Straps

81001 SOLD IN PAIRS
Heavy duty black straps woven from weather resistant nylon web.

Heavy Duty Tie Downs

81003 SOLD IN PAIRS
Extra heavy duty tie downs.

The locking cam is 'toothed' and two sided, not just clamping the strap, but gripping it between two facing toothed jaws that will not vibrate loose or pull free. The strap is woven from weather resistant nylon web, is 5 feet long and 1" wide and fitted with 3/8" vinyl coated steel hooks.

Laser Alignment Tool

81006 SOLD AS KIT
Laser wheel alignment tool by Tiger Manufacturing.

For a motorcycle to turn, brake, accelerate and maintain stability at high speeds the front and rear wheels must be inline. That's why a motorcycle is called a single track vehicle. Most bikes are set-up by lining up the rear wheel belt or rear chain to the transmission pulley or sprocket, believe it or not, this is not correct. Actually, this should be handled AFTER the wheels are aligned.

By using this kit and the tools provided, you can quickly align the rear wheel to the front wheel and thus achieve dynamic stability. It's a simple tool that handles a very complex job. It takes an engineer to understand single-track vehicle dynamics. This tool keeps you out of school and on the road much safer. Used as instructed, it will make your bike stop straight and do burnouts without going sideways. Your belt will last much longer, so will chains and tires. Plus, when you get a little wild in the corners the bike will go around right and left corners equally. Also, at high speed it will feel solid, instead of like you are on ice.

Goldwing Parts

Chrome Rotor Covers

142004 SOLD IN PAIRS
Fits GL 1800 models from 2001 thru 2006.

These high quality Rotor Covers feature a flawless, smooth show chrome finish. Their durable composite construction is lightweight and can never rust. Exclusively Kuryakyn, our covers feature rounded edges on all openings, gussets where needed for strength and a new streamlined look that make our covers a cut above the rest. By themselves, or with our famous LED Ring of Fire, these will give your Wing a glimmering, classy appearance.

Rear Wheel Ring of Fire

176018 SOLD PAIRS
Fits GL 1800 models from 2001 thru 2006. Chrome Rotor Cover with **Amber Ring of Fire**.

We see your love for the Flow from the front wheel Ring of Fire; now light the rest of your Gold Wing with the new Rear Wheel Ring of Fire. With all the mounting hardware you will need, these beauties cast that same glow out front under your saddlebags.

Chrome Rotor Covers with LED Ring of Fire

142000 SOLD EACH
Fits GL 1800 models from 2001 thru 2006. Chrome Rotor Cover with **Amber Ring of Fire**.

142001 SOLD EACH
Fits GL 1800 models from 2001 thru 2006. Chrome Rotor Cover with **Amber and Blue Ring of Fire**.

142002 SOLD EACH
Fits GL 1800 models from 2001 thru 2006. Chrome Rotor Cover with **Amber, Blue and Green Ring of Fire**.

142003 SOLD EACH
Fits GL 1800 models from 2001 thru 2006. Chrome Rotor Cover with **Amber, Red and Blue Ring of Fire**.

Here's an accessory no GL1800 should be without. Chrome Rotor Covers with our LED Ring of Fire. These high quality Rotor Covers feature a flawless, smooth show chrome finish. Their durable composite construction is lightweight and can never rust. Exclusively Kuryakyn, our covers feature rounded edges on all openings, gussets where needed for strength and a new streamlined look. With our Ring of Fire, there are two separate rows of LED lights. On all versions, a row of amber LEDs shine out, away from the bike through each window in the chrome ring. A second row of LEDs shine in, toward the wheel, illuminating it with a brilliantly vibrant glow. This secondary row is offered in several color options to complement most paint schemes. Improved design features encapsulated circuit boards that withstand exposure to the elements.

Chrome Wheel Spoke Cover

160004 SOLD AS SET
Fits GL 1800 models from 2001 thru 2006.

No need to spend a ton on chroming your wheel. These easy to install chrome accents make a huge statement. Lots of flash especially if you have our "Ring of Fire". Very light weight and even distribution so re-balance is not necessary.

Front Fender Tip

122000 SOLD EACH
Fits GL 1800 models from 2001 thru 2006.

Combine this beauty and protection with our PT#176015 LED side strips or just add it by itself. With a few seconds for simple installation, it really perks up that front fender.

LED Front Fender Accent

176015 SOLD IN PAIRS
Fits GL 1800 models from 2001 thru 2006.

Designed to blend with the smooth lines of the GL1800 front fender, this sleek chrome molding encases a slim lens, housing a bright series of LEDs. Stunning good looks and additional visibility will make this a popular addition to any GL1800.

Shark Tooth Fender Accents

150025 SOLD IN PAIRS
Fits GL 1800 models from 2001 thru 2006.

Fill in the gaping holes on your front fender with the stylish Shark Tooth Fender Accents. These little beauties add that finishing touch to the empty holes on the front fender.

Chrome Eyebrows

176013 SOLD IN PAIRS
Fits GL 1800 models from 2001 thru 2006.

“Chrome Eyebrows” close that unsightly gap between your headlamps and fairing. This beautifully radiused chrome strip melds the fairing components together perfectly. With simple installation, add that classy touch to the front fairing of your Gold Wing.

Fairing Scoop Trim

124001 SOLD EACH
Fits GL 1800 models from 2001 thru 2006.

Wow! Does this easily installed chrome fairing scoop trim add class or what?

Fairing Intake Vent Inserts

124000 SOLD IN PAIRS
Fits GL 1800 models from 2001 thru 2006.

Transform the plain-Jane “black hole” fairing air intake vents with stylish chrome inserts. It couldn't be easier - just clean the inlet surface, peel and stick !

Shark Gills

150024 SOLD IN PAIRS
Fits GL 1800 models from 2001 thru 2006.

Make your mile munching Gold Wing look like the asphalt eating predator it is with our Shark Gill Fairing Accents. Shark Gills are racy, one-piece, chrome plated accents incorporating a streamlined main beam with six stylish vanes. Instantly gives the fairing exit vent an aggressive, high speed appearance. They are held in place with a high-tech adhesive and installation requires no drilling or disassembly of the motorcycle; it only takes a few minutes.

Lightning Valve Covers

176023 SOLD SET OF 4
Fits GL 1800 models from 2001 thru 2006.

With this set of Chrome Valve Covers, you can create a sleek, uniform look without compromising the integrity of the stock valve covers and risking leakage or less than perfect fitment. Our chrome covers are held on by a two sided adhesive pad designed specifically for high temperatures they fit snugly right on top of the stock valve covers, so they look exactly like replacement chrome covers, but without the expense or the potential headaches.

Chrome Timing Chain Cover Set

150026 SOLD AS SET
Fits GL 1800 models from 2001 thru 2006.

If your eyes hurt from looking at the ugly aluminum cam chain cover, but you don't want the expense and hassle of having the cover chromed, you're in luck. Our new chrome Timing Chain Cover Set for GL1800 covers the entire timing chain cover in minutes. Just peel and stick! The strong adhesive is specially designed for high temperatures. A chrome version of the stock screw-in cap is included.

Boomerang Frame Covers

150027 SOLD IN PAIRS
Fits GL 1800 models from 2001 thru 2006.

We've made our enormously popular frame covers even better. We've added carefully designed and perfectly placed rubber scuff protectors in the crucial areas. Very stylish as well.

Pivot Cover

150028 SOLD IN PAIRS
Fits GL 1800 models from 2001 thru 2006.

This attractive flash of chrome nicely contrasts the matte aluminum finish of the GL1800 perimeter frame. Easy-on, easy-off for service.

Dually ISO Pegs

144040 SOLD IN PAIRS
Fits all GL 1800 models.

The first of the GL1800's had barely hit the street when riders began asking us for footpegs for them. Now available as a direct replacement, these classy looking, comfortable pegs can be installed in minutes.

ISO Brake Pedal Pad

143012 SOLD EACH
Fits all GL 1500 and Valkyrie (ex. Rune) models.

The ISO brake pedal pad covers the raw, unfinished end of your brake pedal. Beautiful chrome with rubber inserts provide a non slip surface.

Driver Floorboard Kit

144042 SOLD AS KIT
Fits GL 1800 models from 2001 thru 2006.

Put your feet in a more comfortable position, update foot controls, and improve the look of your bike, all at one time. Our new Driver Floorboard kit includes a built-in heel-toe shifter and a brake lever for the ultimate in comfort and convenience. The latest addition to Kuryakyn's exclusive ISO family, our finely chromed driver boards have cushy, full length ISO rubber inserts to absorb vibration. The boards fold up for easy maneuvering in tight spaces and to allow access to the stock kickstand. The kit installs in minutes.

Dually ISO Pegs

144041 SOLD IN PAIRS
Fits all GL 1500 and Valkyrie (ex. Rune) models.

Direct replacement for the stock rider pegs.

Transformer Floorboard

144044 SOLD IN PAIRS
Fits GL 1500 SE models from 1990 thru 2000.

176012 SOLD IN PAIRS
Fits GL 1800 models from 2001 thru 2006.

Kuryakyn Transformer Floorboards blend style, function and comfort. A direct replacement for the stock passenger floorboards, the Transformer Boards bolt up in minutes. Even when not in use, these finely chromed boards are a great improvement over the dull aluminum stock units. When folded down, they offer a secure, comfortable perch for passengers. The stock height adjustability is still fully functional on GL 1500 SE models.

The most important and unique feature of this system is the hidden retractable passenger cruise pegs. A folding arm and footrest deploys to provide an alternate foot position 4-1/2" higher and 5-1/2" farther forward than the stock foot position.

Ergo II Cruise Mounts

144043 SOLD AS SET
Fits GL 1800 models from 2001 thru 2006.

Ergo II Cruise Mounts are undeniably the best highway peg available for the GL1800. The sturdy two piece clamp assembly is easily installed and locates the swingarm mounting point high and tight for excellent cornering clearance. Providing a wide range of adjustability, the Ergo II is sure to please.

Note : Kuryakyn Highway Pegs offer a wide range of adjustment. It is the responsibility of the installer or the end user to ensure they do not interfere with the operation or cornering clearance of the motorcycle.

Chrome Widestyle Lever Sets

165013 SOLD IN PAIRS
Fits GL 1500 models from 1990 thru 2000.

165014 SOLD IN PAIRS
Fits GL 1800 models from 2001 thru 2006.

Our own exclusive design features reamed brass bushings. These are wider and more comfortable chrome levers, very popular among riders with small hands.

Replacement Ergo II Cruise Mount Arms

144039 SOLD IN PAIRS
Replacement short Ergo II arm 4-1/2" long.

143013 SOLD IN PAIRS
Replacement long Ergo II arm 6" long. Replacement arms are offered both to replace crash or tip over damage and to help tailor the footpeg placement for taller or shorter riders. All Ergo and Ergo II Cruise Pegs come standard with 6" arms.

ISO Grips

164013 SOLD IN PAIRS
Fits Gold Wing models from 1975 thru 2006.

Combining style and comfort, Kuryakyn ISO Grips are a quantum leap forward in handgrip design. Like the popular ISO pegs, these grips provide a soft, non slip surface that dampens operating vibration. Recessed areas between the ISO pads permit air flow for added comfort in hot weather. The knurled accent ring adds a classy detail.

Note : These grips do not support the heated grip option on many late model bikes. They also are not compatible with "bar-end" weights found on many bikes. The majority of the time, removing these weights is a simple affair and the vibration absorbing quality of our ISO grips more than compensates for the vibration damping lost by removal of the bar-end weight.

Ergo Cruise Pegs

144038 SOLD IN PAIRS
Fits GL 1500 models from 1998 thru 2000 and all Valkyrie (ex. Interstate) models.

The Ergo arms with Dually ISO pegs are Ergonomically designed for maximum driver comfort, these mounts make possible an unbelievable range of adjustment for the tall, short or in between rider. The articulated mounting bracket is made of highly polished stainless steel for extreme strength, great looks and simple installation.

The 6" long chrome swing arm has an ingenious locking mechanism and is canted at a 6 degree angle which angles the pegs just the right amount for ideal comfort.

Handlebar Risers

164015 SOLD AS SET
Fits GL 1800 models from 2001 thru 2006.

With 5 different position options, adjust your handlebars to make your Gold Wing the most comfortable rider. With all the parts you need we don't know anyone who offers this many options and convenience in one set.

LED Lighted Trunk Molding

176021 SOLD IN SET OF 3
Fits GL 1800 models from 2001 thru 2006.

Pure class best describes this beautiful lighted chrome trunk molding. Styled to be a perfect match for our lighted saddlebag molding, they look incredible in a complete set. Two circuit LEDs function as both running and brake lights for a highly visible, long lasting light source that places a minimal draw on the electrical system. These great looking moldings install in a fraction of the time as old fashioned light bars.

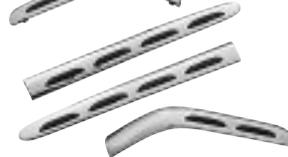

Saddlebag Top Accents

151002 SOLD IN PAIRS
Fits GL 1800 models from 2001 thru 2006.

Add some "eye candy" to your plain Jane saddlebags and added protection to the top corner from those annoying surface scratches. Just stick'em on and get ready for the compliments.

LED Lighted Saddlebag Molding

176022 SOLD IN SET OF 4
Fits GL 1800 models from 2001 thru 2006.

These chromed replacement lighted moldings add the sparkle and elegance of the old style chromed tubular light bars without the added weight, mounting holes, potential for rust, and maintenance. These replace existing parts on the bike so there is no added bulk. All stock mounting points and hardware are retained. State of the art LED lights have an eye catching, brilliant quality that draws minimal power and generates very little heat. These lighted moldings look great by themselves, or with the other LED accessories that we offer for the GL 1800. Any other type of light bar is now ancient history.

Saddlebag Bottom Trim Molding

151001 SOLD IN SET OF 3
Fits GL 1800 models from 2001 thru 2006. **Trim molding without LEDs.**

176019 SOLD IN SET OF 3
Fits GL 1800 models from 2001 thru 2006. **Trim molding with Red LEDs.**

Highlight this otherwise dull drab panel with our all new chrome or chrome & LED mini strips. These Bottom Trim Moldings replace your stock components and add the finishing touch to the bottom of your Saddlebags. The LED options adds that finishing touch to completely light up the rear molding of your bike. Works well with Lighted Trunk Molding part PT#176021 and Lighted Saddlebag molding PT#176022.

Pulsating Brake Light Controller

176025 SOLD EACH
Fits all GL 1500 and 1800 models.

Warn drivers you're stopping with pulsating brake lights for the back of your Gold Wing. With this controller you can activate up to 6 brake lights to flash automatically and then stay on with a single squeeze of your brakes. The soft switching technology does not harm the life of your brake lights, so ride in confidence and be seen.

Saddlebag Tail Light Accents

176024 SOLD EACH
Fits GL 1800 models from 2006 onwards.

These simple peel and stick chrome accents divide the clear and red section of your GL 1800 saddlebag tail light. Looks great alone but complete the style with Kuryakyn trunk tail light accents PT#176020. These little beauties also coordinate well with Kuryakyn Trunk and Saddlebag moldings or any of the Kuryakyn chrome accents.

Trunk Tail Light Accents

176020 SOLD IN PAIRS
Fits GL 1800 models from 2001 thru 2006.

Simply peel and stick these stylish chrome accents to the bottom edge of your tour trunk brake lights for that perfect sparkle. Looks great alone but complete the style with Kuryakyn Saddlebag tail light accents PT#176018. These accessories also coordinate well with Kuryakyn Trunk and Saddlebag moldings or any of the Kuryakyn chrome accents.

License Area Trim with Lights

176014 SOLD EACH
Fits GL 1800 models from 2001 thru 2006.

It just seemed to us that the factory forgot something between your saddlebags - it looks so empty. Our new trim changes all that. It gives the back of your Wing a whole new personality along with added visibility. Brilliant Red LEDs light up while running and go "super bright" when you hit the brake. No cut and splice necessary, just a simple plug-in for wiring.

Rear Fender Trim

122001 SOLD EACH
Fits GL 1800 models from 2001 thru 2006.

This handsome trim strip is a natural complement to the Debris Modulator Mud Flap and our trick Lighted Molding. It installs easily on the bottom edge of the rear fender and provides a classy finishing touch.

Turndown Exhaust Extensions

147001 SOLD IN PAIRS
Fits GL 1800 models from 2001 thru 2006.

Our sleek Turndown Exhaust Extensions give your GL1800's exhaust a smooth, finished appearance. Beautiful chrome and sturdy steel construction will provide years of trouble free service. They quickly and easily replace the stock exhaust tips, no modification required !

Triple Straight Exhaust Extensions

147000 SOLD IN PAIRS
Fits GL 1800 models from 2001 thru 2006.

These burly Exhaust Extensions really make a statement. Their size and six outlets elude to the power of the 1800 cc giant. Although the six "outlets" are massive for the appearance of a high performance exhaust system, they are actually sealed off and the exhaust gases are directed downward, out the bottom of the extension. This will keep the visible end of the extension clean and it will aid in keeping soot off saddlebags and trailers. These extensions easily replace the stock muffler tips and include necessary mounting hardware.

Trailer Hitch

128003 SOLD EACH
Fits GL 1800 models from 2001 thru 2006.

Our receiver hitch for the GL 1800 is good looking, strong, and very easy to install. This hitch features a 6 point mounting system for superior strength and rigidity. Installation can be performed easily with the bike on its center stand, and requires only a few common hand tools.

Mounts simply clamp around the OEM rear saddlebag guard, providing an easily accessible, sturdy anchor point for the hitch. Loosening the pipes and / or saddlebags is not necessary for hitch installation. When installed, the mounting framework is completely out of sight. Only the hitch and ball assembly and front mounting points are visible. The rear support plate is easily removed for quick and effortless tire changes. We feel there is no stronger, easier to install hitch available from any source, at any price.

Luggage Rack

151000 SOLD EACH
Fits GL 1800 models from 2001 thru 2006.

The styling of our luggage rack for the Gold Wing is as fresh as the look of the GL 1800! The billet aluminum construction has a burly look and is extremely strong. Finished in dazzling chrome of course!

Metric Customs are no longer a future market, it's right now !

The "Daytona"
1st place Daytona Road Bike Show / Pro Street Class, February 2006

The story began with a dream...

Scott Britt began building custom bikes in 1981....his first custom paint job was for a customer, Mark Roberts, who later became a part of the custom team....Garry Lane was already onboard and is still doing the engine work and assembly. In 1985, Scott began building V-Max's and stepped up that program in 1987 with a purple, wheel-standing, smoke-burning stretched V-Max, in 1987 built his first FZR1000, the V-Max's evolved even further until Scott and the team starting building Royal Stars in 1996. One of those Royal Stars became the first metric bike in the radical custom class at Daytona....another one the "Speedstar" became the first metric bike in the Top 100....it also became the first metric bike on the cover of any Easy Rider Mag., Dec. '99 VQ, and it also won Peoples' Choice at the Honda Hoot in '99 as well as first in class and many other show wins since then.

Scott Britt is known as the pioneer of metric custom motorcycles, creating the most radical custom metric motorcycles in the U.S. Countless awards have been won at shows, including Daytona's Rats Hole and Boardwalk Bike Show. Scott has had numerous bikes featured in magazines.

"I certainly realize and appreciate that American motorcycles have grown the marketplace to the point that it is now a lifestyle and new generation of enthusiast. The creativity and diversification of today's builders continue to amaze me. I get the creativity for so many versions of custom metrics as I watch so many different builders display their artistry in motorcycles. It has been a long journey listening to negative remarks about building a custom foreign motorcycle to now watching some of the major builders looking at metric powerplants to fuel new ideas."

The "Sturgis"
AMD World Championship Biker Build Off
Sturgis August 2006, 2nd place Metric Class
